

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. INAPPORTS

The President laid before the Board the report of the Inspector of the Fourth District for the year 1882, as follows :

To the Board of Education of the City of New York :

The undersigned, Inspectors of the Common Schools in the Fourth School District, comprising the Eleventh and Seventeenth Wards of the City of New York, as required by law, respectfully submit their report of the condition, efficiency and wants of said district in respect to schools and school premises, as follows :

First.—In the Eleventh Ward there are seven schools, viz. : four Grammar Schools, Nos. 15, 22, 36 and 71, and three Primary Schools, Nos. 3, 5 and 31. All the buildings used for said schools are in good condition and well adapted for such uses, except Primary School No. 3. The building used for this school is located in Cannon street, near Stanton street, and occupies a lot of land 25 feet wide and 100 feet deep. The main building was erected in the year 1834 by the Public School Society, and is 25 feet wide and 45 feet deep. Since its transfer to the Board of Education, in the year 1853, it has been enlarged by the erection of a wing, or extension. The building is old, the class rooms small, the plumbing, sewerage and ventilation far behind the requirements of the present time, and not adapted to the health, comfort and convenience of the pupils and teachers. Improvements should be commenced without delay. We believe that an additional lot of land should be bought, and an entirely new building erected for the increased needs of the school and of the locality in which it is situated. In our annual reports for many years past we have urged upon your body the importance and necessity of enlarged accommodation for this school ; and now again earnestly call your attention to this matter.

Second.—In the Seventeenth Ward there are eight schools, viz. : three Grammar Schools, Nos. 13, 19 and 25, and five

Primary Schools, Nos. 6, 9, 22, 23 and 26. All of the buildings used for said schools are in good condition, and well adapted for school purposes, except the buildings used for Primary Schools Nos. 6 and 23. No. 6 occupies a part of Turn Hall, which extends from Third to Fourth streets; and No. 23 occupies a building in Eighth street, which was built to be used as a private dwelling. The rooms in each of these buildings are small, not designed for the purposes for which they are now used. New sites should be procured and buildings erected for the use of said schools Nos. 6 and 23.

An improvement of great benefit could be made by procuring an additional lot on the west side of Primary School No. 9, and an addition to the said building erected.

Something should also be done to procure more room for the use of the primary department of Grammar Schools Nos. 13, 19 and 25, and the Grammar Department of School No. 13.

We believe that it would be to the interest of the children of the district to provide additional school accommodations, and we strongly recommend that such action be taken by your body as may secure that desirable result.

We have been gratified in our visits to the several schools to observe the order and discipline maintained therein.

The average attendance of pupils at the schools in the district during the year 1882, was, in the Eleventh Ward, 7,729; in the Seventeenth Ward, 8,775. Total, 16,504, showing an increase in each ward over the attendance of the year previous.

Dated New York, 30th December, 1882.

Respectfully submitted,

JOSEPH WANGLER,	} <i>Inspectors</i>
HENRY ALLEN,	
ARMOUR C. ANDERSON,

Ordered, That said report be entered in full in the minutes.

EIGHTH DISTRICT.

The PRESIDENT laid before the Board the report of the Inspectors of the Eighth District, as follows :

NEW YORK, *December 30, 1882.*

To the Board of Education of the City of New York :

GENTLEMEN—We, the undersigned, Inspectors of Common Schools of the Eighth District, City and County of New York, respectfully present the following report :

The territory comprising the Eighth District is larger than that of the seven districts combined, and contains the following schools, to wit :

TWENTY-THIRD WARD.

Grammar School No. 60, G. D., College av. and 145th st.
 “ “ P. D., Courtland av., b. 147th and 148th sts.
 “ “ 61, G. D., 3d av., b. 169th and 170th sts.
 “ “ “ P. D., “ “ “ “
 “ “ 62, G. D., 3d av., b. 157th and 158th sts.
 “ “ “ P. D., “ “ “ “
 Primary School No. 33, 157th st., Springhurst.
 “ “ 43, Ogden av., High Bridge.
 “ “ 44, Concord av., n. 145 st.

TWENTY-FOURTH WARD.

Grammar School No. 63, G. D., Tremont.
 “ “ “ P. D., “
 “ “ 64, G. D., Fordham.
 “ “ P. D., “

Grammar School No. 65, G. D., West Farms.

“ “ P. D., “
 “ “ 66, G. D., Kingsbridge.
 “ “ P. D., “
 “ “ 67, G. D., Moshulu.
 “ “ P. D., “

Primary School No. 45, Mount Hope.

“ “ 46, Spuyten Duyvil.
 “ “ 48, Woodlawn.

Our schools, during certain seasons of the year, labor under many serious disadvantages. As we have only one road or avenue paved, and only two avenues Macadamized (said avenues being on the extreme eastern and western sections of our district, and running through a very sparsely settled territory), there are only a very few buildings, and, consequently, very few inhabitants. By examining the monthly reports of the several schools you will notice, during the inclement seasons, a falling off in attendance, amounting, in many cases, to 50 per cent., and this is unavoidable, as the roads are impassable, and small children cannot attend regularly during the whole session or term. This is a very serious matter, as we have to discharge teachers because the average attendance will not allow our Local Boards to retain the same number as were employed during the summer and fall months.

The Principals of several of our schools, who are second to none in their profession, and who faithfully perform their duties, suffer a serious loss in their compensation from the same cause, which seems very unjust. This can be remedied by your Board, by exempting this district from the operation of the by-law basing the salaries of Principals, &c., upon the average attendance.

We do not claim that your rules and regulations are unjust. Far from it. But we do claim that a country district, which has almost impassable highways and by-ways, should not come under the same rules and regulations as the city proper, where the schools are numerous, the streets paved, sidewalks flagged, thus rendering it very convenient for scholars to attend school even in very stormy weather. We respectfully ask that you will give this matter your consideration, and, upon examination, you will find that the facts have been represented in a very mild manner.

The examinations which have taken place were very satisfactory, *excellent* being predominant.

The increase of attendance in the Twenty-third Ward for the fiscal year was between three and four hundred. That of the Twenty-fourth Ward is about the same as the year previous. •

The wants and requirements for the year 1883 are numerous. Yet we must expect that the expenses of this district will increase with the population. The Board of Apportionment cannot expect that the same annual appropriations will answer when all other departments increase their amounts annually, and we do not hesitate to say that no department under the city government is more honestly and justly managed than the Board of Education of the City and County of New York.

We fail to find or detect anything connected with the Eighth District with which any reasonable person can find fault, and we have no reason to doubt that the other districts are equally well managed, and perhaps better.

The Local Boards of the Twenty-third and Twenty-fourth Wards, comprising this district, are composed of gentlemen who faithfully perform their duties in a very business-like manner, and we have never suggested anything for the wel-

fare or benefit of the schools which was not promptly concurred in.

A new school site is immediately required in north New York, between Willis and Brook avenues and One Hundred and Thirty-seventh to One Hundred and Thirty-ninth streets. We would recommend that six city lots be selected and purchased, so as to afford proper light, play-grounds, &c.

An extension is required at G. S. No. 61, at Morrisania, for the Grammar Department, and thus a part of the present building and extension can be used for grammar grades. This will afford room for six classes of Primary children in addition to the number now used in said building. The two front rooms in the basement of the present building are not fit for class rooms, being very poorly ventilated and heated.

There are now two classes of Primary children in the play-room of said building. This is all wrong; for the Principal cannot refuse them admission, and there is no other place for them.

High Bridge School is a miserable affair, and a lot purchased adjoining the present property owned by your Board would afford sufficient room to build a new school, a Primary. The cost would not exceed \$10,000. This section of territory will rapidly increase, as railroad facilities are very much improved in this locality.

Grammar School No. 60 is full. There is no more room for scholars. The locality in which this school is situated is being rapidly built up. During the past year over 100 or 200 new buildings have been erected, and a like number is in course of erection. The Primary Department of No. 60 has an average attendance of nearly 1,000 children. No room for more. Hence, the immediate necessity of a new Grammar School in North New York.

Primary School No. 46 is in a very miserable condition. A new school should replace the same.

We respectfully suggest that wooden ceilings be substituted in all the class and assembly rooms in the several schools.

We would also suggest for your consideration that no Primary School should be over three stories in height, as we consider it very unsafe to have small children in the fourth story of any building. Where sufficient ground can be purchased, the first story, which is now used as play-rooms, could be used as main rooms. Play-rooms and janitors' apartments could be built on one or both sides of the main building. Primary No. 60 contains four stories, and the first floor is occupied by the janitor and play-rooms, thus rendering the main story useless for school purposes.

The several schools, as regards cleanliness and sanitary condition, have been kept in a very satisfactory manner, reflecting credit upon the several janitors.

The special teachers of German, drawing and music have faithfully performed their duties, and considerable progress has been made, especially in music, which shows great proficiency in all our schools.

The coal furnished this year has not been of a first-class quality, containing, as it has, about 8 per cent. of slate and 7 per cent. of dirt. Such has been the quality of the coal furnished the schools of this district. As to weight, we have no complaint. We believe justice has been done. We speak from a personal investigation, and found the weight to be correct.

Very respectfully,

T. MASON OLIVER, { *Inspectors Eighth*
F. SIGEL, { *District.*

Ordered, That said report be entered in full in the minutes.

MISCELLANEOUS COMMUNICATIONS.

The PRESIDENT laid before the Board the following communications :

From the Board of Estimate and Apportionment, announcing the Final Estimate of School Moneys for the year 1883, as follows :

THE BOARD OF EDUCATION.

Public Instruction :

For salaries of Teachers, Janitors, Superintendents, Clerks and employés ; for supplies, rents, incidental expenses, and repairs to buildings, furniture and heating apparatus ; for the

expense of compulsory education, as provided by chapter 421, Laws of 1874 ; and for the support of the Nautical School, established by chapter 288, Laws of 1873 ; and for the support of schools which have been organized since the last annual apportionment of school moneys ; and such further sum or sums as may be necessary for any of the purposes authorized by law ; and for school moneys apportioned to the corporate schools ; and all expenses of the Board of Education not included under any other head of account. \$3,300,000 00

For purchasing and procuring sites for and erecting new buildings, and for fitting up the same, under the charge of the Board of Education 450,000 00

\$3,750,000 00

A true copy of Final Estimate for 1883, adopted by the Board of Estimate and Apportionment, at a meeting held December 29, 1882.

CHARLES V. ADEE,
Clerk.

Ordered, That said communication be entered in full in the minutes, together with the reasons therefor as published in the *City Record*, December 30, 1882. Said declaration is as follows :

“ The Board of Aldermen having increased the item, ‘ For purchasing and procuring sites and for erecting new school buildings,’ from \$400,000 to \$550,000, the Board of Estimate and Apportionment overruled this action, and for the following reason, as stated by said Board :

This item of rectification is overruled for the reason that it is considered to be more than is required for the purpose in the year 1883, in view of the fact that the sum of \$61,800 has been received from the sale of lands belonging to the city, and

specially appropriated by an act of the Legislature for the purchase of sites and the erection of new school buildings, and also that certain lands on the corner of Lexington avenue and Sixty-eighth street, belonging to the city, have been heretofore designated and appropriated to the Board of Education as a site for school buildings, which are to be erected thereon, thus obviating to that extent the necessity for purchasing sites for school buildings in the coming year.

The Board of Estimate and Apportionment has, however, increased the appropriation for this purpose from \$400,000, as made in the Provisional Estimate, to the sum of \$450,000, in the Final Estimate, and reduced the general appropriation for all other purposes from \$3,350,000 to \$3,300,000.

The total appropriation of \$3,750,000, which was made in the Provisional Estimate, therefore, remains the same in the Final Estimate, the amount being deemed adequate for all necessary expenditures in the year 1883."

Referred to the Finance Committee.

From George P. Andrews, Esq., Counsel to the Corporation, relative to the title of property corner of Eighty-fifth street and First avenue, as follows :

Referred to the Committee on Buildings.

INSPECTORS.

The PRESIDENT laid before the Board the report of the Inspectors of the Fifth District for the year 1882, as follows :

To the Board of Education :

The undersigned, Inspectors of the Fifth District, comprising Fifteenth and Eighteenth Wards, respectfully submit their annual report for 1882, as to the condition of the schools in the district upon points required by the statute.

The whole number taught in the schools of the Fifth District during the year 1882, is :

In the Fifteenth Ward.....	6,605
In the Eighteenth Ward.....	7,407
	<hr/>
Total.....	14,012

The actual daily average attendance is :

In the Fifteenth Ward.....	3,416
In the Eighteenth Ward	3,654
	<hr/>
Total	7,070

Compared with 1881, there has been a decrease of 316 pupils in the whole number taught, and a decrease of 40 pupils in the actual average daily attendance in the Fifteenth Ward, and in the Eighteenth Ward an increase of 8 pupils in the whole number taught, and a decrease of 2 pupils in the actual average daily attendance.

We are able to say that the school premises are in a good condition, excepting G. S. No. 50, which should be repaired and repainted inside and outside, also in P. S. No. 28, the back stairs leading from the top floor to the basement should be renewed, and the school furniture in several class rooms in same school, and in P. S. No. 29, is old and dilapidated, and

should be replaced with new benches and desks of modern style, suitable for Primary Schools.

We have observed that the disuse of text books in the schools, and the necessary change of the mode of instruction, increases the labor of the teacher and lightens the work of the pupils. The present method of teaching is similar to the lecturing system. It is addressed to the eye and ear, while the thinking faculty is not exercised or disturbed. The system should be changed.

The children should study and work, the teacher superintending and assisting when difficulties occur which the pupil is unable to master.

We are of the opinion that the number of pupils in the classes in the Primary Schools are too large, and that while the allotment of pupils to each teacher remains as at present, there should be a teacher in excess in every Primary School and department in addition to the number prescribed by the by-laws of the Board of Education.

We respectfully ask the Board to consider the propriety of equalizing the salaries for the performance of the same service in the Grammar and Primary Departments. While the requirements of the teachers in the Grammar and Primary Schools are the same, and while the labors of the latter are more onerous, the pupils being more numerous, they receive much less pay for their work. We can see no reason for this discrimination.

We call attention of the Board to what seems to us an anomaly and an unreasonable discrimination between the Grammar and Primary Schools. That while in Grammar Schools the teacher of boys receives a larger salary than the teacher of girls, the teachers of girls and boys in the Primaries receive the same. If it be proper to discriminate between the sexes in one case, it seems to be equally proper in the other.

As required by the statute, we report that there has been no violation of the school laws in respect to teaching sectarian doctrines, or in the use of sectarian books in any department under our jurisdiction.

ALEXANDER McL. AGNEW, } *Inspectors*
ELIJAH H. KIMBALL, } *of*
RICHARD A. CUNNINGHAM, } *Fifth District.*

New York, December 31, 1882.

Ordered, That said report be entered in full in the minutes.

Ordered, That the report of the Inspectors be divided by subjects, and referred to the several appropriate Committees.

CITY SUPERINTENDENT.

The PRESIDENT laid before the Board the report of the City Superintendent for the month of December, 1882, as follows :

CITY SUPERINTENDENT'S OFFICE, }
NEW YORK, *Jan. 17, 1882.* }

To the Honorable the Board of Education :

GENTLEMEN—In compliance with law, I submit the following report of the Superintendent's Department for the month of December last :

Examinations were held in the schools of the Ninth and Fourteenth Wards. Of the whole number of classes examined, 123 were reported *excellent* in character of instruction; 43 *good*, and 1 *fair*. In discipline, all the classes were found to be either *excellent* or *good*.

The management of 15 schools was marked *excellent*; 2 *good* and 1 *fair*.

The returns show that 78 per cent. of the classes in the Ninth Ward, and 62 per cent. in the Fourteenth Ward, were *excellent* in instruction.

The annual examination of the school of the House of Refuge under the charge of the Society for the Reformation of Juvenile Delinquents, took place on the afternoon and evening of December 22d.

The school consists of a Male Department and a Female Department. The former has a register number of 733 pupils, organized in two divisions, the first composed of eight classes, and the second of six.

The Female Department has a register number of 110 pupils, arranged in two divisions or classes.

The studies and exercises pursued form a well graded and highly practical course, embracing reading, spelling, arithmetic, slate writing and penmanship in all the classes, together with geography and map drawing in the higher classes.

The results of the examination were generally very creditable, and gave evidence of intelligent instruction and efficient supervision.

Special inquiry in regard to sectarian books and teaching showed no violation of the statute.

The returns from the Principals of the Evening Schools show that the average attendance for the month of December was 6,353, an increase of 825 over the corresponding month in 1881.

The average attendance of foreign pupils pursuing the study of English was 2,009, classified as follows :

Germans, 1,759 ; Italians, 83 ; French, 60 ; Bohemians, 58 ; and Swedes, 49.

Statistics of these schools will be found appended.

From the returns of the Principals, I find that the total number of pupils on register December 31st was 135,634, and the average daily attendance during the month 124,661 ; an increase of 4,372 in enrollment, and 6,723 in attendance, as

compared with the returns for the corresponding month the previous year.

The whole number of days lost by absence of teachers was 1,435, or 158 less than the absences for December, 1881.

A list of teachers in whose classes the absenteeism during the month was in excess of twenty per cent., is appended.

Very respectfully,

JOHN JASPER,
City Superintendent.

Laid over under the rule.

Commissioner WETMORE presented a report from the Committee on Buildings, stating that during the year they author-

ized the alteration of the water closets of Grammar School building No. 28, for the purpose of improving the ventilation ordered by the Board of Health, the expense to be paid from the Contingent Fund. This work was done under the supervision of the Superintendent of School Buildings, and in a satisfactory manner.

The amount of the bills exceed the estimate of the Committee, and as there is not sufficient money to the credit of the Buildings Contingent Fund for that year, to permit of the payment of all the bills, the Committee recommend that an appropriation of \$296.70 be made from the funds of 1882 for the payment of the bills enumerated in the following resolution :

Resolved, That the sum of two hundred and ninety-six ⁷⁰/₁₀₀ dollars (\$296.70) be, and the same is hereby appropriated from the unexpended funds of 1882, in payment of the following named bills, for work done on the water closets of Grammar School building No. 28 :

To the Board of Education :

The Finance Committee present herewith the annual state-

ment of the financial operations of the Board, as prepared by the Auditor :

The total expenditure and the indebtedness incurred for the year, including the balances to the credit of the Buildings Contingent Fund and the Ward Incidental Fund, will amount to the sum of three million four hundred and seventy-eight thousand two hundred and forty-eight dollars (\$3,478,248). The balance of the Special Fund, unappropriated, is three thousand seven hundred and fifty-two dollars (\$3,752).

The expenditures for the salaries of the teachers in the Ward Schools will be about \$2,427,000, an increase of \$58,000 over the expenditures for the same in 1881. This increase is mainly shown in the Twelfth Ward, in round numbers, \$18,600; in the Nineteenth Ward, \$27,000; in the Twenty-second Ward, \$5,600, and the Twenty-third Ward, \$3,700. The aggregate increase and decrease in the other wards are about equal.

The sum expended for supplies through the Depository, as shown by the payments and liabilities, is \$136,498; and the cost of supplies delivered to all the schools and the Normal College, etc., for use during the year, is \$138,260. The expenditure for fuel, as shown by the payments and liabilities is \$92,759, about \$1,500 less than expended in 1881.

The expenditure for Evening Schools is \$6,000 in excess of that for 1881.

MOTIONS AND RESOLUTIONS.

Commissioner SCHIFF offered the following :

Whereas, By resolution adopted May 3d, 1882 (Journal, 1882, page 361), it was referred to the Committee on Colored

Schools to inquire into and report at an early date as to the practicability of consolidating the Colored Schools with the existing common schools, and also to report whether any new legislation is necessary to authorize the Board to make such consolidation ; and

Whereas, No report has thus far been made by the said Committee ; be it

Resolved, That the Committee on Colored Schools be discharged from the further consideration of the subject.

Whereas, It is the opinion of the Board of Education, that the necessity for separate schools for colored children does no longer exist, that the cost of the maintenance of such schools, could be obviated without detriment to the education of the children now visiting the Colored Schools ; and

Whereas, No restriction is placed upon the admittance of colored children to the public schools ; and

Whereas, The Board of Education has the legal power (Manual, p. 41, § 23) to discontinue any school ; be it

Resolved, That all Colored Schools be discontinued from and after the 4th of July next :

Resolved, That it be referred to the Committee on Colored Schools, and the Committee on By-Laws, to propose jointly and to report, not later than the first Board meeting in March next, the most practicable lawful plan for carrying this resolution into effect.

Commissioner WOOD moved to amend by striking out from the first resolution, the words, " the 4th of July," and substituting the words, " August 31st."

Commissioner DEVOE moved to amend by striking out the

first resolution, and to amend the second resolution by striking out the last clause, after the words "March next," and substituting as follows: "The most practicable plan for discontinuing the Colored Schools."

The PRESIDENT put the question whether the Board would adopt the first amendment proposed by Commissioner DEVOE, and it was decided in the negative.

The PRESIDENT put the question whether the Board would adopt the second amendment offered by Commissioner DEVOE, and it was decided in the affirmative.

The PRESIDENT then put the question whether the Board would agree with the amendment offered by Commissioner WOOD, and it was decided in the affirmative.

Commissioner SCHIFF moved to reconsider the vote by which Commissioner DEVOE's first amendment was lost—which was adopted.

The PRESIDENT put the question whether the Board would adopt the first amendment offered by Commissioner DEVOE, and it was decided in the affirmative.

Commissioner PATTERSON moved to substitute the following:
Resolved, That the Committee on Colored Schools, and the Committee on By-Laws be requested to consider the expediency and legality of discontinuing the Colored Schools in this City, and report thereon at the first meeting of the Board in March next.

That the opinion of the Corporation Counsel be requested by this Board as to the legality of discontinuing Colored School No. 3.

Adopted.

The PRESIDENT then put the question whether the Board would adopt the substitute offered by Commissioner PATTERSON, and it was decided in the affirmative, as follows:

Ayes—Commissioners Bell, Coudert, Dowd, Ivins, Kelly, Patterson, Pomeroy, Simmons, Tamsen, Wallace, Welch, Wetmore and Wood—13.

Nays—The PRESIDENT, and Commissioners Crawford, Devoe, Schiff, Traud and West—6.

Commissioner DOWD moved that the Board take up for consideration the report of the Finance Committee, making sundry appropriations for the year 1883, and that the Board go into Executive Session for the consideration of said report.

Adopted.

IN EXECUTIVE SESSION.

The report of the Finance Committee was read by the Clerk as follows :

To the Board of Education :

The Finance Committee, to whom was referred, on the 10th inst., the communication from the Board of Estimate and Apportionment, giving the final estimate of school moneys for the year 1883, respectfully report : That the sum apportioned by them for all purposes is \$250,300 less than the estimate made and submitted by this Board in October last. That was for \$4,000,300 ; the sum apportioned for " public instruction " is \$3,750,000. Of this latter sum four hundred and fifty thousand dollars (\$450,000) is, by the Board of Estimate and Apportionment, devoted exclusively " For purchasing and procuring sites for and erecting new buildings, and for fitting up the same, under the charge of the Board of Education." The remaining \$3,300,000 is named by them as " Adequate for all necessary expenditures in the year 1883," while the estimate of the Board of Education, for the current expenses alone, as

itemized, was, in the aggregate, \$3,380,800. With the purpose of reducing this last sum, compelled by this deficit, your Committee have revised the items, and by a comparison with the expenditures in 1882, are enabled to present a reduction of about \$31,000. To do this, however, we have, while reducing some other items, put the contingent fund at \$18,000 instead of \$30,000; the rents account at \$28,000, the amount of the present rent-roll, instead of \$33,000, and the amount for supplies, through the depository, at \$140,000 instead of \$155,000, while adding, for the salaries of the janitors in Ward Schools, \$2,500, requisite by the late action of the Board, and for the salaries of the teachers in the Evening Schools \$5,000, required by the increased attendance in these schools, which, in the coming season, will probably be larger than at present. This revised estimate gives an aggregate of \$3,349,565, a sum exceeding the apportionment made for the purposes named therein, in round numbers \$50,000; while, for extra repairs and contingencies no provision is made, the by-laws of the Board requiring, for its current purposes, the entire sum here named.

It is requisite, therefore, in addition to this deficiency of \$50,000, to provide for such sum as may be reported by the Committees in special charge of repairs, &c., as needful for usual contingencies.

Your Committee submit these facts, and their revised estimate, for the consideration and wise determination of the Board in the premises.

Respectfully submitted,

•	WM. DOWD,	} <i>Finance Committee.</i>

Commissioner Dowd presented a report from the Finance Committee, to whom was recommitted the report presented on January 17 (Journal, pp. 82-84), submitting an amended estimate for 1883, and moved that the Board go into Executive Session for the consideration of said report, which was adopted.

IN EXECUTIVE SESSION.

The Clerk read the report, as follows :

To the Board of Education :

The Finance Committee, to whom was recommitted the revised estimate of the sums required for the current purposes of the Board for the present year, as per the following resolution, adopted on the 17th inst. :

" *Resolved*, That the report of the Finance Committee be referred back to that Committee, with a request that it report to the Board at its next meeting, what items of expenditure may be reduced, and to what extent, in order to cover the deficit shown in the report "—

respectfully report, that this subject has received the earnest attention of your Committee, assisted by members of the Board, not of the Committee. As stated in our former report upon this subject, it is requisite, that in addition to the deficiency of fifty thousand dollars (\$50,000) for current expenditures, as thus stated, provision should be made for the repairs of buildings, furniture, &c. Your Committee, for the purpose of obtaining positive and specific information as to the objects requiring such provision and the probable cost, have obtained from the Superintendent of School Buildings a statement carefully made, and an estimate of the cost. The total amount, including an alteration of Grammar School building No. 24, in

the Sixth Ward, is given at about ninety thousand dollars (\$90,000), making the entire deficit, on your Committee's estimate as submitted the 17th inst., to be one hundred and forty thousand dollars (\$140,000).

To overcome this deficiency, your Committee suggest :

The abolishing the employment of Special Teachers of Drawing, Music, and the French and German languages, by the repeal of section 39 of the by-laws, from February 1.

The reduction of the estimate for Colored Schools to seventeen thousand dollars, with the purpose of closing one or more of them on the first day of September next.

The reduction of the estimate for supplies through the Depository, to one hundred and thirty thousand dollars (\$130,000).

The reduction of Incidental Expenses of Colored Schools to two hundred and fifty dollars (\$250).

The reduction of the estimate for pianos to one thousand dollars (\$1,000).

These, with the striking out of the sum for Salaries of Clerks to Ward Trustees, \$4,815, as per Journal, page 86, will give towards the deficiency named the following amounts :

From Salaries of Special Teachers.....	\$61,000
“ “ etc. of Colored Schools.....	8,000
“ Supplies.....	10,000
“ Expenses, Colored Schools....	250
“ Pianos.....	500
“ Clerks to Ward Trustees (already adopted)....	4,815
	<hr/>
	<u>\$84,565</u>

still leaving a deficiency of about fifty-six thousand dollars, to supply which will require a deduction of two and one-quarter

per cent. on all salaries not fixed by law, to take effect from the 1st of February.

Your Committee submit these statements and suggestions for your consideration.

MISCELLANEOUS COMMUNICATIONS.

The PRESIDENT laid before the Board the following communications :

From George P. Andrews, Esq., counsel to the corporation relative to the discontinuance of the Colored Schools, follows :

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION, }
NEW YORK, *February 1, 1883.*

LAWRENCE D. KIERNAN, Esq.,

Clerk of the Board of Education :

SIR—I duly received your letter of the 31st ultimo, in which you ask my opinion whether the Board of Education can legally close all the Colored Schools under its “jurisdiction.”

Subdivision 8 of chapter 386 of the Laws of 1851, as amended by section 1 of chapter 323 of the Laws of 1866, is, in part, as follows :

[The Board of Education shall have power]

“ To provide Evening Schools for those whose ages or avocations are such as to prevent their attending the Day Schools established by law, in such of the ward schoolhouses, or other buildings used for school purposes, and in such other places in said city as they may from time to time deem expedient ; and also to provide schools for colored children, and also a Normal School or schools for those desirous to become teachers and for teachers, which shall be attended by such of the teachers in Common Schools as the Board of Education, by general regulation, shall direct.”

Under this section the Board of Education has conferred upon it the authority to furnish educational facilities to colored children, and in the exercise of the right has devoted certain buildings and school houses to the *exclusive use* of Colored Schools.

Section 23 of chapter 386 of the Laws of 1851, as amended by section 17 of chapter 351 of the Laws of 1864, contains, among other things, the following provision :

“ The Board of Education may, with the consent of a major-

ity of the Trustees for the Ward, or without such consent by a vote of two-thirds of the Board of Education, discontinue any Grammar, Primary, Evening, or Colored School."

Pursuant to the foregoing section, the Board of Education has the power, in my opinion, to discontinue, legally, the present exclusive use for Colored Schools of all buildings and school houses under its management.

I am, Sir, yours respectfully,

GEORGE P. ANDREWS,

Counsel to the Corporation.

REPORTS OF STANDING COMMITTEES.

Commissioner WOOD presented a report from the Committee on Course of Study and School Books, in the matter of the communication from S. A. Wheelwright, General U. S. agent for the Holland International Exhibition, at Amsterdam, May 1, 1883, inviting this Board to make an exhibit of our school system ; stating, that in view of the early association of Holland with this State and city, it would have been peculiarly appropriate for this Board to send to the International Holland Exhibition whatever drawings, models and school books would have served to give a fair idea of the extensive educational system of our city, but the Board having been cut short of its monetary requirements, it is therefore impossible to go to the expense necessary to do justice to our system.

The Committee, through its Chairman, has communicated these facts to Mr. Wheelwright, and respectfully ask to be discharged from the further consideration of the subject.

The following resolution is submitted for adoption :

Resolved, That the Committee on Course of Study and School Books be discharged from the further consideration of the communication from Mr. S. A. Wheelwright, with reference to the Holland International Exhibition.

Commissioner WERMORE, presented a report from the Committee on Teachers, in the matter of the appeal of Miss Jennie Byrnes, from the action of the Trustees of the Seventh Ward, in transferring her from Fifth Assistant Male Department No. 31, to Seventh Assistant Primary Department of the same school ; stating, that on a report from the City Superintendent, the facts appear as follows :

The average attendance of said male department for the year 1882 was 156; based upon this attendance the department is legally entitled to four teachers ; that five teachers have been employed, and it became necessary to transfer one of them to conform with the law and policy of this Board. Miss Byrnes being the lowest assistant, the Trustees, in the exercise of a wise discretion, transferred her to seventh assistant in Primary Department No. 31, the only position then vacant. From this action Miss Byrnes appeals, and claims the protection guaranteed to teachers by the twelfth section of the Act of 1864 (p. 16 Manual), and by the twenty-fourth section of the by-laws of this Board (p. 153 Manual), made in pursuance thereof.

Your Committee cannot see how these sections can be construed to apply to a case like this under consideration. Miss Byrnes has not been removed from one position to another, but transferred, in the ordinary acceptation of the term. Under the law no position exists for her in the school where she has heretofore taught, and the Trustees, rather

than relieve her from duty altogether, which would otherwise have been the case, have assigned her to a place where her services are required. It is undoubtedly a great hardship that a teacher who has been in the service of the Board for nine years, and who has performed her duties accordingly, should suffer from a change of position and a loss of salary. But this result has been brought about by a steady decline in the number of pupils attending that school, and which could not be controlled either by this Board or by the local officers.

The attendance and the number of teachers employed at the school will be seen from the following table :

Year.	Average Attendance.	Teachers Allowed.	Teachers Employed.
1878.....	199	6	6 + 1 additional
1879.....	195	6	6 + 1
1880.....	176	5	5 + 2
1881.....	176	5	5 + 1
1882.....	156	4	4

From this it will appear that the attendance has been constantly decreasing. During the last four months of 1882 the attendance was, September, 147 ; October, 139 ; November, 134 ; December, 130 ; and January, 1883, was 129. This shows that there is no justification for continuing any teachers in excess in this school.

The fifth subdivision of sec. 33 (p. 146, Manual,) provides that "in preparing said schedule the amount of money which any school or department is entitled to, shall be determined by multiplying the average salary allowed by the number of teachers in actual service and authorized by the attendance therein for the preceding year." The same division prescribes that "whenever the number of a

teachers legally permitted to any school is in excess of the number of classes in said school, it shall be the duty of the Trustees of the Ward to transfer said teachers to other schools in the Ward where their services may be needed." Subdivision two of the same section (p. 43, Manual,) prescribes the number of teachers allowed each department based upon the average attendance.

From a careful reading of these provisions of the by-laws your Committee cannot think otherwise than that the Trustees of the Seventh Ward have done right in the case of Miss Byrnes, and that their action is in perfect accordance with the law. The law never contemplated the retention of a teacher in a school where her services were no longer required.

In view of the law and facts above stated, your Committee are of opinion that Miss Byrnes has no legal status, and no proper reason for complaint against the action of the Trustees, and that the appeal should be dismissed.

The following resolution is submitted for adoption :

Resolved, That the appeal of Miss Jennie Byrnes from the action of the Trustees of the Seventh Ward, in transferring her from Fifth Assistant in Male Department No. 31, to that of Seventh Assistant in Primary Department No. 31, be and the same is hereby dismissed.

From David McClure, Trustee of the Eighteenth Ward, relative to the appointment of a teacher in one of the schools of said Ward, as follows :

20 NASSAU STREET, N. Y.

To the Board of Education of the City of New York :

GENTLEMEN—As a member of the Board of Trustees of the Eighteenth Ward, I deem it my duty to call your attention to the action of a majority of that Board in connection with the appointment, on Saturday last, of Miss Grace Pillsbury, as an additional teacher in Grammar School No. 40.

Miss Pillsbury was then appointed by the votes of Trustees Trow, Warner and Manierre, as the nineteenth teacher, at a salary of *eight hundred dollars* per year. She had never taught in any of the schools of this city, being then a resident of Connecticut, and had been upon trial less than a week. She was not appointed to class work, where superior ability might be required, but to the merely clerical duties of general assistant, and to have charge of the music.

In the same department there are seven teachers, each of whose salaries is less than \$800, and all of whose records are good.

One of these, appointed thirty	years ago, receives..	\$726
" " twenty-four	" "	.. 726
" " twenty-two	" "	.. 770
" " seventeen	" "	.. 648
" " thirteen	" "	.. 696

The other two, being recent appointees, receive \$400 and \$500, respectively.

I beg to suggest that the action referred to was partial, and unjust to the teachers referred to, whose superior claims were neglected, calculated to induce jealousy and dissatisfaction among them, and to remove that ambition and enthusiasm in the matter of their school work which is necessary to the success of the schools. It also has the effect of destroying in the teachers all feeling of confidence on their part in the fairness, impartiality and justice of the Trustees in their regard, and encourages the idea that favor of the Trustees is of more value than conscientious discharge of duty.

Again, at a time when economy and retrenchment are being necessarily enforced against teachers of long years of labor, large experience and superior records in our schools, to the great hardship, and to the pain of all right-minded school officers, the granting of such a large salary, for services not warranting the expenditure, seems to me to have been an act of gross extravagance.

My protest in the Board of Trustees having had no effect, I submit this matter to you for your consideration. I am not aware that any action upon this particular case can be taken by you, but the matter may be valuable to you in suggesting such legislation on your part as may be necessary to prevent such cases arising in the future.

Yours respectfully,

DAVID MCCLURE

REPORTS OF STANDING COMMITTEES.

Commissioner Wood presented a report from the Committee on Course of Study and School Books, to whom was referred the application of Mrs. Florence E. Cory, Principal of the "School of Industrial Arts for Women," relative to a Saturday School for public school pupils; stating, that the proposition of Mrs. Cory is to establish a Saturday morning class in the "School of Industrial Arts for Women," for the instruction of one female pupil from each Grammar School, in such branch of industrial design as they may select, free of charge.

It is inconsistent with the policy of this Board to take cognizance of private institutions, such as that presided over by Mrs. Cory, however good and wholesome the instruction given may be. There is a State law governing this Board with reference to admission to Cornell University.

While appreciating the philanthropy and generosity of Mrs. Cory, in interesting herself in behalf of the female pupils in our Public Schools, the Committee are constrained to deny the application as being inconsistent with the policy of this Board in such matters.

The following resolution is submitted for adoption:

Resolved, That the application of Mrs. Florence E. Cory, Principal of the "School of Industrial Arts for Women," relative to establishing a Saturday School for Public School pupils, be and the same is hereby denied.

Laid over under the rule.

Commissioner WETMORE presented a report from the Committee on Teachers, to whom was referred the nomination by the Trustees of the Twelfth Ward of Mrs. Kate McDermott, Twelfth Assistant in Male Department No. 68, for the position of Principal of Primary School No. 32, made vacant by the resignation of Mrs. A. T. Larkins; stating, that they have carefully examined the subject, and have unanimously agreed to recommend for appointment to this position by this Board Miss Mary E. Dunican, now and for eight years last past Principal of Primary School No. 37.

This recommendation, if approved, will lessen considerably the expense of supervising the schools, and is in the direct line of reasonable and judicious economy.

It is not intended by this report to pass judgment on the merits of the nomination of the Trustees. By the transfer of Miss Dunican, a vacancy will be created in P. S. No. 37, which may hereafter be filled by appointment in such a way as to enable this Board to be relieved of the annual cost of at least one Principal, and perhaps a few assistant teachers. The school over which Miss Dunican has presided, has decreased in attendance from 179 in 1881, to 87 in 1882, without any fault of hers, and the probability is that a still further decrease will

take place in the future. It is, therefore, the duty of the Board to provide for a deserving Principal, whose tenure of office is rendered insecure, and the present affords a proper opportunity.

The following resolution is submitted for adoption :

Resolved, That Miss Mary E. Dunican be, and she is hereby "selected and appointed" Principal of Primary School No. 32, in the Twelfth Ward, in accordance with the provisions of section 8, chapter 112 of the Law of 1873; to date from commencement of service.

Adopted.

Commissioner DOWD presented a report from the Finance Committee, relative to the deficiency in the amount of money required for the salaries of teachers and other items of expenditure, and the Act of the Legislature making provision for said deficiencies, as follows :

To the Board of Education :

The Finance Committee respectfully report, that by the terms of the Act of the Legislature, passed February 27, 1883, chapter 62, which is as follows :

" Section 1. The Board of Estimate and Apportionment of the City of New York is hereby authorized, within ten days after the passage of this act, to transfer to the Board of Education such portion of unexpended balances remaining to its credit from previous years as may be necessary to meet an deficiency for teachers' salaries and repairs for the present year."

" Section 2. This act shall take effect immediately."

As the authority thus granted will expire on the 9th inst - your Committee deem it requisite that a statement of the deficiency, which this act is intended to cover, should be submitted for your approval, and the sum agreed upon be laid before the Board of Estimate and Apportionment for its consideration.

The deficiency in teachers' salaries for the year 1883 is 19,846.

The deficiency for repairs is \$13,877.

By recurring to page 134 of the Journal, where the schedule appropriations adopted by the Board appears at length, the different items making up the above sum will clearly appear a comparison with the revised estimate found on page 84 of the Journal.

The first item making part of this deficiency is the amount to be paid special teachers, which, under the action of the Board (afterwards reversed) at the date of the schedule, February 7th, had been dismissed from and after

which sum the act named was, in our judgment, intended to cover.

A resolution in accordance with this statement is submitted herewith, also one repealing the deduction of two per cent. from the salaries of the teachers :

Resolved, That the Board of Estimate and Apportionment be, and they hereby are, requested to transfer to the credit of this Board, from any unexpended balances of appropriations for Public School purposes made for previous years, the sum of one hundred and nine thousand eight hundred and forty-six dollars (\$109,846), to meet the deficiency in teachers' salaries, and the sum of thirteen thousand eight hundred and seventy-seven dollars (\$13,877), to meet the deficiency for repairs for the present year.

Resolved, That the resolution found on page 117 of the Journal, relating to a two per cent. reduction in salaries, be, and the same is hereby rescinded, so far as the same relates to the salaries of teachers.

The undersigned, a minority of the Committee appointed on 21st February last to visit Primary School No. 6, held in Nos. 15 and 17 Third street, beg leave to report that they visited the building in question on 27th February, and from a careful survey of it, believe that, in case of a panic from any cause,

it would be found to be a regular death-trap for the unfortunate children and teachers.

WILLIAM WOOD,
WM. DOWD.

The PRESIDENT laid before the Board a communication from W. P. Esterbrook, Esq., Inspector, relative to P. S. No. 6, as follows :

BUREAU OF INSPECTION OF BUILDINGS,
155 AND 157 MERCER STREET,
NEW YORK, *March 6, 1883.* }

To the Committee of the Board of Education,

City of New York :

GENTLEMEN—A note from Mr. Kiernan, requesting me to give you my opinion as to the safety, in case of fire or panic, in Primary School No. 6, located on East Third street, and informing me that you were to meet to-day to consider the matter is received.

I have been so overwhelmed with business that I have been unable to have drawings made, and to inform the owners of the theatre what will be required by this bureau to insure greater safety.

I am of opinion that there is danger in case of fire, owing to the proximity of the theatre stage to the part of the building used for school purposes.

I believe the stairs are wide enough to allow egress, but should a fire take place in the theatre part of the building with the wind northerly or easterly, there would be trouble and another outlet should be provided, by erecting an outside stairway in front, wide enough for two children to pass down with suitable rails, to prevent them from falling. The length of stairs at present there should be divided. The means of egress through the building towards Fourth street I regard as of little account.

I forgot to mention that it is essential to have the door changed at the foot of stairs, so as to open directly opposite, and not on one side, as now.

No matter what means of egress is provided in school buildings, unless discipline be maintained, and the crowd from the outside kept back, there is likely to be loss of life.

I should be obliged if you will let me know what your conclusions may be in this matter, that we may work in harmony for the public welfare.

Respectfully,

W. P. ESTERBROOK,

Inspector.

Ordered, That said reports and communication be entered in full in the minutes.

Commissioner DEVOE offered the following resolution :

Resolved, That the Trustees of the Seventeenth Ward be, and they are hereby requested to transfer the children and teachers of Primary School No. 6 to other schools, and that said transfers be made on Monday, March 13, 1883.

Commissioner SIMMONS moved that said resolution be laid on the table.

The PRESIDENT put the question whether the Board would agree with said motion, and it was decided in the affirmative, as follows :

Ayes—The PRESIDENT, and Commissioners Beardslee, Pomeroy, Schiff, Simmons, Tamsen, Traud, Welch, West and Wetmore—10.

MOTIONS AND RESOLUTIONS.

Commissioner DEVOE moved that the vote on the resolution, found on pages 166 and 167, relative to the rehiring of Parepa Hall for G. S. No. 37, be reconsidered.

The PRESIDENT put the question whether the Board would agree with said motion, and it was decided in the negative, two-thirds of the Board not voting therefor, as follows:

CITY SUPERINTENDENT.

The PRESIDENT laid before the Board a communication from the City Superintendent relative to fire drills in the Schools, as follows :

CITY SUPERINTENDENT'S OFFICE, {
NEW YORK, *March 21, 1883.* }

To the Honorable the Board of Education :

GENTLEMEN—In relation to the resolution adopted on the twenty-first day of February last, "That the Superintendent of Schools be requested to report to this Board whether or not exercise in the fire drill is had in the schools of this city as required by the by-laws of this Board," I would respectfully report that the pupils of the Public Schools are trained by means of drills, so that they are able to leave the building without confusion or panic in case of fire or any sudden emergency.

I would also state that the frequency of these drills or rapid dismissals is to a certain extent determined by the construction of the building, number of pupils, number of departments in each building, and the surroundings.

In 133 of the 220 Departments or Schools under the direct supervision of the Board, these drills or rapid dismissals take place at least once each week. In the remaining 87 schools, with very few exceptions, such drills take place once a fortnight, or at least once a month.

Very respectfully,

JOHN JASPER,

City Superintendent.

Ordered, That said communication be entered in full in the minutes.

The PRESIDENT put the question whether the Board would adopt the resolution attached to the report of the Committee, and it was decided in the affirmative.

Commissioner WOOD presented a report from the Committee on Course of Study and School Books, to whom was referred the communication from a majority of the Board of Trustees of the Seventeenth Ward, refusing to rehire the premises occupied by Primary School No. 6, and asking that the pupils and teachers of said school be transferred to Primary School No. 9, on April 30; also, from the minority of said Board, adverse to said action; stating, that they have carefully considered the subject, and find that the average attendance of Primary School No. 6, during 1882, was 355. The Principal of Primary School No. 9, in a communication to the Committee, states that there is accommodation in her school for 456 more pupils than there are at present in attendance. In view of the fact that the Trustees refuse to rehire the premises occupied by Primary School No. 6, and there being ample accommodations in P. S. building No. 9 for the 355 pupils now attending P. S. No. 6, the Committee, in compli-

ance with the request of the Trustees, and in accordance with sec. 23 of the Act of 1831, recommend that Primary School No. 6 be discontinued on and after April 30, 1883, and the pupils of said school, and the teachers, so far as practicable be transferred to P. S. No. 9.

Commissioner WETMORE presented a report from the Committee on Teachers, relative to the appeal of Miss Elizabeth Van Tine, P. D. G. S. No. 32, in the Twentieth Ward, follows:

To the Board of Education:

The Committee on Teachers, having had under consideration the appeal of Miss Elizabeth Van Tine, of Primary Department No. 32, from the action of the Trustees of Twentieth Ward in changing her position from 11th to 1st assistant, and in reducing her salary from \$587 to \$510 annum; respectfully report:

In the investigation of this appeal your Committee ascertained that Miss Van Tine's was only one of many cases of like nature in which the Trustees of the Twentieth W

changed the relative positions of their teachers and reduced their salaries without assigning any reason therefor.

Ten of the teachers in P. D. No. 32 state that they "are great sufferers by loss of salary caused by the adoption of a revised schedule of salaries, said schedule being arranged, as we were advised, in order to make a uniform grade of salaries throughout the ward. While the idea of creating uniformity in the annual compensation of teachers is a commendable one, and while we would cheerfully accept an arrangement of this kind, which would operate alike in all the schools throughout the ward, we do not consider it fair or just that two departments should be excepted from the arrangement, and that special provision should be made by which the teachers of one or more schools should be protected in their compensation by a law which applies to them only. We therefore ask that your Committee will take such action as will secure a proper and equitable adjustment of the salaries by uniform law, or else protect us from the injustice and hardship of partial legislation."

Two of the teachers of P. D. No. 33 appeared personally before your Committee, and protested against the action of their Trustees as harsh, unjust and oppressive, and it was suggested that many other teachers were dissatisfied but unwilling to present their case to the Board.

Your Committee, for the purpose of obtaining from the Trustees a reason for what seemed an extraordinary proceeding, invited them to be present at a meeting on the 27th February. At this meeting two of the Trustees were present, Messrs. Thomson and Tietjen.

Your Committee informed these officers of the disturbed condition of affairs among the teachers of the Twentieth Ward in consequence of the radical action taken by the local board.

These Trustees, however, instead of meeting the Committee in a frank and becoming manner, raised some legal technicalities as to the right of the Board of Education, or any of its committees, to inquire into their acts, right or wrong. Your Committee finally convinced them of their duty in the premises, and thereupon one of the officers (Mr. Thomson) produced an elaborate and carefully prepared schedule of payments, the preparation of which, as he said, and your Committee believed, had cost him much time and labor. It was arranged according to a principle which he explained, but which it would be difficult to interpret in a short report like this.

The Committee, believing that they recognized in this carefully planned and methodically arranged distribution of salaries a system for securing uniform payments throughout the Ward, and being so impressed from the language of Trustee Thomson, were prepared to accept the act of the local Trustees as justified by the motive which prompted it. But their illusion in this respect was soon dissipated. For at the meeting of the Committee on the 6th inst. it was ascertained (as may be found from the communication from the teachers of P. D. No. 32, heretofore quoted) that the schedule of salaries which was elaborated with much pains by Trustee Thomson was not enforced in every school of the Ward, and these two Trustees (Messrs. Thomson and Tietjen) state that at no time did either of them "represent to any committee or officer, or any person whatever, that the new schedule was framed and enforced so as to secure uniform salaries throughout the ward, or any other statement that could lead to the impression that that schedule was enforced in every primary department in the ward, or ever desired to be so understood." They also state that the Committee on Teachers had before

hem on that occasion (27th February) " the schedule filed by the Trustees of the Twentieth Ward fixing the salaries for the year 1883 in all the departments, and your Committee could have ascertained the fact from these schedules without question."

All this is quite true. But your Committee were desirous of obtaining from the Trustees themselves, by personal interview a justifying reason for their action. It now appears that they had none. They assert their legal right to do as they have done, and they enforce that right against the plain demands of justice and fair play. This may be within the discretion of the Trustees of the Twentieth Ward, and it may be that the law provides no restraint for the exercise of arbitrary power in cases of this kind; but it does not inspire with confidence the teachers committed to their care, nor does it create in the minds of your Committee an exalted idea of their impartiality and sense of justice.

The Trustees of the Twentieth Ward in exempting from the operation of the schedule of salaries a particular school, and in not informing a Committee of this Board having charge of an investigation respecting it, of the fact of such exemption, when the reason given by the Trustees in favor of the schedule was to produce uniformity, have conducted themselves in a manner which deserves the condemnation of this Board.

The Committee regret to be compelled to report these facts, and they still more regret that under the law they have no power to correct the evil.

The following resolution is therefore submitted for adoption :

Resolved, That the appeal of Miss Elizabeth Van Tine, of Primary Department No. 32, from the action of the Trustees of the Twentieth Ward, in changing her position

from 11th to 18th assistant, and in reducing her salary from \$587 to \$510 per annum, be and the same is hereby dismissed.

NEW YORK, March 20, 1883, }
EIGHTEENTH WARD. }

To the Committee on Teachers of the Board of Education :

GENTLEMEN—Whereas this Board has received a communication from the "Committee on Teachers" of the Board of Education, addressed to the Chairman of this Board, dated 8th inst., as follows :

"The Committee on Teachers, to whom was referred the communication from Trustee McClure, found on minutes of this Board, pages 155 and 156, with reference to the appointment by your Board of Miss Grace Pillsbury, as an additional teacher in Grammar School No. 40, respectfully request, that the Trustees of the Eighteenth Ward furnish them with any facts respecting said communication which they may desire to present." This Board has only to remark, that the teacher in question, was appointed in pursuance of the authority of the "Committee on Teachers" of the Board of Education, for the term and at the salary fixed by said Committee.

That said teacher was unknown, personally, to any member of this Board, before she was recommended by the City Superintendent, as possessing superior ability as a teacher, and eminently well qualified to give instruction in, and to conduct the music, vocal and instrumental of the school, a qualification very much needed in that department, and obtained only after a search for more than a year, special application having been made at the Normal College and other sources of supply. — This lady has been engaged in teaching for six years, and, therefore, may be regarded as an experienced teacher. She had a brief but satisfactory trial as a class teacher in Grammar School No. 40, and also in conducting the music. The principal unhesitatingly recommended her appointment, and the Board accordingly appointed her, under the authority

given, as above stated. The Board in so doing acted in accordance with its practice for nearly ten years.

In consequence of some difficulties among the teachers in that department, disclosed during an investigation, it was thought advisable that this newly appointed teacher should fill the position of general assistant, especially so, as she would be free from the care of a class while conducting the music in the opening exercises of the school.

These duties, we are sure, she will perform in a satisfactory manner, and to the advantage of the school. And here it may be remarked, that her salary as fixed by the "Committee on Teachers" of the Board of Education, is less by more than \$200 than the salary of her predecessor, who had *no* responsibility for the music of the school.

This Board further desires to say that no protest was made or furnished by this dissatisfied Trustee, except by his vote on the question of the *salary*, but not on the *appointment*, which he did not vote against.

He intimated that he would send a protest for our records, but failed to do so, preferring, it appears, in a manner [discourteous to his associates, and contrary to parliamentary usage, to send one to a body which had no jurisdiction on the subject.

With regard to the charge of partiality against the Board made in said statement, it is thought the above explanation will clearly show it to be quite gratuitous and entirely uncalled for. As to "gross extravagance" also charged "as enforced against teachers of long years of labor, to the pain of all right-minded school officers," it is without *point*, as the salary in this case, as he very well knew, cannot, in the least, affect the salaries of the other teachers, as they have been *fixed* for the *year*, and all salaries of teachers are, thereafter, to be read-

justed for the next year. Inasmuch as an *ex parte* and unfair statement against the Board of Trustees has been printed at length in the minutes of the Board of Education, it is trusted that the explanation will receive the same courtesy.

By order of the Board of Trustees.

JOHN F. TROW,
Chairman.

Commissioner WETMORE asked and obtained unanimous consent for the immediate consideration of said report.

Ordered, That said report and communication be entered in full in the minutes.

The lease not to be executed until the premises shall have been inspected by the Board of Health, and pronounced by said Board to be in a satisfactory sanitary condition, and the Department of Buildings of the Fire Department shall have pronounced the means of egress for pupils from such premises amply sufficient in case of any sudden emergency.

Nay—The PRESIDENT—1.

Commissioner DEVOE presented a report from the Committee on Buildings, to whom was referred the application of the Trustees of the Twenty-fourth Ward, for authority to rehire the premises at Woodlawn occupied by P. S. No. 48; stating that the lease of these premises will expire on May 1st.

The Board is at present paying an annual rent of \$225, the owner keeping the roof of the building in repair.

The Trustees propose to rehire at an annual rent of \$250, the owner to make all repairs.

The Committee, in view of the fact that the owner proposes to make all repairs to the premises, at an advance in the rent of \$25 per annum, consider the proposition as reasonable, and submit the following for adoption :

Resolved, That the School Trustees of the Twenty-fourth Ward be, and they hereby are authorized to rehire the premises at Woodlawn occupied by Primary School No. 48, for one year from May 1, 1883, at an annual rent of two hundred and fifty dollars (\$250), the owner of the premises to make all necessary repairs.

The other conditions of the lease applicable to be the same as those now in force. The lease not to be executed until the premises shall have been inspected by the Board of Health and pronounced satisfactory as to their sanitary condition, and the Bureau of Buildings of the Fire Department shall have pronounced the means of egress for pupils from such premises amply sufficient in case of any sudden emergency.

Commissioner DEVOE asked and obtained unanimous consent for the immediate consideration of said report.

The PRESIDENT put the question whether the Board would adopt the resolution attached to the report of the Committee, and it was decided in the affirmative, as follows :

Pomeroy, Schiff, Simmons, Tamsen, Traud, Wallace, Welch, West, Wetmore and Wood—20.

Commissioner DEVOE presented a report from the Committee on Buildings, to whom was referred the application from the Trustees of the Tenth Ward, for authority to excavate a cellar under the main building of G. S. No. 20, and to strengthen the building by additional columns and girders; stating, that there is no cellar under the main building of Grammar School No. 20. As a steam heating apparatus is to be placed in this building, it is necessary that this work should be done, to provide a place for storing coal, &c. Additional columns and girders are also needed to make the building more secure.

These improvements have been under consideration for some time, and it is necessary that they should be made.

The following resolution is submitted for adoption :

Resolved, That the School Trustees of the Tenth Ward be, and they hereby are authorized to advertise in the *City Record* for two weeks, for proposals for excavating a cellar under Grammar School building No. 20, and the placing of additional columns and girders in said buildings. Plans and specifications to be prepared by the Superintendent of School Buildings, and approved by the Committee on Buildings and Trustees of the Tenth Ward.

The Board is at present paying for the use of these premises an annual rent of \$1,000, taxes and assessments, which sum, in the opinion of the Committee, is all the premises are reasonably worth.

The Committee recommend the rehiring of these premises on the same terms as the lease now in force.

Commissioner WOOD presented the following memorial record :

"A prince and a great and venerable man has fallen to-day, in this, our Israel." PETER COOPER has at last been met

"By the shadow, feared of man,"

and has gone over to the innumerable majority. It would ill become us, who are members of the same Board of Education which he adorned by his presence and animated by his voice in mature middle life, to allow this sad occasion to pass without some tribute to his memory in the minutes of this Board.

By dispensation of the Divine Will, during the present year, death has removed from their eminent positions in public and private life, both here and abroad, the statesman, the poet, the artist, the prince of song, the philanthropist, and the soldier.

Whatever tribute may be paid to men whose varied achievements have rendered their names illustrious, no laurels can be more lasting, no praise more deserving, no fame more glorious.

than is due to the man of humble birth, who with singular sagacity and spotless probity conducted his business enterprises with such eminent and brilliant success, and consecrated the purpose of his early years and the wealth of his matured life to the great and noble plans of philanthropy, and the bestowal of the blessings of education upon others, who like himself, would otherwise have been deprived of this great privilege.

Devoting his means to these sacred and lofty aims, building a monument of enduring grandeur, elevating thereby tens of thousands of his fellow-men; rejoicing daily in the assurance that his work was not in vain, and dispensing with unaffected simplicity and genuine humility his benefactions alike to all—we bow reverentially when we place on our records this tribute to the memory of PETER COOPER, the friend and patron of education, of science, of art and of humanity.

Mr. Cooper began his service as a school officer in 1838, as a Trustee of the Public School Society, and became a member of this Board July 29, 1853, closing his term of office on January 1, 1855. During the period of his labors he was an active and powerful advocate and supporter of all the important interests of our public schools.

After his retirement from this Board he devoted his wealth to the foundation of an institution for the free education of the laboring classes, which, by his liberal endowments will continue to distribute to future generations the advantages it now confers.

As a representative American, pre-eminent; as a self-made workingman, presenting a noble example of perseverance, prudence and success; as a philanthropist, peerless; as a practical and munificent patron of art, invention and progress without a superior—we unite with a bereaved city and State

in our testimony to the purity of his life and labors, and in the contemplation of his mortal remains we utter the words, "WELL DONE," as he passes through the gates of immortality.

"He was a man that, take him all in all,
We ne'er shall look upon his like again."

Commissioner BELL moved that the minute offered by Commissioner Wood be engrossed and authenticated by the signatures of the officers and members of this Board, and that it be forwarded to the family of the deceased.

The motion of Commissioner Wood, as amended by Commissioner Bell, was adopted unanimously by all the members rising in their places, and the PRESIDENT, thereupon, declared the Board adjourned.

LAWRENCE D. KIERNAN,

Clerk.

Note.—PETER COOPER was born in the City of New York, February 12, 1791. He was elected a Trustee of the Public School Society in 1837, and served from that date until August 1, 1853, when the Society was merged in the Board of Education, by a law of consolidation, passed June 4th, 1853. Mr. Cooper became a Commissioner under the Act, being one of fifteen designated for that purpose by the Society, their terms of office expiring January 1st, 1855. When his term of office expired his active connection with the Common Schools ceased. After a brief illness, Mr. Cooper died April 4, 1883, in the 93d year of his age.

CITY SUPERINTENDENT'S OFFICE, }
New York, *April 18th*, 1883. }

To the Honorable the Board of Education :

GENTLEMEN—During the month of March, the Truancy Department made a complete census of all children between the ages of five and fourteen years, residing in the First Ward.

The census shows that the total number was 1,986, of whom 1,738 attended school.

Of the 248 non-attendants, 205 are under eight years of age and, therefore, cannot under the law be compelled to attend.

Of the 43 children between eight and fourteen years who are not receiving instruction, 6 are physically disqualified, 6 are employed in accordance with law, 2 are sick, and 4 are kept home in consequence of poverty.

It will thus be seen that in the First Ward only 25 children are not complying with the provisions of the Compulsory Education Act.

A table giving interesting statistics will be found appended.

Respectfully submitted,

JOHN JASPER,

The PRESIDENT announced for consideration the report of the Committee on Teachers, relative to the appeal of Miss Elizabeth Van Tine, P. D. G. S., No. 32, Journal, pp. 232-236 and page 257.

On motion of Commissioner WOOD, the Clerk read the communication from the Trustees of the Twentieth Ward, relative hereto, Journal, p. 250, 251.

Commissioner WOOD moved the following as a substitute for a resolution attached to the report of the Committee on Teachers:—

Whereas, The Committee on Teachers of this Board, has, in a report presented to it on 21st March, 1883, used these words in reference to Messrs. Thomson and Tietjen, Trustees of the Twentieth Ward, that they have acted “against the plain demands of justice and fair play;” that their “exercise of arbitrary power” does not inspire “with confidence the teachers committed to their care, nor does it create in the minds of your Committee an exalted idea of their impartiality and sense of justice,” and that they (the Trustees referred to) “have conducted themselves in a manner which *deserves the condemnation of this Board* ;” and,

Whereas, By subsection 3, section 2, of the Act of 3d July, 1851, it is declared this Board shall “have the power to remove from office any school officer who shall have been guilty of immoral or disgraceful conduct, in any matter connected with his official duties, or which *tends to discredit his office, or the school system* ;” therefore,

Resolved, That the report of the Committee on Teachers in reference to Messrs. Thomson and Tietjen, Trustees of the Twentieth Ward, be referred to the Committee on

Nomination of Trustees, to report whether, in its opinion the places of these Trustees should be declared vacant or not.

Commissioner POMEROY moved to strike out so much as refers the report to the Committee on Nomination of Trustees.

The PRESIDENT ruled that said motion was out of order as it was simply the equivalent of a negative vote upon the pending substitute.

The PRESIDENT put the question whether the Board would adopt the resolution offered by Commissioner WOOD, and it was decided in the negative, as follows :

Ayes—Commissioners Beardslee, Dowd, Tamsen, Wallace and Wood—5.

Nays—The PRESIDENT, and Commissioners Belden, Bell Crawford, Devoe, Ivins, Patterson, Pomeroy, Schiff, Simmons Traud, Welch, West and Wetmore—14.

Commissioner POMEROY moved to amend the report of the Committee, by striking out therefrom all after the word "respectfully report," found in the fourth line from the bottom of page 232, down to the words, "The following resolution, second paragraph from the bottom of page 235 of the Journal.

The PRESIDENT ruled that said motion was out of order, as motions for the suppressing any portion of a report being in order only prior to the acceptance thereof.

Commissioner BEARDSLEE, that the report and resolution be referred back to the Committee on Teachers to report on the merits of the case as presented in the appeal of Miss Van Tine.

The PRESIDENT put the question whether the Board would agree with said motion, and it was decided in the affirmative, as follows :

Aye—Commissioners Beardslee, Belden, Dowd, Ivins, Schiff, Tamsen, Wallace, Welch, West and Wood—10.

Nay—The PRESIDENT, and Commissioners Bell, Crawford, Devoe, Patterson, Pomeroy, Simmons, Traud and Wetmore—9.

Commissioner WOOD asked and obtained unanimous consent for the presentation of the following resolution in connection with said subject :

Resolved, That it be referred to the Committee on By-Laws, &c., to report a by-law to the effect that in all cases where teachers are reduced in either rank or salary, by the action of the Trustees of their Ward, they shall have the right of appeal to this Board, and that such appeal shall be referred to the Committee on Teachers, and if, after investigation, said committee reports that injustice has been done, the teachers shall be restored to the positions and salaries they occupied or received previous to the change appealed from.

Adopted.

The PRESIDENT announced the report of the Committee on Teachers to excuse the absence of several teachers, with full pay. Journal, p. 259.

The PRESIDENT put the question whether the Board would adopt the resolution attached to the report of the Committee, and it was decided in the affirmative, as follows :

Aye—The PRESIDENT, and Commissioners Beardslee, Belden, Bell, Crawford, Devoe, Dowd, Ivins, Patterson, Pomeroy, Schiff, Simmons, Tamsen, Traud, Wallace, Welch, West, Wetmore and Wood—19.

The PRESIDENT announced the report of the Committee on Buildings, to authorize the Trustees of the Tenth Ward to advertise for proposals for excavating a cellar in G. S. building

Commissioner Wood presented a report from the Committee on Normal College, stating, that in consequence of the appointment of Miss Elizabeth G. Knight to one of the vacant tutorships of the Normal College, they have promoted all the teachers in the Training Department lower in position than that held by Miss Knight, thereby creating a vacancy in the lowest position in said department, which they recommend be filled by the appointment of Miss Anna L. Isham.

Miss Isham was the valedictorian of the Post Graduate Class, and in her examination for graduation received 97 per cent. She has been teaching for a number of months in the Normal College in the place of tutors absent by reason of sickness, and is in every way qualified to fill the position.

The following resolution is respectfully submitted for adoption :

Resolved, That Miss Anna L. Isham be, and she hereby is appointed to the position of lowest assistant (Junior teacher) in the Training Department of the Normal College, at an annual salary of four hundred dollars (\$400), to date from the passage of this resolution.

J. EDWARD SIMMONS,		
FERDINAND TRAUD,		
GILBERT H. CRAWFORD,		

Laid over under the rule.

Commissioner DOWD presented a report from the Committee on Colored Schools, relative to the maintenance of said schools, as follows :

To the Board of Education :

The Committee on Colored Schools, to whom were referred the preamble and resolutions, adopted at a public meeting of colored citizens, held at Chickering Hall, January 12, 1883, relative to the continuance of Schools for Colored Children, also a communication from the teachers of said schools ; respectfully report,

That they have given the colored people a patient hearing of over two hours duration, who were ably represented by committee appointed at said meeting, also by teachers and others. Among the number may be mentioned John J. Freeman, Rev. Mr. Derrick of Albany, Professor Greener of Washington, Charles L. Reason, Mrs. S. J. S. Garnet and Peter S. Porter.

Various measures were urged, the principal one being to remove the word "*Colored*" from the schools now set apart for colored children. Your Committee, however, do not believe that that measure, if adopted, would effect the object in view of those who advocate it. From the fact that the moment the word "*colored*"—however offensive it may be to many—is removed from the schools, now under that designation, they would no longer be subject to the exclusive control of Board of Education, but would pass out of existence, unorganized as are the Grammar and Primary Schools, and by virtue of the statute.

Schools of every nature and kind are organized and maintained for the education of children, and not merely for employment to teachers, although that follows in all where a "*probable cause*" exists for organizing or continuing a school. When schools are discontinued it is for lack

tendance, as in the case of the Colored Schools now in existence, or for some other cause equally potent.

The arguments presented for the consideration of your Committee appear to have culminated (all other remedies failing), into an appeal for a gradual closing of the Colored Schools, which has been the policy of the Board heretofore, as best calculated to serve all interested. This policy, they claim, would give teachers an opportunity to provide for future contingencies, and be simply an act of justice to those who have made teaching a profession. And your Committee are favorably impressed with this view of the subject in which so many interests are involved.

This branch of the question, strictly speaking, was not formally referred to your Committee, nevertheless, the subject matter before them will admit of a wide range, and should receive the serious consideration of the Board, as it has from the Committee.

Under all the circumstances, one of two things only appears practicable : Either for the Board to adhere to its conclusion to close all the Colored Schools on the first day of September next, or to extend the time for a fixed period for one or more of the larger of them. This is a matter which the Board alone has authority to dispose of, and it is submitted for its consideration without any formal recommendation on the part of the Committee.

The following resolution is presented for adoption :

Resolved, That the Committee be discharged from the further consideration of the subject.

Ordered, That said report be entered in full in the minutes.

Commissioner SCHIFF presented a report from the Committee on Warming and Ventilation, to whom was referred the application from the Trustees of the Fifteenth Ward, for a steam heating apparatus to be placed in Grammar School building No. 10; stating, that the building is at present heated by a hot water apparatus, which has long been in use and is worn out.

The premises, through defects in the apparatus, has had fire on several occasions, during the past winter, and is continually in danger while it is in use.

By careful attention the apparatus has been made to service during the past season, but must be removed before another winter.

The Committee submit the following resolution for action :

Resolved, That the School Trustees of the Fifteenth Ward and they hereby are authorized to advertise in the *Record* for two weeks, for proposals to place a steam heating apparatus in Grammar School building No. 10. Plans and specifications to be prepared by the Engineer and approved by the Committee on Warming and Ventilation, and Trustees of the Fifteenth Ward.

Commissioner TRAUD presented a report from the Committee on Course of Study and School Books, to whom he recommitted the report with reference to the discontinuance of Primary School No. 6, and transferring the pupils of

school, and the teachers, so far as practicable, to Primary School No. 9 (Journal, p. 225) ; stating, that, with a view of obtaining further information on this subject, the Committee acceded to the request of a number of gentlemen representing the Taxpayers' Association of the Tenth, Eleventh and Seventeenth Wards, and also others representing the Tenth Assembly District German Association, who desired to be heard, and they were accordingly heard at a meeting on the 10th inst. The Trustees of the Seventeenth Ward were also heard on the same day.

After hearing the arguments of the representatives of the above named associations in opposition to the proposed discontinuance of P. S. No. 6, and of the School Trustees, a majority of whom favor the discontinuance of the school, your Committee deem it inexpedient to take the action recommended in their report presented March 21st, and found on pp. 223 and 224 of the Journal, for the following reasons :

1st. After a careful review of all the facts and statements submitted, and from a personal inspection of the premises of P. S. No. 9, we find the accommodations in this school inadequate to permit of the transfer of P. S. No. 6 thereto.

2d. The school is well organized, with a Principal and efficient corps of teachers, and has been in successful operation for a period of about nine years, and cannot, without injury to the school interests of the ward, be dispensed with at the present time.

3d. The allegation that the building occupied by P. S. No. 6 is unsafe, is not founded on fact, the means of egress for pupils in case of emergency being amply sufficient.

Your Committee therefore recommend that the application of the Trustees to discontinue P. S. No. 6 be denied, and submit the following resolution for adoption :

Resolved, That the application of the Trustees of the Seventeenth Ward, to discontinue Primary School No. 6, and transfer the pupils of said school, and the teachers, so far as practicable, to Primary School No. 9, be, and the same is hereby denied, being deemed inexpedient at the present time.

Commissioner WOOD presented a report from the minority of the Committee on Course of Study and School Books, disagreeing with the report presented by the majority, with reference to discontinuing P. S. No. 6, presented at this meeting, for the following reasons:

P. S. No. 6, located at 15 East Third street, has an average attendance of 355 pupils.

From a report made by the Principal of P. S. No. 9, which is located at No. 42 First street, and from a personal inspection of the premises by the Chairman of the Committee, there is ample accommodation for 456 more pupils in said P. S. No. 9 than are at present in attendance, and it seems to your Committee highly improper that while ample accommodations are thus provided in one of our own schools, an auxiliary building should be hired at an additional expense.

The means of egress from P. S. No. 6 are not sufficient, in case of an emergency, and in the opinion of the Inspector of the Bureau for the Inspection of Buildings, "there is danger in case of fire, owing to the proximity of the theatre stage to the part of the building used for school purposes." The Inspector also believes that "the stairs are wide enough to allow egress, but should a fire take place in the theatre part of the building, with the wind northerly or easterly, there would

be trouble, and another outlet should be provided, by erecting an outside stairway in front." The means of egress through the building toward Fourth street, he regards "as of little account."

The lease of the premises of P. S. No. 6 will expire on May 1st, and a majority of the Trustees of the Seventeenth Ward, in a communication to this Board, decline to rehire the premises, for the reason that the building occupied by the School "is not a suitable one for the small children now attending the same;" also, that there is "ample accommodation and sufficient room" for the pupils in P. S. No. 9.

It should be the policy of this Board to close small schools whenever the children attending the same can be accommodated in better and more commodious buildings. It is therefore a matter of economy, as well as safety for the children, that this particular school should be closed, and that this Board should make the proposed transfers.

Resolved, That in accordance with the provisions of sec. 23 of the Act of 1851 (Manual, 1882, p. 41), Primary School No. 6, located at Nos. 15 and 17 East Third street, in the Seventeenth Ward, be, and the same is hereby discontinued, and the pupils of said school, and the teachers so far as practicable, be transferred to Primary School No. 9. Said action to take effect on and after April 30, 1883.

Commissioner DOWD presented a report from the Finance Committee, to whom was referred the communication from the Trustees of the Nineteenth Ward, relative to an award of contract by them for erecting a building on the southeast corner of Sixty-eighth street and Lexington avenue, stating, that the advertisement required by the by-laws, inviting proposals for this work, was made in the usual form, with the proviso that "the Trustees reserve the right to reject any or all of the proposals submitted," and that "no proposal will be considered from persons whose character and antecedent dealings with the Board of Education render their responsibility doubtful."

The bids were : \$168,000 ; \$132,450 ; \$125,955 ; \$123,750 ; \$123,490 ; \$121,900 and \$120,000. The Trustees made the award for the lowest sum, \$120,000. The character of the building to be erected, and the large cost attending its erection and fitting up, make it incumbent upon your Committee to be especially considerate in determining the propriety and economy of endorsing the awards made by the Trustees, and the expediency of proposing another. In doing so, the tests required to be applied to bidders by section 50, subdivision 3 of the by-laws, compelled the rejection of five of the parties who named the above sums, and the first is rejected as excessive.

The bid selected is for \$132,450, and was submitted by Mr. Terence Kiernan, whose responsibility, as your Committee are informed, is ample, and whose promptness and fidelity in the work heretofore done for the Board, is an assurance that this contract, if given to him, will be faithfully carried out. At the meeting of the Committee for the consideration of this matter,

the Trustees of the Nineteenth Ward were represented by their Chairman, by whom the Committee were assured they would readily concur in our selection, their own having been determined in the absence of any information which would show it to be improper or inexpedient.

The Board has the ability to appropriate the sum named in the contract, from the money apportioned for sites and erecting new buildings, and a resolution is herewith submitted authorizing such appropriation.

Resolved, That the sum of one hundred and thirty-two thousand four hundred and fifty dollars (\$132,450) be, and the same is hereby, appropriated from the Special Fund appropriated for sites and erecting new buildings in 1883, for the erection of a building on the southeast corner of Sixty-eighth street and Lexington avenue in the Nineteenth Ward, but no part of said money shall be paid until the Trustees of the Nineteenth Ward have filed the contract to be entered into by them with Terence Kiernan, to whom the contract for the erection of the building is hereby awarded, together with such security for the faithful performance of said contract, as shall be satisfactory to the Finance Committee; nor until the usual requirements of the by-laws and rules of this Board are complied with in respect to the form of said contract and the payments to be made on account thereof.

Commissioner DOWD asked and obtained unanimous consent for the immediate consideration of said report.

Commissioner BELL moved that said report be laid over until the next meeting of the Board.

Commissioner DOWD moved as a substitute that all the bids be rejected, and that the Trustees of the Nineteenth Ward be authorized and requested to readvertise for proposals for the erection of said building.

The PRESIDENT put the question whether the Board would agree with said motion, and it was decided in the affirmative, as follows :

Ayes—Commissioners Beardslee, Belden, Bell, Dowd, Ivins, Patterson, Schiff, Simmons, Tamsen, Wallace and Wetmore—11.

Nays—The PRESIDENT, and Commissioners Crawford, Devoe, Pomeroy and Wood—5.

Commissioner WOOD presented a report from the Committee on Course of Study and School Books, to whom was referred the application from the Trustees of the Twenty-second Ward to organize a new school in Colored School Building No. 3, by discontinuing Primary School No. 17, and transferring the same, together with the Male Department of Grammar School No. 28, thereto; the new school to consist of a Male Grammar and Mixed Primary Department, and to be known as Grammar School No. —; stating, that the Trustees in a subsequent communication to your Committee, amend their application so far as relates to Male Department No. 28, by transferring such portion of said Department, and the Principal thereof, as can be accommodated in the present building of Colored School No. 3, the pupils who cannot be thus

accommodated, to remain in their present building, until they can be taken care of in the new school, and to be under the supervision of said Principal.

This application is made in view of the discontinuance of Colored School No. 3, on September 1st next.

The building of Grammar School No. 28 is overcrowded, and the leased premises of Primary School No. 17 are inadequate for the proper accommodation of said school.

By making the proposed transfer relief will be afforded in this respect, and additional accommodations provided for a number of children in Grammar School No. 28.

The following resolutions are submitted for adoption :

Resolved, In pursuance of the provisions of Section 23 of the amended Act of 1851, that a new school, to consist of a Male Grammar and a Mixed Primary Department, to be known as Grammar School No. 67, be established in the building at present known as Colored School No. 3, in West Forty-first street, in the Twenty-second Ward ; and that Primary School No. 17 be discontinued, and the Principals, teachers and pupils be transferred thereto, and organized as the Mixed Primary Department ; that the Principal and such of the teachers and pupils of Male Department of Grammar School No. 28 as can be accommodated in the new school be transferred thereto and organized as the Male Department of said new school ; such portion of the Male Department of Grammar School No. 23 as cannot be accommodated in the new building to remain in their present building and be under the supervision of the Principal of the Male Department of Grammar School No. 67, until proper accommodation can be provided for them in the new school.

Resolved, That the above resolution take effect on and after September 1, 1883.

Resolved, That the subject of altering Grammar School building No. 28, and Colored School building No. 3, made necessary by the adoption of the above resolutions, be referred to the Committee on Buildings.

BY THE PRESIDENT.

The PRESIDENT announced that he had received a communication from Mr. Jerome Hopkins, relative to the organization of pupils of public schools for musical training and entertainment, and public exhibitions, to which he had transmitted a reply, and offered the correspondence for the judgment of the Board, as follows :

[May 2,

46 EAST FOURTEENTH STREET, }
May 1, 1883. }

STEPHEN A. WALKER, Esq.:

MY DEAR SIR—It is proposed to have a Children's and Choir-Boy Singing Festival for the Twenty-second Armory Building Fund, and about one thousand voices to participate therein. Being desirous of showing what *real* children's singing is, it never having been yet heard, *to my ideas*, in this city, and knowing that the only way in which it can be effected is by *sectional* rehearsals first, and *ensemble* meetings afterwards; this is to request permission to meet selected voices *after school hours* in certain of your own school houses (for a few weeks only) for this purpose.

My friend, Dr. Conklin, of the Twentieth street school, is quite in accord with me in the design, and I beg to assure you and the Board that if this privilege is granted, I shall do my best to accommodate myself to all the exigencies which may present themselves, to the credit of the New York Ward Schools, and for the honor of pure art in the abstract, as a handmaid of which last, you will surely allow that *any* Board of Education should have no cause to blush.

I availed myself of your last favor in but two schools (50 and 56), and the courtesy therein extended to me by the principals was very grateful to

Yours, very obediently,

JEROME HOPKINS.

The following is the reply of the President :

NEW YORK, May 2, 1883.

MR. JEROME HOPKINS :

DR. SIR—Your letter of the 1st inst. is at hand.

It is addressed to me personally, but as it concerns matters in respect to which the Board of Education has authority to act, it will be referred to that body for consideration.

Meanwhile, I hope you will form no plans upon the expectation that your request will be granted. My confidence in the good judgment of the Board is so great, that I am prepared in advance to assure you that no permission for rehearsals of school children in preparation for a public exhibition in aid of some or any charitable cause will ever be given.

In respect to the recent performance under your charge at Wallack's Theatre, in which pupils of G. S. No. 50 and G. S. No. 56 were engaged, the intimation in your letter that it took place under the favor or patronage, or with the connivance or consent of the Board of Education or myself, is quite erroneous.

The Principals of these schools, as they have since informed me, fell into an error in furnishing you with the names of some of their best pupils in singing. This error may be condoned, as it was a mistake of two ladies among the most respected in their profession. Other than by this act the performance was without official authority of any sort, although it was advertised by you (in a manner wholly unauthorized by the facts) as a friendly contest between two City Grammar Schools.

It will accord with my views, and I believe with those of the school authorities, if hereafter your endeavors to advance the interests of your profession or to promote the cause of charity should be confined to efforts which do not require the assent or authority of the Board of Education.

Respectfully yours,

STEPHEN A. WALKER.

Commissioner PATTERSON moved that so much of said resolution as relates to Colored Schools Nos. 3 and 4 be rescinded.

Commissioner SCHIFF moved to amend said motion by striking out "Colored School No. 4."

Which was lost.

Ayes—Commissioners Beardslee, Belden, Coudert, Devoe, Dowd, Ivins, Kelly, Patterson, Tamsen, Wallace, Welch, West and Wetmore—13.

46 EAST FOURTEENTH STREET, }
 May 1, 1883. }

STEPHEN A. WALKER, Esq.:

MY DEAR SIR—It is proposed to have a Children's and Choir-Boy Singing Festival for the Twenty-second Armory Building Fund, and about one thousand voices to participate therein. Being desirous of showing what *real* children's singing is, it never having been yet heard, *to my ideas*, in this city, and knowing that the only way in which it can be effected is by *sectional* rehearsals first, and *ensemble* meetings afterwards; this is to request permission to meet selected voices *after school hours* in certain of your own school houses (for a few weeks only) for this purpose.

My friend, Dr. Conklin, of the Twentieth street school, is quite in accord with me in the design, and I beg to assure you and the Board that if this privilege is granted, I shall do my best to accommodate myself to all the exigencies which may present themselves, to the credit of the New York Ward Schools, and for the honor of pure art in the abstract, as a handmaid of which last, you will surely allow that *any* Board of Education should have no cause to blush.

I availed myself of your last favor in but two schools (50 and 56), and the courtesy therein extended to me by the principals was very grateful to

Yours, very obediently,

JEROME HOPKINS.

The following is the reply of the President :

NEW YORK, May 2, 1883.

MR. JEROME HOPKINS :

DR. SIR—Your letter of the 1st inst. is at hand.

It is addressed to me personally, but as it concerns matters in respect to which the Board of Education has authority ~~to~~ *act*, it will be referred to that body for consideration.

My confidence in the good judgment of the Board is so great, that I am prepared in advance to assure you that no permission for rehearsals of school children in preparation for a public exhibition in aid of some or any charitable cause will ever be given.

In respect to the recent performance under your charge at Wallack's Theatre, in which pupils of G. S. No. 50 and G. S. Commissioner WOOD presented a report from the Committee on Normal College relative to a request of the Associate Alumnae of the Normal College, for permission to use the College Chapel for occasional entertainments, the proceeds to be devoted to the purchase of a library for the College.

The Alumnae state that they have long desired to testify their loyalty to their Alma Mater by making some practical return for benefits received during their College course, and the plan which commends itself most warmly to the Association, is to found a Library for the use of the Under-graduates and Alumnae.

It is proposed to give musical, dramatic and literary entertainments, the proceeds of which are to be used for the purchase of a Library for the Normal College. Your Committee can see no good reason why the request should not be granted, and submit the following resolution for adoption :

Resolved, That permission be, and the same is hereby given to the Associate Alumnae of the Normal College to use the College Chapel for the purpose of giving occasional entertainments, under the Supervision of the President and Lady Superintendent of the College, the proceeds to be devoted to the purchase of a Library for the College.

Commissioner WEST presented a report of the Committee on By-Laws, Elections and Qualifications, relative to the resolution of Commissioner Wood, Journal, p. 285, directing them to "report a by-law to the effect that in all cases where teachers are reduced in either rank or salary, by the action of the Trustees of their Ward, they shall have the right of appeal to this Board," &c., &c., respectfully report :

That, having given the subject a careful consideration, they find that in certain cases the teachers are not fully protected under the by-laws, the Trustees having power to change their positions and salary at will, the teacher having no right of appeal.

To remedy this defect in the by-law, the Committee submit an amendment to section 34, which is contained in the following resolution, which is respectfully submitted for adoption :

Resolved, That section 34 of the By-Laws be, and the same is hereby amended to read as follows :

§ 34. Upon the dismissal or application for dismissal of a teacher, or upon any transfer of a teacher, or upon the reduction in rank of a teacher, the Board of Trustees

shall file with the Clerk of this Board a copy of the resolution under which it acted, and notify the teacher, in writing, of the cause of its action. The teacher shall have the right to appeal to this Board within ten days after the service of the notice aforesaid, and said appeal shall be immediately referred to the Committee on Teachers to examine into the facts and circumstances of the case, and report to this Board, and the Clerk of this Board shall at once forward a copy of the appeal to the Board of School Trustees whose action is appealed from. Pending the consideration of such appeal no salary shall be paid to any teacher acting in the place of the appellant without the consent of this Board first being obtained, nor shall any appointment to the position occupied by the appellant be acknowledged without the consent herein referred to being first had. If this Board shall decide that there was no good cause for the action of the Trustees appealed from, then the teacher shall be restored to the position and salary he or she had previous to the action of the Trustees, and payment for the intermediate time.

CITY SUPERINTENDENT.

The PRESIDENT laid before the Board the report of the City Superintendent for the month of April, as follows :

CITY SUPERINTENDENT'S OFFICE, }
New York, May 16, 1883. }

To the Honorable the Board of Education :

GENTLEMEN—I respectfully submit the following report examinations by this Department during the month April :

All the schools and classes of the Thirteenth and Nineteen Wards have been carefully examined, with the following results :

The whole number of classes examined was 392, of which 318 were reported *excellent* in character of instruction, and 74 *good*.

The discipline in all the classes, except 10, was reported *excellent*. In 24 schools, or departments, the management was found to be *excellent*, and in 1 *good*.

The returns show that 64 per cent. of the classes in the Thirteenth Ward, and 88 per cent. of the classes in the Nineteenth Ward, were *excellent* in the character of instruction.

On the 13th day of April the undersigned examined the Nautical School. The number of pupils on register at time of visit was 80, with an attendance of 59, divided into four classes.

The results in reading, spelling, definitions, geography, grammar and arithmetic were satisfactory.

The order and general appearance of the pupils indicated care and efficiency in the general supervision.

The aggregate enrollment in the Grammar and the Primary Schools and Primary Departments was 135,817, and the average daily attendance for the month 122,790. This shows an increase of 4,060 on register, and 5,779 in attendance as compared with the same months of the previous year.

The whole number of teachers employed was 3,025, an increase of 86 over the corresponding month last year.

The number of days lost by absence of teachers was 2,942, or 497 greater than for the month of April, 1882.

Appended will be found a list of teachers in whose classes the absenteeism was in excess of twenty per cent. during the month of April.

Very respectfully,

JOHN JASPER,
City Superintendent.

The PRESIDENT put the question whether the Board would adopt the resolution attached to the report of the Committee, and it was decided in the affirmative, as follows :

Ayes—The PRESIDENT, and Commissioners Beardslee, Bell, Coudert, Crawford, Devoe, Dowd, Kelly, Patterson, Pomeroy, Simmons, Traud, Welch, West, Wetmore and Wood—16.

Commissioner WEST presented a report from the Committee on By-Laws, Elections and Qualifications, to whom was referred the following resolution of Commissioner Crawford, (Journal, p. 348):

Resolved, That drawing and music be added to the subjects of examination for a provisional certificate, for either Primary or Grammar Schools ;"

Stating, that these subjects, especially music, require natural gifts, without which proficiency in these branches cannot in all cases be acquired.

The requirements called for in the resolution were not demanded of any of the teachers at present in the employment of the Board, at the time they were examined for a license to teach, and to enlarge the standard of examination now, especially in branches of knowledge which largely depend upon natural aptitude, does not seem to your Committee a necessary or desirable change.

The Committee therefore ask to be discharged from the further consideration of the subject, and submit the following resolution for adoption :

Resolved, That the Committee on By-Laws, &c., be discharged from the further consideration of the resolution of Commissioner Crawford, with reference to the addition of

drawing and music to the subjects of examination for a provisional license.

Commissioner WEST presented a report from the Committee on By-Laws, Elections and Qualifications, to whom were

referred applications from the Trustees of the Fifteenth and Twenty-third Wards to suspend the by-laws, and pay the following named bills, viz :

Fifteenth Ward—H. Curry, window shades, G. S. No.

47\$36 00

Wm. Walgrain, repairs to furniture,

G. S. No. 10. 9 50

Twenty-third Ward—Baker, Pratt & Co., chairs, G. S.

No. 60. 21 00

stating, that the bill of H. Curry was incurred by the Trustees in good faith, believing that it was chargeable to the account of repairs, &c., to the building, and not as an item of furniture, and consequently is in violation of sec. 56, subdivision 2 of the by-laws.

The bill of Wm. Walgrain, for repairing furniture in G. S. No. 10, is in excess, in connection with other bills for furniture work, of the ten dollars allowed by sec. 56, subdivision 1, of the by-laws, but rendered necessary to complete other work done according to law. There is sufficient money to the credit of the expense account of the schools in which these bills were severally incurred, to permit of their payment.

The bill of Baker, Pratt & Co., is for chairs supplied G. S. No. 60, in December, 1882, the Trustees claiming that it was an oversight on their part in regard to the amount of money they could expend monthly in purchasing and repairing furniture. The chairs were necessary, and having a large surplus of money to the credit of the school they were purchased by the Trustees.

In view of the facts the Committee recommend that the bills be paid, and submit the following resolution for adoption :

Resolved, That section 56 of the by-laws be suspended, so far

as relate to the payment of the following named bills, and that said bills be paid from the incidental expense account of the schools in which they were severally incurred, on the approval of the Superintendent of School Buildings :

Commissioner WEST presented a report from the Committee on By-Laws, Elections and Qualifications, to whom was referred the following resolution (Journal, pp. 346, 347) :

Resolved, That the First Assistant of Primary School No. 47 be paid the average salary allowed teachers of Grammar Classes in Mixed Schools, and that all provisions of the by-laws inconsistent herewith be and the same are hereby suspended"—

Stating, that in 1882 the teacher referred to in the resolution, was the First Assistant in G. D. No. 67, and paid the rate salary prescribed for teachers of Grammar Classes in Mixed Schools, \$762.50. On Jan. 1, 1883, the school was reorganized as a Primary School No. 47, and the salary of the teacher was fixed at \$650, being a decrease of \$112.50 per annum.

This is an exceptional case, and very injuriously affects the teacher in question, who is at present performing the same duties as in 1882, at a loss in salary of \$112.50 per year.

Your Committee, in view of these facts, recommend adoption of the following resolution :

Resolved, That the First Assistant of Primary School No. 1 be paid the average salary allowed teachers of Grammar Classes in Mixed Schools, as provided in section 35, subdivision 3 ; and that any provisions of the by-laws inconsistent herewith be, and the same are hereby suspended for the purposes of this resolution.

As all the by-laws relating to Colored Schools have been repealed, to take effect September 1st of the present year, your Committee recommend that Article XII, sections 82, 83,

Commissioner DEVOE presented a report from the Committee on Buildings, to whom was referred the application of the Trustees of the Twenty-first Ward for authority to advertise for proposals for the erection of two iron stairways on the outside of Grammar School buildings Nos. 14 and 49; stating, that this work was authorized to be done during the last summer vacation, but for want of the necessary funds was postponed.

It is necessary for the safety of the pupils in case of an emergency, that these stairs should be erected on the outside of the respective buildings at the rear of the front wings.

The following resolution is submitted for adoption :

Resolved, That the School Trustees of the Twenty-first Ward be, and they hereby are, authorized to advertise in the *City Record* for two weeks, for proposals for erecting two

Commissioner DEVOE asked and obtained unanimous consent for the immediate consideration of said report.

The PRESIDENT put the question whether the Board would adopt the resolution attached to the report of the Committee, and it was decided in the affirmative.

Commissioner POMEROY presented a report from the Committee on Warming and Ventilation, to whom was referred applications from the Trustees of the Fifth, Eighth, Nineteenth, Twentieth and Twenty-second Wards, for repairs, alterations, &c., to the steam heating apparatus in G. S. Nos. 44, 38, 53; P. S. No. 35; G. S. Nos. 32, 33, 48; G. S. No. 58 and 51, respectively; stating, that the return pipes connected with the heating apparatus in schools Nos. 44 and 38 are under ground, rusted through in places, and require constant repairing. It is proposed to place return pipes above the ground, thereby preventing a constant expenditure of money; it is also proposed to make sundry small repairs to other parts of the apparatus, which, in both these schools, has been in use for a long time.

In Grammar Schools Nos. 53 and 58, the tubes in the steam boilers are worn out, and it is proposed to renew them, thereby saving the expense of providing new boilers, and to make other small repairs. In Grammar School No. 58, the brick work requires to be reset.

In Grammar Schools Nos. 32, 33 and 48, repairs are required, which must be attended to.

In Grammar School No. 51, one of the boilers is entirely worn out, and must be replaced before another season; the hot air boxes must be removed, and additional radiators are required in the assembly room of the Grammar and Primary Departments, as well as other small repairs, to properly heat the building.

In Primary School No. 35, an additional boiler, larger supply pipes to the radiators and returns from the same, and some independent returns which have never been provided are absolutely necessary. This is a leased building, the lease not expiring until 1890, and has an average attendance of 1,020 pupils, and may be considered as permanently established. The heat furnished since the occupation of the building in 1880, has been insufficient to make some of the class-rooms tolerably comfortable with the weather even as moderate as twenty and twenty-five degrees above zero, and the Trustees on several occasions during the winter felt disposed to close this school in severe weather, rather than to have the children suffer from the cold.

The Committee are impressed with the necessity for these improvements, and propose to have them made by contract. A resolution is submitted to this effect :

Resolved, That the several Trustees of the Fifth, Eighth, Nineteenth, Twentieth and Twenty-second Wards be, and they hereby are, authorized to advertise in the *City Record*, for two weeks, for proposals to alter, repair, &c., the heating apparatus in the schools named herein; plans and specifications to be prepared by the Engineer, and approved by the Committee on Warming and Ventilation, and Trustees of the Wards named herein :

REPORTS OF SPECIAL COMMITTEES.

Commissioner CRAWFORD presented a report from the Special Committee to inquire into the facts relative to Primary School No. 6, and the action of the Trustees of the Seventeenth Ward relative thereto, as follows :

To the Board of Education of the City of New York :

GENTLEMEN—The Special Committee appointed May 2, 1883, to ascertain, among other things, whether the Trustees of the Seventeenth Ward were neglecting Primary School No. 6, within the meaning of the statute applicable to the subject (formerly known as subdivision 8, § 3, of an Act passed July 3, 1851, now known as subdivision 12 of § 1027 of the New York City Consolidation Act of 1882), and whether the interests of the pupils in said school require that this Board should take charge of the school, etc., respectfully report :

That a meeting of the Committee was held May 7th instant, which was attended, pursuant to a notice (accompanied by a copy of the resolution appointing the Committee), previously delivered to them, by all the Trustees of the Seventeenth Ward.

Miss Mary C. Hepburn, the principal of the school ; Mrs. Lydia O. Sherwood, first assistant, and Frederick Keil, the Janitor, were also present, and made statements in the hearing of the Trustees.

The uncontradicted facts deemed material by the Committee are as follows :

On the 30th day of April last, the paper annexed to this report, and marked A, was delivered to Miss Hepburn by authority of Trustees Horgan, Moore and Maurer.

On the morning of May 1, before 8 o'clock, Trustee Horgan personally delivered to the Janitor, on the school premises,

the paper annexed to this report marked B, the same being in the handwriting of Trustee Moore, and this action on the part of Trustee Horgan having been authorized by the other two Trustees already named.

At the time of delivering this paper Mr. Horgan informed the Janitor that he was discharged, and that his services would no longer be required. After making this statement he took the key from the janitor and locked the outside door of the school-house, but, a few minutes later, told the Janitor to unlock the door, as the *teachers* might desire to enter.

No transfer of scholars has taken place from No. 6 to No. 9.

The Trustees declined to explain or to answer the above facts, further than to say that the notices referred to had been given as precautionary measures.

They were asked to state whether they intended to conduct and carry on the school as usual. To this they made no answer, further than to state that the Board of Education should be promptly informed of any official action on their part relating to the matter.

The fullest opportunity was given to the Trustees to be heard upon the subject.

Your Committee, in view of the fact that the above action of the Trustees took place with full knowledge on their part of the action of this Board in relation to closing this school, taken at the last meeting in April, believes that such action amounts to neglect sufficient to justify the adoption (hereby recommended by your Committee) of the following resolutions:

Resolved, 1. That it appears to the Board of Education that the Trustees of the Seventeenth Ward are neglecting Primary School No. 6 to the detriment of the pupils in said school.

Resolved, 2. That upon the passage of this resolution the Board of Education take charge of said school, manage the same, furnish all needful supplies therefor, and appoint proper teachers therefor until January 1, 1884.

Resolved, 3. That this committee be discharged from further consideration of the subject.

Respectfully submitted,

GILBERT H. CRAWFORD,
R. G. BEARDSLEE,
FERDINAND TRAUD.

SUPERINTENDENT OF SCHOOL BUILDINGS.

The PRESIDENT laid before the Board the report of the Superintendent of School Buildings, on the condition of the several school premises, as follows :

OFFICE OF THE SUPERINTENDENT OF SCHOOL BUILDINGS, }
NEW YORK, *June 5, 1883.*

To the Honorable the Board of Education :

GENTLEMEN—As required by your by-laws, the following ~~is~~ respectfully submitted in regard to the “ safety, general condition,” etc. of the school buildings. With very slight variation ~~=~~ the report of almost any former year might be used in describing the present general condition of the buildings ; considered ~~<~~ collectively, about the same number require special repair ~~=~~ about the same number require painting, and about the same number—in the opinion of certain parties—ought to be taken ~~=~~ down and others erected in their places ; and the number ~~<~~ of new buildings in new locations seems to be on the increase ~~=~~ and continues to keep in advance of the appropriations for ~~<~~ such purposes.

During the vacation of 1882 many substantial repairs and alterations were made, which will not need attention for many years to come.

outside iron stairways recommended last year were in consequence of lack of funds—all completed; provision has been made, however, for nearly all, and by the first of January next Grammar Schools Nos. 2, 11, 13, 14, 18, 32, 33, 35 and 49 will all be provided with these safe and convenient means of egress.

Work done under contract in the schools during last year was done promptly and satisfactorily, adding much to the comfort of those occupying the buildings.

For the present year, the number of proposed improvements will be so great as in some former years. In 1882 there were thirty-three contracts directly connected with repairs, etc., in the buildings; this year the number will probably be about the same; the aggregate cost exceeding \$60,000. The several kinds of work being as follows:

Ward, Alterations.....	G. S. No. 24
“ “	“ “ 20
“ Enlarging closets, etc.	“ “ 4
“ Iron stairway	“ “ 13
“ “	“ “ 19
“ “	“ “ 18
“ Sliding doors, etc	“ “ 70
“ Improving drainage, iron stairways	“ “ 32
“ Iron stairways	“ “ 14
“ “	“ “ 49
“ Connecting with sewer	“ “ 9
“ Changing closets	“ “ 28
“ Repairs, etc	“ “ 51
“ New roof and floors	“ “ 65

The above does not include all that ought to be done, but such as is most necessary, and will probably exhaust all the funds that are available for the purposes named.

In addition to the above there will doubtless be expended nearly the entire portion of the Buildings Contingent Fund set apart for the Committee on Buildings to appropriate in sums not exceeding \$200, the total amount in charge of the committee being \$18,000.

The Trustees of the several Wards will also have at their disposal not less than one-sixth of the entire Incidental Fund, to be expended in making such repairs as they deem necessary and proper, and as provided by the by-laws; the total of one-sixth of said fund, which will be expended during vacation, added to the other sums named, will make an aggregate of about \$85,000.

The usual lists have been forwarded to the clerk of your Board of the repairs needed to be done during vacation; these have been examined and found to be very carefully prepared, in some cases rather overdone; the intention being to have only such repairs and necessities enumerated as could not be provided for from the Incidental Fund. The entry in a list of repairs of the following, "Button on door of room No.—," and others of a similar character, would seem to indicate that great care has been bestowed on the subject.

An approximate estimate has been made of the cost of making the repairs and improvements proposed, as per the list from Trustees, the total amount required would be—for buildings only, heating apparatus and furniture not included—about \$116,000, while \$90,000 is the most that can be spared for the entire repair work, etc., to be done on furniture, heating apparatus and buildings.

Taking into consideration the fact that there are 220 schools or departments, having a total average attendance of over 120,000 pupils, that these pupils occupy 45 buildings for Primary School purposes, and 77 buildings for Grammar

school purposes, the sum annually required for repairs does not seem extravagant.

It is believed that with the work to be done by contract, and a judicious expenditure of the Buildings Contingent Fund, and the Incidental Funds of the several Wards, the buildings can be made fairly comfortable, leaving all special painting and decorating for a more convenient season.

Respectfully submitted,

D. I. STAGG,
Superintendent of School Buildings.

RESOLUTIONS TO BE REFERRED OR PASSED WITHOUT OBJECTION.

Commissioner WOOD offered the following :—

MR. PRESIDENT AND GENTLEMEN OF THE BOARD OF EDUCATION—I rise to offer a resolution with regard to our esteemed late colleague, WM. DOWD, Esq., now no longer a member of this Board, which has had the benefit of his services for the last ten years, and to whom I have often been opposed in opinion, and sometimes strongly antagonistic, but I can honestly say

after having served with him for seven years, the longer we have known him the better I have liked him.

Resolved, That we part with WILLIAM DOWD with feelings of sincere regret, that we shall miss his good common sense in relation to educational matters, his sound and economic views on finance, and his steady and persevering industry in arriving at right conclusions on all matters before the Board; but our regret is tempered with satisfaction at the high compliment paid by the Legislature of the State to a member of our Board in nominating him to the important office of Aqueduct Commissioner, an office in the honest discharge of the duties of which we doubt not that he will acquire fame as well as emolument.

But we shall miss what Tennyson so well describes in his poem of the Miller's Daughter:

" His slow wise smile, which round about
His dusty forehead dryly curled,
Seemed half within and half without,
And full of dealings with the world."

The PRESIDENT put the question whether the Board would adopt said resolution, and it was decided in the affirmative.

Resolution of Commissioner WOOD:

Resolved, That said resolution be engrossed, and signed by the President and Clerk, and forwarded to Mr. Dowd.

WILLIAM BELDEN, HENRY P. WEST, W. J. WELCH, F. R. COUDERT,	} <i>Auditing Committee</i>
---	---------------------------------

Commissioner BELDEN asked and obtained unanimous consent for the immediate consideration of said report.

The PRESIDENT put the question whether the Board would adopt the resolution attached to the report of the Committee, and it was decided in the affirmative, as follows :

Ayes—The PRESIDENT, and Commissioners Beardslee, Belden

Coudert, Crawford, Devoe, Ivins, Kelly, Pomeroy, Schiff, Simmons, Traud, Vermilye, Welch, West, Wetmore and Wood
—17.

Commissioner Wood presented a report from the Committee on Course of Study and School Books, relative to the introduction of sewing into schools, as follows :

To the Board of Education :

The Committee on Course of Study and School Books, to whom was referred the petition of the managers of the House and School of Industry, and other organizations of ladies for the instruction and elevation of the poor, asking that sewing be taught in the Primary Schools, respectfully report :

That, pursuant to an invitation, a number of ladies, who have had large experience among the poor of this city, appeared before your Committee, and strongly advocated the measure, claiming that it was very essential that children, especially those of the poorer class, should be taught this useful branch of industry ; also, that much distress in the homes of the working class often results from the fact that the women and girls do not know how to sew.

A number of Principals of Primary Schools and Departments likewise appeared and presented their views, some of whom strongly opposed any change in the course of study, while others advocated the introduction of this branch of industry in the 3d grade, others in the 1st grade, while there were others who advocated its introduction in the 1st, 2d and 3d grades.

It appears that sewing has been successfully taught in the City of Boston for a number of years, and, for the purpose of showing the results that have been attained in that city, the

following abstract, from a report of a Committee having the subject in charge, made in 1881, is quoted :

“It would probably be difficult to-day to find any master (of a girls' school), or any member of the Board, who would be willing to remove sewing from the schools.

“Evidence of the practical value of this instruction is constantly increasing, and the following passage, taken from last year's report, state facts which each year's experience confirms and multiplies: ‘Not frequently young girls, fresh from school, find steady, remunerative employment, thanks to their skill with the needle; others are now able to keep their own garments, and those of younger sisters and brothers, neat and tidy, where formerly rents and rags prevailed, and many graduates of our schools in more favored positions admit that they owe their skill in fine needle work entirely to the teaching received at school.’ ”

Your Committee, after hearing all the arguments for and against the proposition, have concluded to recommend that sewing be introduced in the 1st, 2d and 3d Primary Grades, to be taught one hour per week.

This can be done at very small expense, and, in the opinion of your Committee, will prove very beneficial to the children in these grades, who, upon leaving school, will thereby be prepared to find remunerative employment. Fine sewing commands high prices, and a woman can always keep herself and children from starvation if she be a good seamstress.

In view of all these facts, the following resolution is submitted for adoption :

Resolved, That sewing be introduced, one hour per week, in the 1st, 2d and 3d Primary Grades, and that the City Superintendent adapt a course of study accordingly, and

that all provisions of the by-laws inconsistent herewith be suspended.

Respectfully submitted,

WILLIAM WOOD,	} Committee on Course of Study, etc.
GILBERT H. CRAWFORD,	
(As to Resolution),	
FERDINAND TRAUD,	
For presentation,	
J. EDWARD SIMMONS,	

Laid over under the rule.

Commissioner WETMORE presented a report from the Committee on Teachers, to whom was referred the appeal of Miss Margaret J. Beatson, a teacher in M. D. G. S. No. 20, against the action of the Trustees in promoting a teacher over her ; stating, that a vacancy occurred in Male Department No. 20, a position higher in rank than that held by Miss Beatson. The Trustees refused to promote Miss Beatson, but advanced all the other teachers in the department. Miss Beatson has not been changed either in position or salary, and consequently has no right of appeal under the law.

The Committee submit the following resolution for adoption :

Resolved, That the appeal of Miss Margaret J. Beatson, teacher in Male Department No. 20, against the action of the Trustees of the Tenth Ward, in refusing to promote her be, and the same is hereby dismissed.

DAVID WETMORE,	} Committee on Teachers.
GILBERT H. CRAWFORD,	
J. EDWARD SIMMONS,	
FERDINAND TRAUD,	

Commissioner WETMORE asked and obtained unanimous consent for the immediate consideration of said report.

Commissioner WOOD moved that Commissioners Coudert

and Crawford be added to the former Committee appointed 1878, to take into consideration the action of the Principal and that this report be laid on the table.

The PRESIDENT ruled that the motion was out of order being germane to the subject of the appeal.

The PRESIDENT put the question whether the Board would adopt the resolution attached to the report of the Committee and it was decided in the affirmative, as follows:

Ayes—The PRESIDENT, and Commissioners Beardslee, Beldent, Crawford, Devoe, Pomeroy, Schiff, Simmons, T. Welch, West and Wetmore—12.

Nays—Commissioners Belden, Ivins, Kelly, Vermilye and Wood—5.

Commissioner WETMORE presented a report from the Committee on Teachers, to whom were referred applications from the Trustees of the several Wards, to excuse the absent teachers, with full pay; stating, that the cause of absence in each case is personal illness.

A statement is submitted, showing the record of each applicant for the past five years.

The Committee thereupon adjourned the further consideration of the subject to a meeting held on the 23d of April, at which a letter from Mr. Samuel G. French was received, of which the following is a copy :

NEW YORK, April 23, 1883.

Committee on Supplies, Board of Education, City of New York :

GENTLEMEN—The Harleigh coal which I offered to supply you in my bid of April 20, comes under the head of the coal called for in your advertisement for proposals, viz., "Best quality white ash;" but if your Committee should decide that the said coal is too hard for the use of the schools, I am ready to contract for and supply, at the same price, \$4.71 per ton, with the same sureties, either of the following free burning coals, viz. : Scranton, from the mines of the Delaware, Lackawanna and Western Railroad Company; Wilkesbarre, from the mines of the Enterprise Coal Company, or Plymouth vein, from the mines of George H. Parish & Co., and Lackawanna Valley, mined by Pierce Coal Company.

(Signed) Yours very respectfully,

SAM'L G. FRENCH.

Under the apprehension that it was legal to receive and act on this amendment of his original bid, the Committee agreed to report to the Board in favor of making the award to said

Samuel G. French, on condition that the coal should be supplied from the mines named in the foregoing letter. On the 1st of May a protest from H. E. Bowns, one of the bidders heretofore mentioned, was submitted to your Committee, objecting to the award to said French on his amended proposal as being irregular and illegal, as follows :

COAL OFFICE OF H. E. BOWNS,
Room 73, Trinity Building,
No. 111 Broadway. }

NEW YORK, *April 26, 1883.*

Committee on Supplies, Board of Education, New York City:

GENTLEMEN—I hereby respectfully protest against the award for coal to Samuel G. French, on the ground that his bid is distinctly for “Harleigh” Lehigh coal, and should be either accepted for such, or rejected.

In annexed advertisement, which I hereby make part of this protest, the following passage occurs: “The proposal must state the mines from which it is proposed to supply the coal, to be furnished from the *mines named, if accepted.*” It is, therefore, plainly obligatory on your honorable body to either reject the above proposal or accept the same for coal to be furnished from the mine therein named, the “Harleigh colliery. If, after the bids were opened, and a full investigation had been made of the Harleigh coal, and it was found to be unfit for the use of the public schools of this city, it is evident that the bidder next lowest for a suitable coal is entitled to the award. I think it simply necessary to draw your attention to the unfair advantage it gives bidders offering coal of this character, and, after a full knowledge of the prices to be competed against, get permission to amend their bids, if it suits their purpose.

I earnestly protest against the injustice of the above award,

ess the same be made in accordance with Mr. French's final bid for Harleigh coal only, not only as being unfair to others, but also as being in direct violation of the laws governing public contracts in the City and State of New York. My bid being the next lowest, and for Delaware and Hudson Coal Company's coal, which your honorable body has heretofore accepted from me, I respectfully claim the award under the advertisement of April 2, 1883.

Very respectfully submitted,

H. E. BOWNS.

It was not intended to contest the right of the Committee to make the award upon Mr. French's original bid, but it was understood that if any one of the bidders was allowed the privilege of modifying their proposal, all of them should have the same right. The Committee considered this a fair presentation of the subject, and after a more careful deliberation, concluded that the former act was not legal nor fair so far as the other competitors were concerned. Undoubtedly, if Harleigh coal was suitable for school use and was the kind of coal asked for in the public advertisement, Mr. French would be entitled to the award. But the coal is not such as is needed for the public schools. The Committee therefore reconsidered their former opinion and rejected all the bids (May 1st), and directed that another advertisement should be inserted in the *City Record* similar in all respects to that heretofore quoted. From this action Mr. French appealed to the Supreme Court, and after a statement of the case before His Honor Judge Donohue by the Counsel to the Corporation and the counsel of Mr. French, and all the facts herein detailed, he granted a peremptory mandamus directing that the Committee submit to the Board at its next meeting the award made to Mr. French for delivering coal to the public schools. In obedience to said direction, we so

report. We are, however, impressed with the belief that it is not in the interest of the public that this award should be approved.

The bids for wood were also rejected, and a readvertisement inserted for proposals to supply the same. But as no controversy exists in regard to this action, the Committee will present, in another report, the result of the second list of proposals received, with their recommendation thereon.

The following resolution is offered :

Resolved, That the contract for supplying coal to the several schools for the year ending May 1st, 1884, be awarded to Samuel G. French, at the price named in his proposal of \$4.71 per ton of 2,240 pounds.

Respectfully submitted,

FERDINAND TRAUD,	} Committee on Supplies.
DAVID WETMORE,	
WILLIAM BELDEN,	
WM. J. WELCH,	

In connection with said report, Commissioner WETMORE presented the opinion of the Counsel to the Corporation, as follows :

LAW DEPARTMENT,	}
OFFICE OF THE COUNSEL TO THE CORPORATION,	
NEW YORK, <i>June 5th</i> , 1883.	

DAVID WETMORE, Esq.

DEAR SIR:—Referring to the peremptory writ of mandamus issued against the Committee of Supplies, in the proceeding against it by Mr. Samuel G. French, and to my oral conversation with yourself and the President of the Board of Education, I have to advise you that it is the duty of the Committee to report the award of the contract for coal, heretofore made to Mr. French, to the Board of Education at its next meeting. Under the law, the Board of Education has the right to reject

any or all bids, and it can lawfully approve the award to Mr. French, and execute a contract with him, or it can reject his bid and execute a contract with some other bidder.

I am, sir, yours respectfully,

GEORGE P. ANDREWS,

Counsel to the Corporation.

Commissioner TRAUD asked and obtained unanimous consent for the immediate consideration of said report.

The PRESIDENT *pro tem.* put the question whether the Board would adopt the resolution attached to the report of the Committee, and it was decided in the negative, as follows:

Nays—The PRESIDENT, and Commissioners Beardslee, Conder, Crawford, Devoe, Ivins, Kelly, Schiff, Simmons, Traud, West, Wetmore and Wood—13.

Commissioner SCHIFF moved that when the Board adjourns it adjourn to meet on Wednesday next, 13th inst., to consider the question of the Colored Schools, and any business that may come before the Board.

There being no objection, the resolution was adopted.

Upon consideration of the proposals for coal, it appeared that the lowest responsible bid for the kind of coal required, was made by H. E. Bowns, being at the average price of \$4.73 per ton of 2,240 pounds, and it was decided to award the contract to the said H. E. Bowns, at the price named.

Upon consideration of the proposals for wood it was found that the lowest responsible bid was that of Frederick Buse, being \$6.90 per cord for oak and \$7.00 per cord for pine wood, and for sawing 7 cents per cut for oak wood and 7 cents per cut for pine wood per load, and for splitting 5 cents per cut per load for the oak and pine, and it was decided that the contract for the wood should be awarded to the said Frederick Buse, subject to the rules and regulations of the Board.

The following resolutions are submitted for adoption :

Resolved, That the Committee on Supplies be, and they hereby are authorized to contract with H. E. Bowns for the coal required for the use of the schools under the control of this Board, pursuant to his proposal, for the year ending May 1, 1884, at the rate of \$4.73 per ton of 2,240 pounds; said H. Commissioner SIMMONS presented a report from the Committee on Sites and New Schools, to whom was referred the application of the Trustees of the Twelfth Ward for the purchase of two lots of ground on the south side of Eighty-eighth street, in the rear of Grammar School building No. 37, stating that more accommodation is needed for this school. Commissioner SIMMONS presented a report from the Committee on Sites and New Schools, to whom was referred the application of the Trustees of the Twelfth Ward for the purchase of a new site in said Ward, and submitting diagrams of several proposed sites as follows :

1. Whole front on east side of Lexington avenue, between Ninety-sixth and Ninety-seventh streets, \$55,000.

2. Twelve lots of ground on northerly side of Ninety-seventh street, 450 feet westerly from the northwest corner of Ninety-seventh street and Third avenue, \$50,000.

3. West side of Lexington avenue, between Ninety-fifth and Ninety-sixth streets, \$66,000.

There is great and pressing demand for school accommodation in the section of the ward in which these sites are located. Grammar School No. 72, on Lexington avenue, between One Hundred and Fifth and One Hundred and Sixth streets, is overcrowded. By the purchase of a site, and the erection of a building thereon in the neighborhood of said school, it will furnish the accommodation so much needed.

The Committee have inquired into the availability of each of the proposed sites, and are of the opinion that the purchase of the twelve lots of ground on the northerly side of Ninety-seventh street, 450 feet westerly from the northwest corner of Ninety-seventh street and Third avenue, for the sum of \$50,000 is the best course to adopt. These lots are the cheapest and best located that can be secured, and the following resolution is, therefore, submitted for adoption :

Resolved, That the sum of fifty thousand dollars (\$50,000) be, and the same is hereby appropriated for the purchase of a plot of ground, twelve lots, bounded and described as follows :—Beginning at a point on the northerly side of Ninety-seventh street, distant 450 feet westerly from the

northwest corner of Ninety-seventh street and Third avenue; thence running northerly and in a line parallel with Third avenue 201 feet 10 inches to the southerly side of Ninety-eighth street; thence westerly along south side of Ninety-eighth street 150 feet; thence southerly and in a line parallel with Third avenue 201 feet 10 inches to north side of Ninety-seventh street, and thence easterly along the northerly line of Ninety-seventh street 150 feet to the point or place of beginning; and the Comptroller of the City of New York is hereby authorized to pay from the fund set apart for sites and buildings for the year 1883, the said sum of fifty thousand dollars (\$50,000) for the premises named, to be used for school purposes, upon the presentation to him of the deed for the same, together with the certificate of the Counsel to the Corporation that the title thereto is satisfactory and free from all incumbrances and is vested in the Mayor, Aldermen and Commonalty of the City of New York.

Commissioner SCHIFF presented a report from the Committee on Warming and Ventilation, to whom was referred the application of the Trustees of the Twelfth Ward to alter and repair, &c., the heating apparatus now in use in Grammar School No. 57 ; stating, that the proposed changes, if made, will cost more money than the Board will have at its disposal after providing for repairs actually necessary to be made to the school buildings during the summer vacation.

By making some slight repairs the apparatus can be made to do good service for another season.

The Committee therefore recommended that the application be denied.

Resolved, That the application of the Trustees of the Twelfth Ward for authority to make extensive alterations, &c., in

the heating apparatus of Grammar School No. 57, be, and the same is hereby denied.

Commissioner DEVOE asked and obtained unanimous consent for the immediate consideration of said report.

The PRESIDENT put the question whether the Board would adopt the resolution attached to the report of the Committee, and it was decided in the affirmative.

Commissioner WEST presented a report from the Committee on By-Laws, Elections and Qualifications, to whom was referred the resolution of Commissioner Pomeroy (Journal, 362,) amending section 63, of the by-laws, by striking out the words "first Monday in September" and inserting in lieu thereof the words "second Wednesday in September;" stating that the object of the resolution is to extend the summer vacation.

This subject has been considered by the Board on several

occasions. It is well-known that in the early days in the month of September, the public school children, particularly those in the primary schools and departments, suffer mentally as well as physically from the intense heat and injurious atmosphere of the crowded class-room.

It has been recommended by a large number of physicians, and others interested in the cause of education, that for the welfare of the children, the school sessions should not be resumed at so early a day in September as is at present provided by the by-laws.

Your Committee have carefully considered the subject, and are of opinion that the by-law should be amended so as to extend the summer vacation one week in September, and submit the following resolution for adoption :

Resolved, That section 63, subdiv. 2, of the by-laws be amended by striking out the word "first" on next to last line from the bottom of page 147, and inserting in lieu thereof, the word "second."

Commissioner WEST presented a report from the Committee on By-Laws, Elections and Qualifications, to whom was referred the communication from Lyddy Bros., counsellors at law, claiming \$200 for compensation for injuries sustained by Thomas Heaney, a pupil in Primary Department No. 27; stating, that Lyddy Bros., in their communication, represent that "on 27th October last past, Thomas Heaney, of the age of seven years, and a pupil of the Primary Department No. 27, was coming down stairs after the Primary Department had

been dismissed, when he was knocked down and trampled by the boys of the Grammar Department."

The Chairman of the Board of Trustees for the Nineteenth Ward reports, "that to prevent collision, it was the rule to dismiss Primary children two minutes before the hour, and Grammar pupils two minutes after. * * * * The inference is that the boy must have stayed behind the rest, or lingered in some way till all were supposed to be out, and the guard (teacher) was removed from the lower part of the stairs." A claim was presented to the Nineteenth Ward Trustees for damages, and answer made to the effect that they could not entertain it.

In view of all the facts in the case, the Committee recommend that the application be denied, and submit the following resolution for adoption :

Resolved, That the claim of Lyddy Bros., counsellors at law for two hundred dollars (\$200), for compensation for injuries sustained by Thomas Heaney, a pupil in Primary Department Grammar School No. 27 be, and the same is hereby denied.

Commissioner BEARDSLEE presented a report from the Finance Committee, to whom was referred the communication from the Trustees of the Nineteenth Ward, relative to the award made by them for the erection of a school house at Sixty-eighth street and Lexington avenue, and requesting an appropriation therefor of \$122,890 ; stating, that the Trustees made due advertisement for proposals to erect said building, as authorized, and in reply received nine bids, amounts, \$132,832 ; \$129,760 ; \$125,000 ; \$124,800 ; \$123,229 ; \$122,890 ;

\$122,200 ; \$118,800 ; \$118,484. From the persons naming these sums the Trustees, using the discretion claimed in their advertisement, selected Mr. John P. Your Committee have given to this selection all the consideration its importance demands, and fully approve of the selection made. The rules of the Board in such cases having been complied with, and the Board having the ability to appropriate the required sum, a resolution in the usual form is submitted for adoption :

MOTIONS AND RESOLUTIONS.

The PRESIDENT announced that he had received a communication from the Corporation Counsel, relative to the action brought by Mrs. Anna M. Knelles against the Mayor, &c., and the Board of Education, for her dower in premises in Broome street near Sheriff, amounting to nearly \$1,700, for which she will accept \$1,500 if promptly settled. The Counsel to the Corporation had fully investigated the facts, and the law in the case; and being satisfied that there is no legal defense, advised that the offer be accepted.

On motion of Commissioner WOOD, the clerk was directed to notify the Counsel to the Corporation that he should accept the offer.

Commissioner WOOD moved that Commissioners COUDERT and CRAWFORD be added to the Special Committee, appointed in 1878, to investigate the charges against the Principal of Male Department No. 20.

The PRESIDENT ruled that said motion was out of order, for the reason that the Special Committee appointed in 1878 had been discharged by the acceptance of its report, and furthermore could not survive the expiration of the year of its appointment.

Commissioner WOOD called for the reading of the report made by the Special Committee in 1878.

Commissioner West moved that said motion be laid on the table.

Commissioner SIMMONS moved to amend, by laying said mo-

tion on the table for consideration at the next meeting, which was adopted.

The PRESIDENT put the question whether the Board would agree with the motion as amended, and it was decided in the affirmative.

Commissioner SCHIFF offered the following :—

Whereas, It is provided (Sec. 76 of By-Laws) that no candidate shall be admitted to the Normal College unless she shall be at least fourteen years of age ; and,

Whereas, This condition of admission has heretofore been construed in different ways ; be it

Resolved, That it is the opinion of this Board that under the existing by-law no candidate should be admitted unless she has already attained the age of fourteen years at the date of the opening of the term for which such candidate desires to be admitted.

sider the situation of Primary School No. 6, had referred to it, at the last meeting, a paper signed by the Chairman and Secretary of the Trustees of the Seventeenth Ward, addressed to the Board of Education. A meeting of your Committee has been held to consider the effect of this paper, if any, upon the position of affairs as stated in the report of the Committee heretofore made, and printed in the minutes.

The paper states that a resolution was passed, at a regular meeting of the Board of Trustees of the Seventeenth Ward, held June 1, 1883, protesting respectfully but earnestly against the adoption of the report of your Committee above referred to, for the reason that every duty incumbent upon the Trustees has been cheerfully and conscientiously performed in regard to the school in question, as well as every other school in the Ward.

Your Committee is also informed that the Trustees of the Seventeenth Ward, or a majority of them, have signed and audited the pay rolls of the teachers in Primary School No. 6 for the current month.

In view of the contents of the above paper, and of the important fact last above stated, to wit, the auditing of the pay rolls of the school in question, your Committee is of opinion that the Trustees of the Seventeenth Ward have now manifested an intention to take care of the school as usual, which justifies a substitution of the resolution herewith submitted, for the resolution attached to its former report.

The following is therefore offered as a substitute for the resolution previously recommended:

Resolved, That the Special Committee appointed to examine and report whether the Trustees of the Seventeenth Ward were neglecting the interests of Primary School No. 6,

within the meaning of the Statute, be discharged from a further consideration of the subject.

} Committee
 on
 Teachers.

June 13, 1883.

Laid over under the rule.

Commissioner BEARDSLEE presented a report from the Finance Committee, to whom were referred the report of the Committee on Sites and New Schools, recommending the purchase of two lots of ground on Eighty-eighth street, in the rear of Grammar School No. 37, in the Twelfth Ward, for the sum of sixteen thousand five hundred dollars (\$16,500); stating that the Board has the "financial ability" to appropriate said sum. The report of the Committee on Sites, &c., is on page 434 of the Journal.

R. G. BEARDSLEE,
 EUGENE KELLY,
 JACOB H. SCHIFF, } Finance Committee.

Commissioner BEARDSLEE asked and obtained unanimous consent for the immediate consideration of said report.

The PRESIDENT put the question whether the Board would adopt the resolution attached to the report of the Committee on Sites and New Schools, Journal, p. 434, in connection with his report of the Finance Committee, and it was decided in the affirmative, as follows :

Ayes—The PRESIDENT, and Commissioners Beardslee, Court, Crawford, Devoe, Ivins, Kelly, Patterson, Pomeroy, Simmons, Traud, Wallace, Welch, West, Wetmore and Wood 16.

Commissioner BEARDSLEE presented a report from the Finance Committee, to whom were referred the communications from the Trustees of the Sixteenth and Twenty-first Wards, relative to awards made by them for erecting iron stairways at Grammar School buildings Nos. 11, 14 and 49 ; stating, that for the work at No. 11, three bids were received—amounts, \$3,580, \$3,195, \$3,144. For the work at No. 14, four bids were received—amounts, \$3,400, \$3,100, \$2,974, \$2,900. For the work at No. 49, four bids were received—amounts, \$3,365, \$3,280, \$2,974 and \$2,960. In each case the Trustees selected the lowest bidders, being guided entirely by the sums named. Your committee, after a full investigation, are satisfied that the interests of the Board will be best served by changing these awards, and making them each to the second lowest bidder. The difference between these several sums are \$51, \$74 and \$14, an addition in the aggregate on the three contracts of \$139, which the change in the bidders amply justifies. The Board has the ability to appropriate the sums named, and the rules of the Board, in reference to proposals for the work, having been complied with, a resolution is submitted for adoption, authorizing the requisite appropriation :

Resolved, That the sum of nine thousand one hundred and forty-three dollars (\$9,143), be, and the same hereby is appropriated from the Reserve Fund, in the specific sums and for the specific purposes herein named, viz :

For "erecting two stairways to Grammar School house No. 11," on West Seventeenth street, in the Sixteenth Ward \$3,195

For "erecting two iron stairways to Grammar School house No. 14," in Twenty-first Ward 2,974

For "erecting two iron stairways to Grammar School house No. 49," in Twenty-first Ward 2,974

\$9,143

But no part of said money to be paid until the Trustees of the Wards named shall have duly filed the contracts to be entered into by them, in each case, with John J. Bowes & Bro., together with such security as shall be satisfactory to the Finance Committee, nor until the usual requirements of the by-laws are complied with, in respect to the form of said contracts and the payments to be made on account thereof

The PRESIDENT laid before the Board the report of the City Superintendent for the months of May and June, as follows:

CITY SUPERINTENDENT'S OFFICE,
NEW YORK, *June 20, 1883.*

To the Honorable the Board of Education:

GENTLEMEN—I have the honor to submit the following report of the operations of the City Superintendent's Department, from the first day of May until the 20th day of June. During that time all the schools and classes of the Tenth, Twelfth and Eighteenth Wards, Male and Female Department of No. 10, and the Colored Schools, were carefully examined.

Of the 548 classes examined, 394 were reported *excellent* in instruction, 145 *good*, and 9 *fair*.

In discipline, of the classes either examined or inspected, 520 were found to be *excellent*, 36 *good*, and 4 *fair*.

In general management, 36 schools were reported as *excellent*, and 11 as *good*.

The returns show that 67 per cent. of the classes in the Tenth, 77 per cent. in the Twelfth, and 75 per cent. in the Eighteenth Ward, and 35 per cent. in the Colored Schools, were excellent in character of instruction.

In compliance with the by-laws, I hereby report for inefficiency, Mr. H. William Smith, Vice-Principal Male Depart-

nt No. 2), and Miss Sarah Wharfield, Assistant Teacher in
lored School No. 4, they having received "*fair*" in instruc-
n for two consecutive years.

The regular annual examination of the schools commenced on
10th day of October, 1882, and has continued from day to
r until the present time. During that period every class
s been examined, the methods of the teachers in instruction
& discipline have been carefully inquired into, and such
ggestions given as would tend to improve the general condi-
n of classes and schools.

The results show a gratifying improvement and give evi-
nce generally of faithfulness and competency on the part of
th principals and teachers.

Since the opening of the schools last September, I have
rsonally visited and inspected all the Evening Schools, all
s Day Schools, and the classes contained in each, a total of
5 schools, and 2,987 classes.

The Principals' monthly reports show a register number in
s Grammar and the Primary Schools on the thirty-first day
May, of 134,448, with an average daily attendance for the
nth of 121,387, an increase of 3,164 in enrollment, and
28 in average attendance, when compared with the returns
May, last year.

The whole number of days lost by absence of teachers
ring the month was 2,834, an increase of 162 over the cor-
sponding period in 1882.

The total number of teachers, including principals, employed
the Grammar and Primary Schools for May, was 2,994.

Annexed will be found a schedule giving the names of
chers in whose classes the absenteeism for the month was
excess of twenty per cent.

Very respectfully,

JOHN JASPER,

City Superintendent.

EVENING HIGH SCHOOL.

Commissioner BEARDSLEE presented the report of Jared S. Babcock, Esq., Principal of the Evening High School, for the term of 1882-1883, as follows :

EVENING HIGH SCHOOL, }
April 4, 1883. }

To the Honorable the Board of Education :

GENTLEMEN—I have the honor to submit the following report of the Evening High School for the seventeenth term, ending at the date of this report.

The usual two weeks' work of examination, registration and classification of applicants for admission, preliminary to the commencement of the term proper, was begun on Monday evening, September 18, 1882. Eighteen hundred and forty students were admitted to membership, and about fifteen hundred were rejected, not being able to pass the required examination; a large number of these obtained admission to the other evening schools.

The regular class instruction commenced on Monday evening, October 2d, the first evening of the term proper, upon which session the attendance was 1,737. The average attendance for the term, consisting of one hundred and twenty nights, exclusive of all holidays, was 974. The average age of the students was nearly 21 years. The oldest being 57 and the youngest being 14. There were 74 students who attended every evening.

The time of each evening, from 7 to 9 o'clock, is divided into two equal parts; each instructor teaches two classes, one from 7 to 8 o'clock, and another from 8 to 9 o'clock, thus enabling students to pursue two subjects of study without having them conflict with each other. The students are permitted

to choose their instructors, and to select the study or studies they desire; they are required to be present only when their classes are in session, it being optional with them whether they pursue one study or two; a very large majority attend both hours. After a student has made a selection of study or studies, he cannot change the same without the permission of the Principal. Each member is furnished with a card of admission, a programme of study, and a printed copy of the rules and regulations of the school.

Students who have made satisfactory improvement in their studies, and who have not been absent more than fifteen evenings, are entitled to *certificates*, and those who have received *three* annual certificates are entitled to *diplomas*. Four hundred and fourteen certificates and forty-four diplomas were awarded at the end of the term.

Table showing the studies, the average attendance, the number of instructors, and the average age of the students in each study.

The work done by the various classes did not differ from that done in previous years. The following is a detailed statement of the same :

Latin.

This class met one hour each evening in the week. Its work embraced the nouns and adjectives of the various declensions, the pronouns, the prepositions, the adverbs, the conjugations of the verbs, the comparisons of adjectives and adverbs, and the rules relating to the same. Translations from Latin into English and from English into Latin were given by the members of the class each evening.

English Grammar and Composition.

The principles of grammar were taught in detail by the instructor, and practically applied by the students to the construction of sentences ; analysis and parsing were taught as aids in constructing sentences ; propriety of expression and the correction of errors received due attention, and a very satisfactory knowledge of the subject was obtained by the students. Compositions were written by the students, read before the class, and criticised by the members and by the instructor.

Drawing.

The work in the Architectural and Mechanical Drawing Class embraced the problems of descriptive geometry, the elements of linear perspective, the orders of architecture, and the laying out, copying, enlarging and tinting of plans and elevations of machinery and buildings.

The Free-hand Drawing Class was divided into four sections. The course of instruction was as follows :

teachers to fill vacancies in the Evening Schools, made by the several Boards of School Trustees, be referred to the Committee on Evening Schools, with power to confirm or reject the same.

Commissioner BEARDSLEE presented a report from the Committee on Evening Schools, recommending the employment of assistant teachers in the registration and classification of pupils, as follows :

To the Board of Education :

The Committee on Evening Schools respectfully submit herewith the usual resolution, regulating the number of assistant teachers to be employed in assisting the Principal in the registration and classification of pupils applying for admission in the Evening Schools :

Political Science.

The students were instructed in the elementary study of the philosophy of social organization, the English Constitution, the United States Constitution, the development of political parties in our country, and a short course in economics, with especial reference to the current questions of wages, the tariff, currency, banking and taxation. The method of instruction employed was that of the conversational lecture, with weekly debates on uppermost topics. At the close of the term the students formed themselves into a Political Science Club, to continue the work during the time the school remains closed.

Phonography.

The work done was as follows :

First, or Beginners' Class.—The elementary principles of Phonography as laid down in Graham's Hand Book; contractions, abbreviations, &c., ending with word-signs of the corresponding style; translations from shorthand to longhand and *vice versa*; all of Graham's First Phonographic Reader translated.

Second, or Advanced Class.—Review of word-signs of corresponding style; reporting word-signs from Graham's Hand Book; phrase-writing, taught by dictation from Graham's Dictionary; most important selections from Graham's Second Reader translated; notes taken in reporting style from dictation from newspapers.

Penmanship, Arithmetic and Bookkeeping.

The classes in penmanship were thoroughly drilled in the Payson and Dunton Systems, and especial attention was paid to rapid writing.

1st of May of that year, and making inquiry, *under oath*, as to his conduct as a Principal since that date down to the present, and that said Special Committee report the result of their investigation to this Board, with such advice and recommendation as they may deem fit and necessary.

In connection with said resolution Commissioner Wood called for the reading of the report, which was read by the clerk.

The PRESIDENT put the question whether the Board would adopt the resolution offered by Commissioner Wood, and it was decided in the negative.

Much time was given to conversational exercises to enable the students to express their thoughts freely and correctly in the German language. Commissioner POMEROY presented a report from the Committee on Warming and Ventilation, relative to the boilers, &c., in G. S. No. 45, as follows :

To the Board of Education :

The Committee on Warming and Ventilation, to whom was referred the communication from the Trustees of the Sixteenth Ward, asking that action, with reference to placing new steam boilers in Grammar School No. 45, be suspended ; respectfully report, that at the suggestion and request of the Engineer of this Board, the Trustees, on the 4th day of April, applied to this Board for authority to advertise for proposals for placing new steam boilers in Grammar School No. 45.

On April 18th, this Committee reported to the Board, giving the Trustees the authority asked for, which report was adopted, May 2d.

In pursuance of the authority thus conferred, specifications for the work were drawn by the Engineer, and approved by this Committee, and the Trustees of the Sixteenth Ward, and an advertisement soliciting proposals for doing the work was inserted in the *City Record* for two weeks.

On June 4th, the Trustees met at the Hall of the Board of Education, and opened the proposals submitted, the lowest bid

g \$1,080, but refused to make any award of contract, claiming that subsequent examination by other and competent engineers develops the fact that the present boilers are in good condition, only requiring some ordinary repairing; the boilers have been in use not more than nine years; asking that action on this matter be suspended, and submitting a certificate from the Police Department, certifying that the boilers "are in good condition, and are safe to sustain a working pressure of fifteen pounds of steam to the square inch;" and a proposition from the committee proposing to make all necessary repairs to these boilers for the sum of \$650.

In answer to these statements the Engineer of the Board informed your Committee that he had carefully examined the boilers in question, and considers them in a very dangerous condition, and is not willing to assume the responsibility in case an accident should occur from their use. He also states that these boilers have been in use but nine years, and should have done good service for at least twenty years, and would have done so had they not been subjected to very hard usage by a former janitor of the school, who was inattentive to his duty in this respect.

The Committee submit these facts to the Board, in order that a record may be made of the whole proceeding.

Laid over under the rule.

Commissioner POMEROY presented a report from the Committee on Warming and Ventilation, relative to the boilers, &c., in G. S. No. 45, as follows :

To the Board of Education :

The Committee on Warming and Ventilation, to whom was referred the communication from the Trustees of the Sixteenth Ward, asking that action, with reference to placing new steam boilers in Grammar School No. 45, be suspended ; respectfully report, that at the suggestion and request of the Engineer of this Board, the Trustees, on the 4th day of April, applied to this Board for authority to advertise for proposals for placing new steam boilers in Grammar School No. 45.

On April 18th, this Committee reported to the Board, giving the Trustees the authority asked for, which report was adopted, May 2d.

In pursuance of the authority thus conferred, specifications for the work were drawn by the Engineer, and approved by this Committee, and the Trustees of the Sixteenth Ward, and an advertisement soliciting proposals for doing the work was inserted in the *City Record* for two weeks.

On June 4th, the Trustees met at the Hall of the Board of Education, and opened the proposals submitted, the lowest bid

being \$1,080, but refused to make any award of contract, claiming "that subsequent examination by other and competent engineers develops the fact that the present boilers are in good condition, only requiring some ordinary repairing; the boilers have been in use not more than nine years;" asking that action in this matter be suspended, and submitting a certificate from the Police Department, certifying that the boilers "are in good condition, and are safe to sustain a working pressure of fifteen pounds of steam to the square inch;" and a proposition from parties proposing to make all necessary repairs to these boilers for the sum of \$650.

In answer to these statements the Engineer of the Board informed your Committee that he had carefully examined the boilers in question, and considers them in a very dangerous condition, and is not willing to assume the responsibility in case an accident should occur from their use. He also states that these boilers have been in use but nine years, and should have done good service for at least twenty years, and would have done so had they not been subjected to very hard usage by a former janitor of the school, who was inattentive to his duty in this respect.

The Committee submit these facts to the Board, in order that a record may be made of the whole proceeding.

} Committee
on
Warming
and
Ventilation.

On motion of Commissioner POMEBOY :

Ordered, That said report be entered in full in the minutes, and placed on file.

Commissioner POMEBOY presented a report from the Committee on Warming and Ventilation, stating, that they have had

under consideration the subject of the repairs necessary to be made to the heating apparatus in all the schools, to place them in good condition for use during the next winter. They have also considered a report from the Engineer of the Board on the same subject, stating, that from an examination made, it will require an expenditure of \$11,646.00 to place all apparatus in use in good condition, and submitting detailed statements of the work required to be done in each School.

Your Committee have authorized an expenditure of \$2,374, from the "Buildings Contingent Fund," and recommend that a special appropriation of \$9,272 be made for making the balance of the repairs, &c., required.

The following resolution is submitted for adoption :

Resolved, That the sum of nine thousand two hundred and seventy-two dollars (\$9,272.00) be, and the same is hereby appropriated to be expended under the direction of the Committee on Warming and Ventilation, in sums not exceeding \$200 for any one piece of work, in repairing the heating apparatus in the several Grammar and Primary School buildings. The bills for the same to be paid on the approval of the Trustees of the Ward in which the same may be incurred, the Engineer of this Board and the Committee on Warming and Ventilation.

Commissioner POMEROY presented a report from the Committee on School Furniture, to whom was referred the application from the Trustees of the Sixth Ward, for authority to rearrange the furniture and for new furniture for Gram-

Twentieth, and Twenty-second Wards, relative to the awards of contracts made by them, for alterations to and repairs of the steam heating apparatus in the Grammar School buildings Nos. 44, 38, 32, 33, 48, 53, 51 and 58, and Primary School building No. 35 ; respectfully report, that for the Fifth Ward school four bids were received, amounts \$693, \$660, \$557, \$368. In the Fifth Ward, the Trustees selected the second lowest bidder, Messrs. John Neal & Co., for \$557, but state that "if Carraher & Co. (the lowest bidders) are satisfactory to the Finance Committee of the Board of Education, the Trustees do not object to having their award set aside ; one of our Board, being a practical engineer, states that the work cannot be done properly at the price stated in Carraher & Co.'s bid." The Finance Committee, notwithstanding this opinion, recommend that the award for this work be given to Messrs. Carraher & Co., the lowest bidders.

In the Eighth Ward, the Trustees selected the lowest bid-

in the Nineteenth Ward, Messrs. Carraher & Co. being low-are selected by the Trustees and concurred in by your committee for both schools, for \$424 and \$1,298, respectively.

in the Twentieth Ward, Messrs. Carraher & Co. are selected Grammar Schools Nos. 32 and 33, and Messrs. John Neal & Co. for Grammar School No. 48, they being the lowest bidders; your Committee concur in all these awards for \$238, \$424 and \$231, respectively.

in the Twenty-second Ward for Grammar Schools No. 51 and No. 58, Messrs. John Neal & Co., for \$2,018 and \$339, were selected by the Trustees, and the award is concurred in by your Committee, they being the lowest responsible bidders. The Board has the ability to appropriate the sums named, and the rules of the Board in reference to the work named having been complied with, a resolution is submitted for adoption, authorizing the appropriation.

The PRESIDENT laid before the Board the report of the minority, relative to the appointment of Principal and Instructors in the Evening High School, for the ensuing term, as follows:

to the Board of Education :

In conformity with the usual custom, established for many years, of reappointing the principal and teachers for the Evening High School, the undersigned submits the following resolutions for adoption, with reasons therefor.

Changes should only be made for good cause, and upon grounds of inefficiency or for such good reasons as would command themselves to the best judgment of this Board.

The Evening High School is doing excellent work in the system, which would be seriously impaired were the instructors therein made to feel that their positions were insecure, or to be used as a means of patronage, from year to year, irrespective of length of service, or faithful performance of duty.

The undersigned cannot agree with his associates upon the Evening School Committee, in recommending, without adequate cause assigned, the displacement of Messrs. John J. Doane and George White, both of whom have been long connected with the public schools of our city. Mr. Doane is principal of Grammar School No. 19, and was the former principal of the school known as Grammar School No. 35, Twentieth Ward, and President of the 'Teachers' Association, and Mr. White is principal of the largest Grammar Department in the city, No. 70, in the Nineteenth Ward.

Against either of these gentlemen, there is not one word to be said, as to efficiency or proper attention to duty. Mr. White has been connected with the Evening High School for sixteen years, since 1867, has had charge of a popular subject with the students, with large classes during each term, has ever attended to his work faithfully and conscientiously, and has always secured the highest expressions of good will and approbation of his several principals, Dr. Thomas Hunter, City Superintendent Jasper and Mr. J. S. Babcock.

In accordance herewith, the following are submitted for adoption by your Board :

Resolved, That the resignation of Mr. Edward H. Boyer be, and the same is hereby accepted.

Resolved, That the following named persons be, and they hereby are appointed instructors in the Evening High School, for the term of 1883 and 1884 :

Jared S. Babcock, Principal.

Jacob T. Boyle, General Assistant.

Thomas Greenwood, Latin and English.

Graham McAdam, History and Political Science.

Henry S. Carr, Reading and Declamation.

La Fayette Olney, Mathematics.

resolved, That the Principal of the Evening High School be authorized to employ six of his assistants, during the two weeks previous to the commencement of the term, to assist in the registration and classification of pupils applying for admission, said assistants to be paid at the rate of five dollars per night.

Respectfully submitted,

W. J. WELCH.

Commissioner BEARDSLEE presented a report from the committee on Evening Schools, relative to the appointment of a Principal for Junior Evening School No. 62 ; stating, that one of the members of the Board of Trustees nominated Mr. Wallace F. Lyons for the position, and the remaining five Trustees submitted the name of Mr. Evander Childs.

Mr. Lyons is First Assistant in Grammar School No. 62, and is the Junior First Assistant in the Ward ; has held that position less than a year, and has never been employed in the Evening School of the Ward.

Mr. Childs is Principal of Grammar School No. 61, and has been Principal of the Evening School in question for two years, producing excellent results.

Your Committee do not think a change in the management of the Evening School for the ensuing year would be advisable, and are of the opinion that the best interests of the school would be promoted by the reappointment of Mr. Childs to the position he has heretofore so ably filled.

The following resolution is submitted for adoption :

resolved, That Evander Childs be, and he is hereby appointed Principal of Evening School No. 62, for Juniors, in the Twenty-third Ward, for the term of 1883 and 1884, under

the provisions of chapter 112, section 3, of the Laws of 1883 (Consolidation Act of 1882, § 1027, Sub. 3).

Patrick Kelly, new building corner One Hundred and Nineteenth street and Avenue A.

Francis Gallagher, new building corner Sixty-eighth street and Lexington avenue.

The Committee recommend that the wages of the inspectors appointed in conformity with the resolution above referred to be fixed at \$4.50 per day, less 2 per cent., instead of \$4 per day, to date from commencement of service, and submit the following resolution for adoption :

Resolved, That the wages of the Inspectors appointed to supervise the erection of new buildings, &c., under the authority conferred by resolution adopted March 3, 1880, as printed in Journal of that year, page 129, be fixed at four dollars and fifty cents (\$4.50) per day, for actual service, less two per cent. Commissioner POMEROY presented a report from the Committee on School Furniture, to whom was referred the communication from the Trustees of the Tenth Ward, calling the attention of the Board to the inferior quality of the furniture placed in Grammar School No. 75, by the contractors, Baker, Pratt & Co. ; stating, that examination of the work develops the fact that a few of the large panels on the desks were somewhat affected by the swelling of the wood, and the later shrinkage of the same. The paneling behind the principal's desks was slightly affected from the same cause. The large amount of work required in a building of the size of G. S. No. 75, affords opportunity for slight defects to appear, which time alone will develop, and cannot be guarded against in the beginning.

Messrs. Baker, Pratt & Co. have had the work placed in proper condition, and inform your Committee that they hold themselves in readiness at all times to correct any defects that may appear in work done by them.

The Committee ask to be discharged from the further consideration of the subject, and submit the following resolution for adoption :

MOTIONS AND RESOLUTIONS.

Commissioner Wood offered the following :

Whereas, The report of the City Superintendent regarding certain of the Common Schools of the city from 1st May to 20th June, inclusive, as printed on page 478 of the Journal of this year, shows that—

67 per cent. of the classes in the Tenth Ward,
77 per cent. of the classes in the Twelfth Ward,
75 per cent. of the classes in the Eighteenth Ward,
were *excellent* in character of instruction, and only 35 per cent. of the classes in the Colored Schools were in that category ; therefore,

Resolved, That the City Superintendent be directed to report to this Board, at its next meeting, the cause or causes of this lamentable falling off in the character of the instruction in the Colored Schools, as compared with the white schools in the wards referred to ; and further, that the City Superintendent suggest to this Board some remedy for this great evil.

Commissioner BEARDSLEE presented a report from the Committee on Evening Schools, relative to the appointment of Assistant Teachers in Female Junior Evening School No. 19, as follows:

To the Board of Education:

The Committee on Evening Schools respectfully represent:

That a paper purporting to contain the nominations for appointment to Junior Female Evening School No. 19, made at a meeting of the Board of Trustees of the Seventeenth Ward, on the 1st day of May, was referred to your Committee on the 6th June, was considered by them on the 18th June, and the result of this consideration submitted to the Board at its meeting on the 20th June.

Your Committee, however, ascertained from the statement

of one of the Trustees that the paper here referred to did not represent correctly the action taken by said Trustees at the meeting of the 1st of May. By request of the Chairman of your Committee, so much of the report of the Evening School Committee as relates to the appointment of assistant teachers to this school was recommitted on the 5th day of July, 1883, for investigation and report.

The Committee met on the 9th inst., and heard the statement of Trustees Horgan, Beyer, Moore and Merritt. It was admitted by said Trustees that said paper did not correctly represent the action of said Board taken on the 1st May. The explanation made was that a majority of the Board, constituting the Committee on Teachers, made a change in the report, subsequent to the action of the Trustees, by substituting the name of one teacher for that of another, intending to have said change ratified at a meeting of the Trustees before the list of nominations was transmitted to this Board.

By some oversight this approval was not made until the meeting of the Trustees in July. The official record of this last transaction has not yet been presented to this Board. It therefore happens that there are three separate actions of the Trustees, which in some respects differ from each other :

First.—The actual proceedings taken on the 1st May, which have not been presented to this Board.

Second.—The altered record of said proceedings, which was presented and acted upon, and which is informal, incorrect and irregular.

Third.—The proceedings of the Board meeting in July, which have not been sent to this Board.

There has been so much irregularity in this matter that our Committee think it best to recommend that the whole subject be returned to the Trustees, so that their final will, as ascertained at a regularly called meeting, may be known.

The Committee, while believing that the action of the majority of the Trustees was not dictated by any unworthy motive, regard such action as reprehensible in the last degree. The power to revise the action of a Board of Trustees, or to alter its decrees, rests with the Board alone, convened for business, and not with the majority of the Board, assembled for other purposes, and as a committee thereof. And the Committee can only express its astonishment that a different view could be entertained by any Trustee. Law and common sense are opposed to the course pursued by the majority of the Trustees of the Seventeenth Ward.

The Committee refrain from recommending any further censure, inasmuch as they believe the said Trustees acted from honest motives, but without a proper knowledge of their duty in this particular case.

The following resolution is submitted for adoption :

Resolved, That the nominations for assistant teachers in Junior Female Evening School No. 19, filed with this Board on June 6th, be returned to the Trustees of the Seventeenth Ward, as being irregular in the manner of their making, and acknowledged by said Trustees to be an incorrect record of their action ; and that said Trustees notify this Board without delay of the legal and proper nominations made by them.

Commissioner BEARDSLEE asked and obtained unanimous consent for the immediate consideration of said report.

The PRESIDENT *pro tem.* put the question whether the Board

TO STEPHEN A. WALKER, Esq.,

President Board of Education:

At a meeting of the Board of Estimate and Apportionment,

chapter 335 of the Laws of 1873, held July 26, following preamble and resolutions were adopted, to

section 189 of the New York City Consolidation Act 2, provides as follows :

“The Mayor, Comptroller, President of the Board of Aldermen, and the President of the Department of Taxes and Assessments, shall constitute the Board of Estimate and Apportionment.” * * * *

* “The said Board shall annually, between the first day of August and the first day of November, and by the affirmative vote of all the members, make a provisional estimate of the amounts required for the expenses of conducting the public business of the City and County of New York, and each department and branch thereof, and of the Board of Education for the then next ensuing financial year. * * *

For the purpose of making said provisional estimate, the heads of departments and the Board of Education shall at least thirty days before the said provisional estimate is required to be made, as herein provided, send to the Board of Estimate and Apportionment an estimate in writing, herein called a Departmental Estimate, of the amount of expenditure, specifying in detail the objects there-
required in their respective departments, including a statement of each of the salaries of their officers, clerks, employees, and subordinates. The same statement as to salaries and expenditure shall be made by all other officers, persons or boards having power to fix or authorize them. A duplicate of these Departmental Estimates and statements shall be sent at the same time to the Board of Aldermen.”

That the Comptroller request the heads of all the

departments, and the officers of the City and County of New York, to send their Departmental Estimates for the year 1884, in conformity to the foregoing provisions of law, to the Board of Estimate and Apportionment, on or before September 10, 1883.

Resolved, That the officers of all institutions which may be entitled by law to allowances of money from the City and County of New York, also be requested by the Comptroller to send their estimates for the year 1884 to this Board, on or before September 10, 1883.

You are hereby respectfully requested to prepare and send to the Board of Estimate and Apportionment, on or before the 10th day of September next, estimates in writing, of the amounts required to pay the expenses of conducting the public business in your Department, in and for the fiscal year, 1884, specifying the purposes and objects of the expenditure, including a statement of the amount of each of the salaries of all officers, clerks, employees and subordinates; and the names of the several persons to be paid such salaries, respectively, in accordance with the above cited provisions of law. Full explanations of proposed expenditures should accompany your estimates, in order that misunderstandings may be avoided.

MISCELLANEOUS COMMUNICATIONS.

The PRESIDENT laid before the Board the following communications :

From the Professors of the Normal College, relative to an increase in their salaries, as follows :

NORMAL COLLEGE OF THE CITY OF NEW YORK, {
Sept. 18, 1883. }

To the Honorable the Board of Education :

GENTLEMEN—We, the undersigned, Professors in the Normal College, respectfully draw your attention to the fact that, whereas the work which we do is similar in character and extent, and is equal in importance to the community to that required of the Professors in the College of the City of New York, making equal demands on our time and abilities, we are nevertheless paid lower salaries.

We therefore respectfully present this, our petition, to your Honorable Board, that you may see fit to amend this discrepancy, which originated in the infancy of the Normal College, whilst it was still regarded as an experiment, by now raising our salaries to the same rate as those paid in the sister institution.

Trusting to the high sense of equity that we know actuates every member of your Honorable Board, we feel that we need offer but the one argument in support of our request—its intrinsic justice. It cannot be right morally, or fair from a business point of view, that similar work, performed with

similar fidelity, should be recompensed by the same employer by widely different rates of salary.

Very respectfully,

ARTHUR H. DUNDON,
JOSEPH A. GILLET,
CHARLES A. SCHLEGEL,
EDWARD H. DAY,
EUGENE AUBERT,
GEORGE MANGOLD.

The PRESIDENT laid before the Board the report of the City Superintendent on the operations of the 'Truancy Department for September, 1883, as follows :

CITY SUPERINTENDENT'S OFFICE,
NEW YORK, October 13, 1883. }

To the Honorable the Board of Education :

GENTLEMEN—I have the honor to submit the report of the Truancy Department for the month of September last. During that time 16,292 visits were made to stores and factories for the purpose of making inquiries in relation to the employment of children between the ages of eight and fourteen years. It was found that 105 were employed contrary to law.

The fact that the Department's investigation led to the discovery of such a limited number of cases in which there was a failure to comply with the Compulsory Education Act, shows conclusively that the law is growing in efficiency and favor.

Appended will be found a detailed statement of work.

Very respectfully,

JOHN JASPER,
City Sup't.

Commissioner WOOD presented a report from the Committee on Normal College, recommending a rearrangement of the salaries of tutors in the College, as follows :

To the Board of Education :

The Committee on Normal College respectfully report :

That in the matter of salaries paid some of the tutors in the Normal College, they find discrepancies which ought, in justice, to be immediately remedied. These discrepancies have arisen mainly from the fact that, nine years ago, the salaries of all junior tutors were fixed at the minimum rate of \$800 per annum, without establishing a maximum rate, or any plan whatever for the promotion of the instructors or the increase of their salaries. Any increase of their salaries since then has resulted from the resignation or death of the higher instructors, and sometimes from the abolition of the higher positions and the division among the junior tutors of that part of the salary in excess of \$800.

When the College was established the salaries of the female instructors were fixed at the rates respectively of \$1,500, \$1,400 and \$1,200 per annum. When the salaries of all the teachers in the common schools were raised twenty per centum, these salaries were increased to \$1,800, \$1,680 and \$1,440. Owing to different causes, among which may be mentioned the reduc-

tion of two French teachers and the offering of positions, on one occasion, to the lowest bidders, the position at \$1,440 was abolished or disappeared. So that, between the position at \$1,680 and the junior position at \$800, there has been no regular or fixed rate of compensation.

The design of the Normal College Committee, when the College was founded, was to offer such compensation as would secure the services of able and accomplished teachers, qualified to carry forward the work of instruction from the completion of the highest grade of the Grammar School. Hence the lowest rate of salary was made higher than that of a Vice-Principal of a Common School. Yet your Committee find that eight of the instructors in the College now receive each \$200 less than a Vice-Principal of a Grammar School ; that five receive each \$300 less than a Vice-Principal, and that three receive each \$400 less than a Vice-Principal. Thus sixteen of the instructors employed to perform more advanced work, requiring a higher degree of scholarship than the Vice-Principals, are much more poorly compensated.

The majority of these College instructors are not novices in the profession of teaching ; two of them have been nine years in the College ; one of them eight years ; two of them nearly seven years ; two of them nearly six years, and two of them nearly three years. In addition, nearly all of them have served an apprenticeship in the Common Schools of this city. They have all performed acceptable work.

Miss Friend, one of the tutors, is now doing the work for \$1,000 which was formerly done by Miss Carr for \$1,680 ; Miss Constantini is now doing the work for \$1,000 formerly done by Miss Mitchels for \$1,680 ; Mme. Diaz is doing the work for \$1,000 formerly done by Mme. Bassie for \$1,880 ; Miss Conant is doing work in "Methods" of teaching which ought to command a much higher salary.

view of these facts, your Committee would recommend the wing plan of compensation, which would, in a short time, rid all discrepancies and give general satisfaction :

1st.—That every junior tutor be appointed at \$800 per annum ; and

2nd.—That, for every subsequent year of acceptable service her salary be increased \$50 until it reaches a maximum of \$1,200 ; after which she must abide her chances of promo-

in accordance with the spirit of this plan, your Committee recommend that the salaries of certain tutors be fixed at the amounts stated in a resolution accompanying this report.

The following resolutions are submitted for adoption :

Resolved, That, hereafter, the salary of every junior tutor appointed in the Normal College be fixed at \$800 per annum, and that for every subsequent year of acceptable service the salary be increased fifty dollars (\$50) until it reaches a maximum of \$1,200.

Resolved, That the salaries of the following named tutors in the Normal College be increased to the amount stated herein, to take effect on and after January 1, 1884 :

Laura Friend,	increase from	\$1,000 to \$1,200.

Commissioner WOOD presented a report from the Committee on Normal College, recommending an increase in the salary of the Professors, as follows :

To the Board of Education :

The Committee on Normal College respectfully report :

That they have carefully considered the petition of the six Professors in the Normal College, referred to it at the last meeting, September 19th, and have arrived at the conclusion that as the whole time of these Professors is devoted to their work in that college, and that although they have gentler elements to deal with than the professors of the sister College of the City of New York, yet their work is fully as onerous, looking at the largely increased number of students they have to instruct for the whole course of four years, and that therefore the prayer of the petitioners should be granted, and that they should each receive an increase in salary of \$500 per annum from January 1, 1884.

The following resolution is submitted for adoption :

Resolved, That the salaries of the following named Professors in the Normal College be increased five hundred dollars (\$500) each, to take effect on and after January 1, 1884 :

Commissioner WETMORE presented a report from the Committee on Teachers, to whom was referred the communication from the Trustees of the Thirteenth Ward, dated September 11, 1883, nominating Mrs. Annie E. Boyne for Principal of Primary School No. 20, vacant by the resignation on the 10th September, of Miss Ernestine F. Moll; stating, that the committee have given the nomination full consideration. The reasons of the Trustees for their departure from the usual rule of promotion, by setting aside the claims of the Vice-Principal of the school, and nominating an assistant in Primary School No. 40, were given to the Committee in person.

A communication was received from Miss Sarah A. Montague, Vice-Principal of P. S. No. 20, soliciting the appointment, on the ground of priority of service, and of having filled her present position as the Vice-Principal of the school for twenty years, faithfully and efficiently, as appears from the records in the City Superintendent's office.

In considering the nomination made by the Trustees, and the claims of Miss Montague, the Committee were compelled by a sense justice to give full weight to the common rule of promo-

tion in all cases where there are no superior reasons for setting it aside, and as the record of Miss Montague as a teacher is highly creditable, and her long experience has amply fitted her for the position, the committee recommend that the nomination of the Trustees be not concurred in, and that Miss Montague receive the appointment, twenty days having elapsed since the nomination by the Trustees.

A resolution to this effect is submitted for adoption :

Resolved, That Miss Sarah A. Montague be, and she hereby is "selected and appointed" Principal of Primary School No. 20, in the Thirteenth Ward, under the provisions of sec. 8, chap. 112 Laws of 1873, to date from the commencement of service.

To the Board of Education:

The appropriations for the support of the three Colored Schols to the first of September, amount to the sum of sixteen thousand eight hundred dollars (\$16,800); the cost is estimated, including the continuance of Nos. 3 and 4 to the end of the year, at twenty-two thousand dollars (\$22,000), leaving the sum of five thousand two hundred dollars to be provided.

It is also represented to your Committee, that an appropriation, additional to the present one, of one hundred dollars (\$100), making an aggregate of \$350, is necessary to defray the bills incurred for current repairs to the furniture, heating apparatus, &c., of these schools. Your Committee are of the opinion that these amounts may be appropriated from the balances of appropriations already made, that will not be re-

Commissioner VERMILYE presented a report from the Finance Committee, submitting an estimate of the school moneys required for the year 1884, as follows:

To the Board of Education:

The Finance Committee, to whom was referred the communication from the Board of Estimate and Apportionment in relation to the financial requirements of the Board for the year eighteen hundred and eighty-four, respectfully submit herewith an estimate, in detail, as required by the Board of Estimate and Apportionment, which is the result of a conference had with the Chairmen of the several Committees of the Board, having supervision of specific expenditures, and which

is in its general items a close approximate, derived from the present year's experience, to what will prove to be the actual sums required in 1884 for the support and extension of the Public School system.

These annual estimates must necessarily increase with the growth of the city population, and seemingly can no more be confined to any specified sum than can the increase of numbers in the school population be limited. The average attendance of pupils at all the schools in 1882, per Annual Report, was 138,329; and the whole number taught, 289,917. The estimate for 1883 is an average attendance of 145,000; whole number taught, 300,000; and at the rate of increase for the years named, the average attendance in 1884 will reach 150,000, and the numbers to be taught during some portion of the year will aggregate about 315,000. As estimates only, these figures indicate the rapid growth of the schools, and the necessity of providing the accommodations and the teachers which the estimate calls for.

A resolution, in the usual form, confirming the estimate as submitted, is presented for your adoption.

To the Board of Estimate and Apportionment of the City and County of New York:

GENTLEMEN—The Board of Education, as required by chapter 335 of the Laws of 1873, presents herewith to your Honorable Body their estimate of the sums that will be required for the support and increase of the Public Schools of the city during the year eighteen hundred and eighty-four (1884). Amounts are inserted for sites and erecting buildings for new schools, and furnishing them, which the present demands and the anticipations of the future increase of the school population seem to positively require.

CITY SUPERINTENDENT.

The PRESIDENT laid before the Board the report of the City Superintendent for the month of September, as follows :

CITY SUPERINTENDENT'S OFFICE, }
NEW YORK, *October 17, 1883.* }

To the Honorable the Board of Education :

GENTLEMEN—I have the honor to present the following report of the Superintendent's Department, from the tenth day of September to the thirteenth day of October :

During that time a careful inspection of all the schools was made. The cleanliness of the buildings, the improvements in light, ventilation and facilities for rapid dismissal, the condition of the yards and premises, and all other matters that pertain to the general efficiency of the school system, received special attention.

It is gratifying to be able to report that, in almost every respect, the schools open with the promise of increased usefulness and success. The few deficiencies noted will be reported to the respective Boards of Trustees for their action.

The annual examination of the following named Corporate Schools, participating by law in the School Fund, took place:

The New York Orphan Asylum, Protestant Half Orphan Asylum, Leake and Watts' Asylum, Colored Orphan Asylum, Ladies' Home Mission, Five Points' House of Industry, New York Juvenile Asylum, Roman Catholic Orphan Asylums, New York Society for the Relief of the Ruptured and Crippled, Nursery and Child's Hospital and its branch on Staten Island, Children's Aid Society Schools, the Female Guardian Schools, and the Association for Befriending Children and Young Girls.

The number of pupils on register in the 12 schools of the American Female Guardian Society was 2,161, and the number present at time of visit, 1,793, instructed by a corps of 45 teachers.

The number on register in the 21 schools of the Children's Aid Society was 4,542, with an attendance of 3,417. The number of teachers employed was 73.

In the asylums and other institutions, the registered number was 3,865, and the attendance 3,656, with 74 teachers.

In the 192 classes examined, the instruction was, with seven exceptions, of a satisfactory character.

The law in relation to sectarian teaching appears to be carefully complied with.

The Term of the Evening Schools for 1883-'84, commenced on Monday, October 1st. Since that date the Assistant Superintendents have visited all these schools, made a careful inquiry into the character of their organization, and inspected the instruction and discipline of every class.

The number registered previous to the opening was 11,306. The average attendance for the two weeks ending October 12th was 9,310. The number of teachers employed, including 26 principals, was 272.

Statistics in regard to attendance, and so forth, will be found appended.

The monthly returns of the Principals of the Grammar and Primary Schools show that the total number of pupils on register on the thirtieth day of September last, was 140,322, with an average daily attendance of 129,562; an increase of 3,235 in enrollment and 7,188 in attendance, as compared with the corresponding period last year.

The whole number of teachers employed, including principals, during the month, was 3,023, or 68 greater than during September, 1882.

The attendance by Wards, and other interesting information, will be found appended.

The number of days lost by absence of teachers during the fifteen school days of September last, was 1,474, a decrease of 923, when compared with September, 1882.

I append a list of teachers in whose classes the absenteeism for the month was in excess of twenty per cent.

Very respectfully,

JOHN JASPER,
City Superintendent.

From Principals of schools, recommending that the *Pupil's Companion* be added to the list of supplies.

From Anthony Zucea, resigning his office as Trustee of Common Schools of the Third Ward.

Referred to the Committee on Nomination of Trustees.

From Edward Doyle, asking for an Evening School for the instruction of blind pupils.

From Miss Kate Stanley, resigning her position as teacher in Colored Evening School No. 4.

Referred to the Committee on Colored Schools.

From Miss Louise M. Studwell, a protest against the action of the Board of Education in refusing to pay her the maximum salary as Principal of P. S. No. 47.

Referred to the Committee on Teachers.

From teachers in Primary Schools, asking for a rearrangement of salaries, as follows :

To the Honorable Board of Education of the City of New York :

We, the Primary Teachers in the Public Schools of the City of New York, represented in an association, do respectfully urge for your consideration the following reasons why, in the judgment of your petitioners, a readjustment of salaries should be granted, which shall do greater justice to the dignity and importance of the Primary teachers' work, and at

the same time answer the reasonable requirements of the teachers themselves.

First.—Primary or foundation work is the most important, in that fully one-half of the number taught never enter the Grammar Department. The classes in the Primary Departments are larger ; the work exhausts just as much vital force, and makes just as large a drain upon the intellectual resources.

Second.—The candidate for the position of teacher must pass the *same examination* to teach in the Primary as in the Grammar Department ; yet the discrepancy in salaries is great.

Third.—It has been acknowledged by Superintendents and other educators that the youngest children require the most capable teachers ; but many teachers, eminently fitted for Primary work, are attracted by higher salaries to positions in the Grammar Departments.

Fourth.—Under the present system Primary teachers are unable to advance, and there are great discrepancies in the salaries of those doing the same work. We cite a few instances : Two teachers have served twenty-five and twenty-six years, respectively, and having attained the highest position—that of “First Assistant”—receive only \$675. Of two teachers, who have each served fourteen years, one receives \$762.50 ; the other only \$550. Another receives \$550, who has taught eighteen years ; while still another receives \$550 who has taught but three years. These are a few of the injustices so keenly felt by Primary teachers.

Fifth.—In many instances, through no fault of the teacher, the attendance of the school decreases, and the salaries being based upon attendance, are reduced. These fluctuations we feel to be not only unjust, but discouraging. We ask your unprejudiced consideration of a few instances of reduction. One,

a teacher of thirty years' experience, has already lost \$80 ; and will, under the present system, lose \$100 more next year. Another, of twenty years' experience, has lost \$100 ; and a number in the same school are receiving less to-day than they did seven years ago.

We are informed that the system of paying salaries according to length of service is being tried successfully in the Normal College in our own city, and in the schools of some other cities. This *we* feel to be an equitable plan ; therefore, we would beg your consideration for such a readjustment of salaries as shall be based upon length of successful service, and which will also make a just distinction between the teachers of boys' and girls' classes, which distinction is made in the Grammar Department.

In view of these facts, we, the Primary teachers, earnestly beg that you will investigate the truths patent to those who will see, and allowing injustice to be no longer perpetuated, receive the heartfelt gratitude of the long suffering, patient workers in the Primary Departments.

The Committee appointed by the Association beg leave to submit for your approval the following proposition : That a minimum of \$550 be established for teachers of boys, to be increased by \$30 annually until it reaches the maximum of \$950 at fourteen years of service ; this minimum and maximum to be \$50 less for teachers of girls.

Respectfully submitted by Primary Teachers, whose signatures are affixed to this petition.

October 17, 1883.

The petition being signed by more than nine hundred teachers in Primary Departments and Schools—

On motion of Commissioner Wood—

Ordered, That said petition, without the signatures, be entered in full in the minutes.

Referred to the Committee on By-Laws, Elections and Qualifications.

RESOLUTIONS TO BE REFERRED OR PASSED WITHOUT OBJECTION.

Commissioner Wood offered the following :

Second.—The number of teachers employed who are not graduates of the Normal College.

Third.—The number of teachers employed who are graduates of the Saturday Sessions of the Normal College only.

Fourth.—The number employed who were students in the Normal College, but never graduated from it.

Fifth.—The date of the appointment of each teacher employed in the Common Schools since 1870.

Adopted.

Commissioner POMEROY offered the following :

Resolved, That it be referred to the Committee on By-Laws, Elections and Qualifications, to inquire and report whether it has become the practice of this Board to strike from the pay-rolls of the schools all pay for non-school days, and for absence excused by Trustees under section

33 of the by-laws, in the case of any teacher who renders no service during any calendar month ; and whether such practice, if it exists, is in accordance with the by-laws of this Board and the statutes of the State.

Adopted.

Commissioner POMEROY offered the following :

Resolved, That it be referred to the Committee on By-Laws, Elections and Qualifications, to inquire and report to this Board the expediency of framing a by-law to (1) obtain strict accountability for supplies furnished the several schools ; (2) to provide for the periodic collection of all disused and worn books, supplies and furniture ; (3) to provide for periodic sales of disused and worn books, supplies and furniture collected from the several schools, and such as may remain in the depository, and in the workshop so called ; and (4) to provide for the collection of superseded books in any school, for use in others where they may be needed.

And in case they deem the same expedient, to report such by-law to this Board for adoption.

Adopted.

REPORTS OF STANDING COMMITTEES.

Commissioner VERMILYE presented a report from the Committee on Colored Schools, to whom was referred the communication from Charles J. Stuart, asking that he be paid the sum of one hundred and one dollars (\$101) for services as temporary janitor of Colored School No. 3; stating, that Mrs. Delia Stuart, Janitrix of the School, died during the month of July, and her husband, Charles J. Stuart, entered upon the duties of the position on August 1st, and remained in such position until the 20th day of September (the date the regularly appointed Janitrix reported for duty), during which time he thoroughly cleaned the building.

Mr. Stuart's claim for the time he performed the duty of Janitor, including the cleaning of the building during vacation, is for a less sum than the salary of the position, and the Committee recommend that the bill be paid.

Resolved, That Mr. Charles J. Stuart be paid the sum of one hundred and one dollars (\$101) for services rendered as temporary Janitor of Colored School No. 3, from August 1st to September 20th, 1883, inclusive, said sum to be paid from the appropriation made for salaries of Teachers and Janitors in the Colored Schools.

The Board is still in possession of the premises, which are now used for school purposes.

the existing by-laws at the first session of the Board in October next."

Commissioner WEST presented a report from the Committee on By-Laws, Elections and Qualifications, to whom was referred the communication from the Trustees of the Nineteenth Ward, asking for a suspension of the by-laws, to permit the payment of the salary of Mrs. Lucie M. Johnson, Principal of Female Department G. S. No. 78, for absence of three days in May, twenty-one days in June, and fifteen days in September; stating, that Mrs. Johnson has been suffering from ill health for a long time. The Board, on recommendation of the Committee on Teachers, have excused Mrs. Johnson, with full pay, for a period of "three months in the aggregate," prior to the time now applied for, and under the provisions of sec. 33, subdivision 9 of the by-laws, she is debarred from excuse for any additional absence.

The Committee, while sympathizing with Mrs. Johnson, are constrained to report adverse to a suspension of the by-law in question, which, if done, would be simply an act of special legislation in behalf of Mrs. Johnson. By granting this application a precedent would be established whereby the present by-laws governing absence of teachers would, in the end, be rendered inoperative, there being over one hundred and thirty cases of a similar character.

The following resolution is submitted for adoption :

Resolved, That the application of the Trustees of the Nineteenth Ward for suspension of the by-laws to permit of

the payment to Mrs. Lucie M. Johnson, Principal of Female Department No. 73, of the salary deducted for absence in May, June and September be, and the same is hereby denied.

Resolved, That the thanks of the Board of Education be and are hereby given to

Miss EMMA A. KNAPP,

Principal Primary Department G. S. No. 25,

Miss HANNAH A. SILL,

Principal Female Department G. S. No. 25,

and

Mr. ROBERT H. PETTIGREW,

Principal Male Department G. S. No. 25,

and to their respective assistant teachers, for the admirable coolness and courage displayed by all of them during the panic which occurred in their school on Friday afternoon, 8th inst., when twenty-one hundred children were quieted and cared for without the slightest injury to any of them.

Stating, that from an investigation made by the City Superintendent, it appears that Grammar School No. 25 was, on the 8th of June last, in a state of temporary or partial panic, which originated in the Primary Department, in the class-room of Miss Baker, the Vice-Principal, while she was absent unnecessarily from her room, and while her pupils were under the charge, if charge it can be called, of a pupil about nine years of age. At the time of the panic Miss Lewis, who was employed in teaching the class in the room adjoining that of Miss Baker, failed to control properly her pupils.

The Principals, by their presence and influence quieting and controlling the pupils after the panic commenced, exercised their authority in such a manner as to check speedily what might have reflected seriously upon the management of the school.

Your Committee, in view of these facts, recommend that Miss

Baker, the Vice-Principal, be reprimanded by the City Superintendent, because her unnecessary absence from the class room may be said to have caused the panic, and Miss Lewis, also, because she failed to control properly her pupils, and by her failure increased very greatly the disorder throughout the school.

Laid over under the rule.

Commissioner WETMORE presented a report from the Committee on Teachers, to whom was referred the application from the Trustees of the Eighteenth Ward, to excuse the absence of Miss M. Louise Waring, Principal of Primary School No. 4, for three days in September, with full pay; stating, that in consequence of an accident to the steamer on which Miss Waring was returning from Europe, she was prevented from being present at the opening of the school in September.

Under the provisions of section 33, subdivision 9 of the by-laws, to excuse an absence with full pay, requires a certificate to the effect that the absence was "necessary for the restoration to health of the teacher."

Inasmuch as Miss Waring's absence was not caused by personal illness, the Committee are adverse to recommending a suspension of the by-law in question, and submit the following resolution for adoption:

Resolved, That the application of the Trustees of the Eighteenth Ward to excuse the absence of Miss M. Louise Waring, Principal of Primary School No. 4, for three days in September, with full pay, be, and the

same is hereby denied, said absence not having been caused by personal illness.

CITY SUPERINTENDENT.

The PRESIDENT *pro tem.* laid before the Board the report of the City Superintendent for the month of October, as follows:

CITY SUPERINTENDENT'S OFFICE, }
NEW YORK, November 21, 1883. }

To the Honorable the Board of Education:

GENTLEMEN—As required by law, I submit herewith the transactions of the Superintendent's Department from the thirteenth day of October to the third day of November.

During that time all the schools and classes of the Eleventh and Fourteenth Wards were examined.

The whole number of schools examined was 20; whole number of classes, 210. Of the latter, the instruction in 148 was reported *excellent*; in 59 *good*; and in 3 *fair*.

The discipline in all, except 1, was either *good* or *excellent*.

In management, 16 were reported *excellent*, and 4 *good*.

The returns show that 74 per cent. of the classes in the Eleventh Ward and 56 per cent. in the Fourteenth were *excellent* in instruction.

The reports made by the Principals of the Grammar and the Primary Schools for the month ending on the thirty-first day of October show that at that date the total enrollment of pupils was 140,789, and the average daily attendance for the month was 126,750, an increase of 904 in enrollment, and a decrease of 1,344 in attendance, as compared with the month of October, 1882. The fact that nearly all the Jewish holy-days last month occurred on days when the schools were in session seriously affected the attendance in most of the Wards.

The whole number of days lost by absence of teachers was 2,331, a decrease of 30, when compared with the corresponding month of last year.

Appended to this report will be found a list of teachers in whose classes the absenteeism was in excess of 20 per cent.; also a table showing the attendance, the register and the number of teachers in the Evening Schools for October last.

Very respectfully,

JOHN JASPER,

City Superintendent.

MISCELLANEOUS COMMUNICATIONS.

The PRESIDENT *pro tem.* laid before the Board the following communications :

From the Board of Trustees of the School of the Collegiate R. D. Church, inviting the Commissioners of Common Schools to attend the two hundred and fiftieth anniversary of said school, at the church, Twenty-ninth street and Fifth avenue, on Thursday evening, November 22d.

On motion of Commissioner WETMORE, said invitation was accepted.

Ordered, That said communication be placed on file.

From the Counsel to the Corporation, an opinion relative to the use of fire alarms in connection with public school buildings, as follows :

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION, }
NEW YORK, October 13, 1883. }

Hon. LAWRENCE D. KIERNAN,

Clerk of the Board of Education :

SIR—I have received the resolution of your Board, referring to me the communication of Peter Seery, Esq., Inspector of Combustibles, and asking my opinion whether, under the provisions of section 5, chapter 742, of the Laws of 1871, the Board of Education is required to connect all the public school buildings with the Fire Department Headquarters by telegraph, and also whether the Board is required to make such connection at its own expense.

Section 5, chapter 742, of the Laws of 1871, is now embodied in section 454 of the New York City Consolidation Act. It is there provided that “the authorities having charge of the public schools and other public buildings, churches and other places where large numbers of persons are congregated for purposes of worship, instruction or amusement, shall provide such means of communicating alarms and extinguishing fires, and communicating necessary information to the police, as said Board (of Fire Commissioners) and Board of Police shall prescribe.”

I think that the above provision is to be interpreted in the same manner as though the last clause had read as follows:—“as said Board and Board of Police shall respectively prescribe.” It does not appear to me that the Legislature could have intended that the Board of Police should have anything to do with prescribing the means for communicating alarms and extinguishing fires to the Fire Department, nor that it could have intended that the Commissioners of the Fire Department should have anything to do with prescribing the means for communicating “necessary information to the police.”

I am of the opinion, therefore, that under the resolution adopted by the Board of Fire Commissioners, on February 28, 1883, it is the duty of the Board of Education to cause the Public School Buildings to be connected with the Fire Department Headquarters by telegraph, and that the expense of making such connection must be defrayed out of the appropriation made to the Board of Education.

The letter of Mr. Seery to the President of the Board of Education, dated March 6, is herewith returned.

I am, sir, yours respectfully,

GEORGE P. ANDREWS,

Counsel to the Corporation.

Referred to the Committee on By-Laws, Elections and Qualifications.

Commissioner WETMORE presented a report from the Committee on Teachers, to whom was referred the complaint of John C. Turrell, against the Principal of Primary Department Grammar School No. 39, stating, that upon investigation, they find that the complaint was made under a misunderstanding of the case, which has since been satisfactorily arranged.

The Committee therefore ask to be discharged from the further consideration of the subject, and submit the following resolution for adoption :

Resolved, That the Committee on Teachers be discharged from the further consideration of the complaint of John C. Turrell, against the Principal of Primary Department Grammar School No. 39.

Commissioner WETMORE presented a report from the Committee on Teachers, to whom was referred the communication from the City Superintendent, reporting Mr. Samuel McC. Crosby, assistant teacher in Male Department No. 37, for a violation of the law prohibiting corporal punishment ; stating that they heard the evidence of the Principal of the School, and of Mr. Crosby, from which it appears that Mr. Crosby is in charge of the branch of Male Department No. 37, located in Parepa Hall. At the time the punishment is reported to have been inflicted religious services were being held in a portion of the building in which this branch is located, and Mr. Crosby had been requested to keep the pupils as quiet as possible. One of the boys persisted in making a noise with a tin whistle, after being requested not to do so, when Mr. Crosby struck him a light

blow with a small cane, which he had in his hand at the time, without, however, inflicting any injury. This took place at 8.35 o'clock in the morning, while the boys were assembling in the hall prior to going to their class-rooms.

Since the complaint was made, the father of the boy has addressed a communication to the City Superintendent, in which he says he has no desire to press the charge, and withdraws the complaint.

In view of all the facts in the case, the Committee recommend that the complaint be dismissed, and submit the following resolution for adoption :

Resolved, That the complaint against Mr. Samuel McC. Crosby, for a violation of the by-law prohibiting corporal punishment, be, and the same is hereby dismissed.

There is ample accommodation in the department for at least four hundred additional pupils.

Commissioner WOOD presented a report from the Committee on Course of Study and School Books, to whom was referred the communication from General Alexander Shaler, Chairman of the Committee of Arrangements for celebrating the Centennial Anniversary of November 25, the day in which the British troops evacuated the City of New York, in compliance with the treaty of peace signed September 3, 1783; stating, that the experience of the Board, during many years of its existence, has demonstrated the difficulty and inexpediency of marshalling the pupils of the public schools as active participants in any civic demonstrations, or of selecting detachments of pupils for such purposes. The interruption to the regular duties of the schools, with the labor, responsibility and expense imposed on teachers and scholars by such demonstrations, have deterred the Board from selecting any of these occasions for an exhibition of the pupils of the schools.

Many years since the Board adopted by-laws which preclude such processional displays, and this principle has been rigidly adhered to, even when all the sentiments and patriotism of the Board would have dictated an opposite course.

The celebration of the Centennial of Evacuation Day is an event which is inspiring from the associations of the past and the hopes of the future. It should have the fittest expression which a metropolis numbering more than a million and a

quarter of people can give to it, and one worthy of the glorious event it commemorates. While the members of the Board sympathize warmly with the motive and purpose of this public demonstration, they are reluctantly compelled to deny the request for the active participation of the public school children, as being opposed to a custom which has long prevailed in this Department.

The following resolutions are submitted for adoption :

Resolved, That the Board of Education, while recognizing and fully sympathizing with the objects contemplated by the letter of General Alexander Shaler, in the commemoration of Evacuation Day, November 25, 1883, are compelled to decline the authorizing of an organized demonstration by the pupils of the public schools.

Resolved, That the Clerk of the Board transmit a copy of this report and resolution to General Shaler.

Commissioner WOOD presented a report from the Committee on Normal College ; stating, that for the payment of bills already incurred in repairing, &c., the Normal College buildings, and for the current repairs and incidental expenses of the College, they will require an additional appropriation of five

hundred dollars (\$500), which they recommend be made by the adoption of the following resolution :

Resolved, That an additional appropriation of five hundred dollars (\$500) be, and the same is hereby made to the incidental expense account of the Normal College.

Commissioner DEVOE presented a report from the Committee on Buildings, to whom was referred the bill of Mahony Bros., amounting to \$478.43, for extra work done in connection with their contract for enlarging and altering Grammar School building No. 24, in the Sixth Ward; stating, that the work represented by this bill was necessary, and was done by agreement with the Trustees of the Sixth Ward and the Superintendent of School Buildings, under the provisions of the contract. The charges are reasonable, and as agreed upon.

The Committee recommend the payment of the bill, and submit the following resolution for adoption :

Resolved, That the sum of four hundred and seventy-eight ⁴³/₁₀₀ dollars (\$478.43) be, and the same is hereby appropriated for the payment of the bill of Mahony Bros., for extra work done in connection with their contract for enlarging and altering Grammar School building No. 24, in the Sixth Ward; the bill to be paid in accordance with the rules of this Board governing payments.

Commissioner DEVOE presented a report from the Committee on Buildings, as follows :

To the Board of Education :

The Committee on Buildings, having had under advisement the reports of the Sanitary Inspectors of the Board of Health, respectfully report, that they have carefully examined these reports ; have submitted them for careful personal inspection of the Superintendent of School Buildings ; have heard a full, detailed, and extended report from him, and have, after conference and deliberation, arrived at the conclusion that in almost every instance these reports do not assail the sanitary condition of the school buildings, but are in the nature of suggestions for the arrangement of plumbing, vent pipes, and the like, to conform to the recent plumbing law, and to improve and better the buildings under the charge of the Board.

The total cost of the improvements suggested is estimated at \$62,000, a sum which is not at the disposal of the Board, but attention seems to be required to a few defects ; and for rectifying such defects, the sum of \$6,000 is estimated as being necessary.

The Committee are strongly of the opinion that inattention on the part of janitors is largely the cause of unpleasant and perhaps deleterious smells, and that unless the janitors be requested by the Trustees to strictly attend to their duties, there is no adequate remedy for such odors.

The Committee therefore submit the following resolution for adoption :

Resolved, That the sum of six thousand dollars (\$6,000) be and the same is hereby appropriated, to be expended in sums not exceeding two hundred dollars (\$200), under the direction of the Committee on Buildings, upon applica-

tion made by the Trustees of the several wards, for remedying defects in the plumbing, ventilation, &c., &c., of the school buildings, recommended by the Board of Health; the bills for the same to be paid on the approval of the Trustees of the respective wards, the Superintendent of School Buildings, and the Committee on Buildings; and that the alterations to the school buildings suggested by the Board of Health be deferred to an early date in the coming year, when the funds of the Board may be sufficient to carry out the suggested alterations.

COUNSEL TO THE CORPORATION.

The PRESIDENT *pro tem.*, laid before the Board a communication from Hon. George P. Andrews, Counsel to the Corporation, relative to the claim of Mrs. Ann McGregor against the Board, as follows :

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION, }
New York, *December 3, 1883.*

LAWRENCE D. KIERNAN, Esq.,

Clerk of the Board of Education :

SIR—There are now pending in the Court of Common Pleas

two actions brought by Ann MacGregor against the Board of Education, to recover damages by reason of the alleged breach of certain covenants, contained in the leases of two houses known as Nos. 212 and 214 East Forty second street, which were owned by the plaintiff and occupied by the defendants for school purposes.

No. 212 was occupied by the Board of Education from 1874 to 1881, and No. 214 was so occupied from 1875 until 1881.

The leases of each building contained covenants to deliver the premises at the expiration of the term in as good condition as they were when leased, and all the leases of No. 212 contained covenants to pay the Croton water taxes on the property during the term. The leases of No. 214 had such covenants only in the year 1879, 1880 and 1881.

A separate action has been brought with regard to each building, No. 212 being embraced by action No. I, and No. 214 by action No. II; and the amount of damages claimed in each case is the sum of \$2,000.

In your letter to me under date of March 29th, 1883, enclosing various papers and documents for use in the preparation of the defense to these actions, you sent a copy of the minutes of meetings of the Board held on December 21st and December 28th, 1881, from which it appears that at the time of the expiration of the leases, the plaintiff sent a communication to the Board in which she declined to accept the premises, and demanded that the buildings be restored to the condition that they were in when first leased, or that a sum be paid her sufficient to do whatever work might be necessary to render them habitable. It also appears that thereupon a resolution was passed by the Board, appropriating the sum of \$250 for the purpose of restoring the premises in question to the condition

they were in at the time of the execution of the leases of the property.

In preparing the case for trial, it has been ascertained that the allegation of the complaint in Action No. 1, that the plaintiff has expended the sum of \$95.88 for Croton water taxes, is correct, and, as by the terms of the lease, these rents were to be paid by the Board of Education, there will unquestionably be a recovery of this amount.

The allegation in the complaint in Action No. 2, as to a similar payment of water rent, is erroneous.

In each complaint the plaintiff claims that she has expended \$40 for repairs upon the property, and, from such information as has been obtained in the course of investigations preparatory to the trial of the case, I think it probable that the plaintiff will be able to prove the expenditure of this amount of money.

It has also been ascertained from some of the officers in the employ of the Board, who were familiar with the facts of the case, that certain partitions which were torn down when the buildings were first occupied by the Board under the lease, had never been resorted, although under the covenants in the lease such restoration should have been made. In view of these facts it seems quite probable that upon the trial the plaintiff will recover a sum almost, if not fully, equal to the sum offered her by the Board in December, 1881.

I am of the opinion, however, that the Board will be able to show upon the trial that the premises were in by no means sound condition when rented; that they were materially improved and strengthened by the work done upon them under the direction of the Board, and that they were in substantially the same condition when given up as they were when taken, so that the recovery of the plaintiff, it is hoped, will not greatly exceed the amount already offered her as above stated.

For these reasons I am of the opinion that it would be advantageous to make an offer of judgment to the plaintiff for the sum which the Board has already voted to allow her in settlement for her claim, dividing the sum equally between the two suits.

In case the offer is accepted, it will carry costs, but if it is not accepted, it will have the effect of preventing the recovery by the plaintiff of any costs that otherwise would accrue after the date of the offer of judgment.

As it is necessary under the statute, that in cases where an offer of judgment is not subscribed by the party in person, it shall be subscribed by his attorney, who shall accompany it with an affidavit stating that he has been duly authorized to make the offer, I request that your Board will authorize me to offer judgment in each of these actions for \$125 and costs.

I am, sir, yours respectfully,

GEORGE P. ANDREWS,

Counsel to the Corporation.

Ordered, That said communication be entered in full in the minutes.

In connection with said communication Commissioner CRAWFORD offered the following :

Whereas, Two actions (summons 1 and 2) are now pending in the Court of Common Pleas for the City and County of New York, in each of which one Ann MacGregor is plaintiff, and the Board of Education of the City of New York is defendant; and

Whereas, George P. Andrews, Esq., counselor-at-law, as counsel for the defendant in said actions has advised said defendant in writing to make the offer of judgment hereinafter authorized :

Resolved, That said George P. Andrews, Esq., be and he is hereby authorized by the Board of Education of the City of New York to make an offer or offers, pursuant to the Code of Procedure, allowing the plaintiff above named to enter judgment in each of the above actions or the sum of one hundred and twenty-five dollars and costs.

Commissioner WOOD presented a report from the Committee on Course of Study and School Books, stating, that in compliance with the resolution adopted November 1, 1882, (Journal, 1882, page 693), they are carefully revising the Teachers' Manual of Instruction, and when completed it will be necessary to print five thousand copies, to be divided among

the Grammar and Primary Schools. To print this number of copies will require an expenditure of about \$2,500, which amount your Committee recommend be appropriated for this purpose, and submit the following resolution for adoption:

Resolved, That the sum of two thousand five hundred dollars (\$2,500) be, and the same is hereby appropriated for printing five thousand copies of the Teachers' Manual of Instruction; said sum to be expended under the direction of the Committee on Course of Study and School Books, and the bills to be paid on the approval of said Committee.

Referred to the Finance Committee.

Commissioner WOOD presented a report from the Committee on Course of Study and School Books, to whom was referred the application from the Trustees of the Third Ward to have the Seventh and Eighth Grammar Grades taught in Primary School No. 37; stating, that they deem it inexpedient to grant the application, for the following reasons:

The introduction of these grades is unadvisable, as it would interfere with the instruction in the Primary Grades. Three Grammar Schools, in which there is plenty of room for the promotions from this school, averaging only about seven—are within easy distance. In these Grammar Schools these pupils would be more efficiently taught.

The following resolution is submitted for adoption:

Resolved, That the application of the Trustees of the Third Ward, to have the Seventh and Eighth Grammar Grades

taught in Primary School No. 37 be, and the same is hereby denied.

CITY SUPERINTENDENT.

The PRESIDENT laid before the Board the report of the City Superintendent for the month of November, as follows :

CITY SUPERINTENDENT'S OFFICE,
NEW YORK, *December 19, 1883.* }

To the Honorable the Board of Education :

GENTLEMEN—I have the honor to present the following report of the transactions of the Superintendent's Department for the month of November last :

During that time all the schools and classes of the First, Ninth and Seventeenth Wards were examined.

Of the 324 classes, 227 were reported *excellent* in instruction ; 92 *good* ; and 5 *fair*.

In discipline, all the classes, except 1, were found to be either *excellent* or *good*.

In management, 23 schools were reported *excellent* and 6 *good*.

The returns show that 74 per cent. of the classes in the First Ward, 69 per cent. in the Ninth, and 70 per cent. in the Seventeenth, were *excellent* in instruction.

The school connected with the House of Refuge was visited and examined on the twenty-third day of November. The Male Department, with a register of 681 pupils, is arranged in 14 classes, taught by as many teachers; the Female Department, with a register of 108 pupils, is arranged in two divisions, taught by two teachers, each having three classes or grades under her control.

The course of study in its general features is nearly the same as that of our public schools.

The instruction in 15 of the 16 classes was reported *excellent*, and the discipline in all was of the most satisfactory character.

The Principal and teachers have shown themselves to be competent and faithful.

The management of the school reflects great credit upon those having it in charge.

The number of pupils on register in the Evening Schools at the close of November, was 10,728, with an average attendance of 7,714, instructed by 268 teachers. Annexed to this report will be found a detailed statement concerning these schools.

The reports from the Principals of the Grammar and the Primary Departments and the Primary Schools show that there were on register on the thirtieth day of November, 140,828 pupils, with an average daily attendance of 129,769; an increase of 4,246 in the enrollment, and 3,149 in the attendance, when compared with the corresponding returns of last year.

The whole number of teachers—including Principals—employed during the month was 3,037, an increase of 42 over the number employed for the same month in 1882.

The whole number of days lost by absence of teachers dur-

ing the month was 1869, a decrease of 180, when compared with the month of November, 1882.

Appended will be found a list of teachers in whose classes the absenteeism was in excess of twenty per cent.

Very respectfully,

JOHN JASPER,
City Superintendent.

Report of the Evening Schools, showing the Average Number on Register, Average Attendance, and the Number of Teachers employed during the month of November, 1883.

Commissioner WETMORE asked and obtained unanimous consent for the immediate consideration of said report.

The PRESIDENT put the question whether the Board would adopt the resolution attached to the report of the Committee, and it was decided in the affirmative, as follows :

Ayes—The PRESIDENT, and Commissioners Beardslee, Bell, Coudert, Crawford, Devoe, Kelly, Patterson, Pomeroy, Schiff, Tamsen, Traud, Vermilye, Welch, West, Wetmore and Wood
—17.

Commissioner WETMORE presented a report from the Committee on Teachers, to whom was referred, on December 5th, a communication from the Trustees of the Twenty-fourth

Ward, asking that Miss Louise Studwell, Principal of Primary School No. 47, be paid the maximum salary; stating, that on Sept. 12 (Journal, p. 580) your Committee reported in favor of paying Miss Studwell the maximum salary, which was considered by the Board Oct. 3 (Journal, p. 612) and failed of adoption, the report not receiving the requisite number of affirmative votes, as required by law.

The Committee ask to be discharged from the further consideration of the subject, and submit the following resolution for adoption:

Resolved, That the Committee on Teachers be discharged from the further consideration of the subject of paying Miss Louise Studwell, Principal of Primary School No. 47, the salary prescribed for Principals of fourteen years' standing, in sec. 35, subdiv. 4 of the by-laws.

The PRESIDENT put the question whether the Board would adopt the resolution attached to the report of the Committee, and it was decided in the affirmative.

Commissioner WETMORE presented a report from the Committee on Teachers (recommitted at the meeting of the Board held Dec. 5, Journal, pp. 782, 783), to whom was referred the application of the Trustees of the Twelfth Ward, to pay the administratrix of Luke O'Reilly, late Vice-Principal of Male Department Grammar School No. 37, the vacation salary for the month of August; stating, that Mr. O'Reilly died on the 26th of July last. It has been the custom of the Board to pay

the vacation salary of teachers who may die during the summer vacation, and the Committee recommend such action in the case of the late Mr. O'Reilly.

Resolved, That the administratrix of Luke O'Reilly, late Vice-Principal of Male Department Grammar School No. 37, who died July 26, 1883, be paid his vacation salary for the month of August.

FERDINAND TRAUD,	

Commissioner WETMORE asked and obtained unanimous consent for the immediate consideration of said report.

The PRESIDENT put the question whether the Board would adopt the resolution attached to the report of the Committee, and it was decided in the affirmative, as follows :

Ayes—The PRESIDENT, and Commissioners Beardslee, Bell, Coudert, Crawford, Devoe, Kelly, Patterson, Pomeroy, Schiff, Tamsen, Traud, Vermilye, Welch, West, Wetmore and Wood—17.

Commissioner DEVOE presented a report from the Committee on Buildings, to whom was referred the communication from the Trustees of the Twelfth Ward, asking for authority to pay a rental of \$2,000 per annum for the premises corner of Third avenue and One Hundred and Fifth street, occupied by Branch P. D. G. S. No. 72 ; stating, that on March 7th the Trustees of the Twelfth Ward applied to this Board for authority to rehire these premises for one year from May 1, 1883, on the same terms as the lease then in force—\$1,800 per annum. On April 4th (Journal, p. 266) the Board, on recommendation of the Committee on Buildings, authorized the Trustees to rehire for one year, on the terms stated in their

communication, and the lease was sent to the Trustees for signature. Upon presenting the same to the owner for his signature, he declined to execute the same, on the ground that the rent should be \$2,000, instead of \$1,800 per year.

The rent for two quarters was audited at \$1,800 per annum, and forwarded to the Comptroller for payment, and the Comptroller informs this Board that the owner, Mr. McGown, refuses to rehire the premises to the Board of Education for less than \$2,000 per annum, and has filed a claim for that amount. The Comptroller, in his communication, states that he is of opinion "that it would be better for the interests of the City to avoid litigation and pay the difference between the rent demanded and the rate paid on the lease that expired on the first of last May."

The lease expired on the first day of last May, and the Board has retained possession of the premises for school purposes, since that date, and will require the use of the same until May 1, 1885, at least.

Your Committee therefore recommend that the application be granted, and submit the following resolution for adoption:

Resolved, That the School Trustees of the Twelfth Ward be, and they hereby are authorized to execute a lease with Samson B. McGown for use of premises on northwest corner of One Hundred and Fifth street and Third avenue, occupied by the Branch of Primary Department of Grammar School No. 72, for two years from May 1, 1883, at an annual rent of two thousand dollars (\$2,000); the other conditions of the lease applicable, to be the same as those in force in the lease which expired May 1, 1883.

The school days for the year were (198) one hundred and ninety-eight.

Commissioner WEST asked and obtained unanimous consent for the immediate consideration of said report.

The PRESIDENT put the question whether the Board would adopt the resolution attached to the report of the Committee, and it was decided in the affirmative, as follows :

Ayes—The PRESIDENT, and Commissioners Beardslee, Bell, Coudert, Crawford, Devoe, Kelly, Patterson, Pomeroy, Schiff, Tamsen, Traud, Vermilye, Welch, West, Wetmore and Wood—17.

Commissioner WEST presented a report from the Committee on By-Laws, Elections and Qualifications, recommending a suspension of the by-laws, and the payment of sundry bills, as follows :

To the Board of Education :

The Committee on By-Laws, Elections and Qualifications, to whom were referred applications from the Trustees of the Eleventh, Twelfth, Twenty-second and Twenty-third Wards to suspend the By-laws, and pay sundry bills, respectfully report :

That the bills incurred by Trustees of the Eleventh Ward amount to \$330.53; by the Twelfth Ward, \$39.81; by the Twenty-second Ward, \$164.25, and by the Trustees of the Twenty-third Ward, \$24.87.

There is sufficient money to the credit of the Incidental Account of the schools in which these bills were severally incurred, to permit of their payment.

In recommending the payment of these bills, your Committee must not be understood as favoring the action of the Trustees named, in openly, and apparently, without cause, violating the By-Laws of the Board governing the expenditures of funds set apart for ordinary repairs to the school buildings under their charge. In fact, no reasonable excuse has been or can be offered for so doing; inasmuch as the By-Laws are framed to meet every emergency that may arise under them, and with promptness, by applying to the Superintendent of School Buildings, or to the Committees of the Board, having power to grant applications for repairs.

Your Committee would oppose the payment of these bills, were it not for the fact that the mechanics who performed the work are not supposed to be familiar with the laws of this Board governing repairs, and by the non-payment of their

bills, would be made to suffer for the non-attention to duty on the part of these Trustees.

As the bills do not exceed the amount appropriated for Incidental Expenses of the Schools, your Committee recommend that they be paid, and that the attention of the Trustees of these Wards, which has been so repeatedly called to these By-Laws, be again called to them, and submit the following resolution for adoption :

Resolved, That sections 54 and 56, of the By-Laws of this Board, be suspended so far as relates to the payment of the following named bills, and that said bills be paid, on the approval of the Superintendent of School Buildings, from the Incidental Expense Account of the Schools in which they were severally incurred :

December 19, 1883.

Laid over under the rule.

Ordered, That said report be entered in full in the Minutes.

Commissioner VERMILYE presented a report from the Finance Committee, to whom was referred the matter of ability to restore to Janitors and other employees of the Board, the reduction of two per cent., made by authority of the resolution adopted in January last; stating, that from the present estimates of the required sums for the current purposes of the Board, there is some doubt as to the ability of the Board to restore this reduction, it depending upon the sums remaining from appropriations, after the claims authorized to be paid from them are satisfied, and the possible excess of some such claims over the appropriations, to be met through the general account.

In this contingency, the Committee recommend the adoption of the resolution annexed, providing for the restoration of the deductions, if the Board has the ability to do it. The sum of these deductions is about \$3,200.

Whereas, By a resolution adopted on the 31st day of January last, page 117 of the Journal, it was ordered, "That the amount of two per cent. (2) be deducted from the salaries

of all janitors and other employees of this Board, excepting such as are fixed by law ;” “ said amounts of reduction suffered by each to be ‘restored,’ if the Board has the financial ability to do so, from the funds of the present year ;” therefore,

Resolved, That in compliance with the resolution so adopted, it is hereby ordered that the amount of said two per cent (2) so deducted, be “restored,” and the several sums paid, on the audit of the Finance Committee, from unexpended balances of appropriations, or from the general account, should it appear on the final adjustment of the accounts of (1883) eighteen hundred and eighty-three, that this Board has the financial ability to make such restoration.

RESOLUTIONS TO BE REFERRED OR PASSED WITHOUT OBJECTION.

Commissioner WOOD offered the following :

Resolved, That this Board feels deep regret in parting with its associates, Messrs. WEST, TRAUD and COUDERT.

It is thirty years since the first-named became a member of the Board of Education, and we shall miss "our guide, philosopher and friend" in all matters pertaining to the by-laws.

Mr. TRAUD has been a continuous member of the Board since 1873, and has always exercised a strong, economical influence in the distribution of supplies, and our system of public instruction has benefited by his knowledge of pedagogics ; and

Mr. COUDERT, though only appointed in December, 1881, has, by his graceful eloquence and learning—

"Consistent ; wearing all that weight

"Of learning, lightly as a flower,"

greatly endeared himself to his associates during his comparatively short career in the Board of Education.

The PRESIDENT put the question whether the Board would adopt said resolution, and it was decided in the affirmative.

REPORTS LAID OVER UNDER THE RULE.

The PRESIDENT announced the report of the Committee on By-Laws, Elections and Qualifications, recommending a suspension of the by-laws, and the payment of sundry bills incurred by Trustees of the Eleventh, Twelfth, Twenty-second and Twenty-third Wards.

Commissioner DEVOE called for the reading of the report of the Committee on Buildings relative to applications from the Eleventh and Seventeenth Wards for special appropriations to pay sundry bills for repairs, &c., in said Wards.

The report was read as follows :

To the Board of Education :

The Committee on Buildings, to whom were referred applications from the Trustees of the Eleventh Ward for special appropriation of \$527.92 to pay bills incurred in making repairs on G. S. 15, 71, P. S. 3 and 31 ; also, from Trustees of the Seventeenth Ward for a special appropriation of \$296.40 to pay bills incurred in placing board ceilings in G. S. No. 13, and for painting the same, respectfully report :

That the bills incurred by the Trustees of the Eleventh Ward are in violation of the by-laws of this Board, and with one or two exceptions, all are in excess of the amount allowed for incidental expenses of the schools in which they were severally incurred. The Trustees failed to make application for author-

ity to do the work, and utterly ignored the by-laws of the Board.

With regard to the application from the Trustees of the Seventeenth Ward, it appears that on June 18, 1883, this Committee authorized the Trustees to expend a sum not to exceed \$200 from the "Buildings Contingent Fund," for placing wood ceilings in five class rooms of Grammar School No. 13, and were notified of this appropriation, with instructions to consult the Superintendent of School Buildings. They, however, failed to consult the Superintendent as directed, or any member of this Committee, and during the month of August caused the work to be performed at a total expense of \$494.40, which is \$294.40 in excess of the amount appropriated, and now ask for a special appropriation to pay the bills which were illegally incurred.

Trustees should not be permitted to make expenditures of money for repairs to buildings, or for any other purpose, in direct violation of the by-laws of this Board, and without knowing whether there is any fund from which the same can be paid, especially when the Board and its Committees are constrained to exercise the utmost economy in keeping the expenditures within the limited amount fixed by the Board of Estimate and Apportionment for Public School purposes.

If Trustees are to be permitted to act in this illegal manner, the Board at the end of a year may find numerous applications for appropriations to pay bills incurred by Trustees, the total of which might exceed the amount remaining unexpended of the total allowance for the support of the schools, with no means to meet the indebtedness, and thus bring discredit on the system.

Your Committee, therefore, recommend that the applications be denied, and submit the following resolution for adoption :

Resolved, That the applications from the Trustees of the Eleventh and Seventeenth Wards for special appropriations to pay the following named bills be, and the same are hereby denied :

The PRESIDENT *pro tem.* put the question whether the Board would adopt the resolution attached to the report of the Committee, and it was decided in the affirmative, as follows :

Ayes—The PRESIDENT, and Commissioners Beardslee, Belden, Bell, Crawford, Devoe, Kelly, Patterson, Pomeroy, Schiff, Tamsen, Traud, Vermilye, Wallace, Welch, West, Wetmore and Wood—18.

Commissioner WETMORE presented a report from the Committee on Teachers, relative to excess of absenteeism in Schools in the Sixth Ward, as follows :—

To the Board of Education :

The Committee on Teachers, to whom was referred the communication from the Trustees of the Sixth Ward, with reference to certain teachers in said Ward, reported to the Board by the City Superintendent, whose classes had a rate of over twenty per cent. of absenteeism during the month of October, respectfully report that on 21st November (Journal, p. 720), the City Superintendent reported the following named teachers in whose classes the absenteeism was in excess of twenty per cent. during October :

F. D. 24—H. D. Hogan.	P. S. 8—E. I. McKeon.
J. A. Grant.	“ E. T. Lee.
P. S. 8—M. Warren,	“ M. Condon.
K. F. McLaughlin.	“ M. J. Jones.

It is but fair to state that in the classes taught by these teachers there are a large number of Jewish children who were detained at home during the month of October, to take part in the celebration of religious holidays, or in making preparation for such celebration. The percentage of Jewish children in the classes taught by these ladies is as follows :

Miss Hogan,	57 per cent.	Miss McKeon,	90 per cent.
“ Grant,	63½ “	“ Lee	83 “
“ Warren,	90 “	“ Condon,	90 “
“ McLaughlin,	92 “	“ Jones,	90 “

Your Committee, in compliance with the request of the Trustees, make this statement, in order to prevent the formation of false impressions with regard to teachers who may, perhaps, during the other portions of the year, preserve a good attendance.

The Committee respectfully ask to be discharged from the further consideration of the subject, and submit the following resolution for adoption :

Resolved, That the Committee on Teachers be discharged from the further consideration of the communication from the Trustees of the Sixth Ward, with reference to the teachers reported to this Board by the City Superintendent, in whose classes the absenteeism was in excess of twenty per cent. during October.

Commissioner WETMORE presented a report from the Committee on Teachers, to whom was referred the communication from the Trustees of the Twelfth Ward, requesting that Mrs. Mary F. Manny be allowed to retain her position and salary in Male Department No. 57 ; stating, that Mrs. Manny failed to notify the Clerk of this Board of her marriage, as required by

the by-law adopted October 3d (Journal, pp. 592 and 612), and thereby forfeited her position and salary.

Mrs. Manny now makes affidavit that she did send to the Clerk, by mail, a notice of her marriage, and also to the Chairman of the Board of Trustees, who certifies that he received the notice within the time required by the law, and directed Mrs. Manny to send a notice to this Board.

Your Committee recommend that the affidavit be accepted as proper evidence, and that the disability be removed, the explanation being satisfactory.

Resolved, That the disability in the case of Mrs. Mary F. Manny, teacher in Male Department Grammar School No. 57, who failed to notify the Clerk of her marriage, be removed, and that her salary for October, November and December be restored to her, she having made affidavit to the fact that she mailed to the Clerk of this Board a notice of her marriage within the time required by the by-law.

FINANCIAL STATEMENT.

IN BOARD OF EDUCATION,

January 16th, 1884.

Commissioner BEARDSLEE presented the report of the Finance Committee, submitting a statement of the financial operations of the Board for the year 1883, as follows :

To the Board of Education :

The Finance Committee present herewith the statement of the expenditures and moneyed obligations of the Board, for the year 1883, as prepared by the Auditor from the accounts of the Board. The payments from the general fund of \$3,423,723, including the liabilities, partly estimated, amount to the sum of three million four hundred and fifteen thousand nine hundred and twenty dollars (\$3,415,920); of this sum about two million seven hundred and sixty-six thousand dollars (\$2,766,000) was paid to teachers and janitors; one hundred and forty thousand dollars (\$140,000) for altering and repairing buildings, and putting additions thereto, and for furniture, heating apparatus, and repairs; and ninety-eight thousand seven hundred and forty-three and 43-100 dollars (\$98,743.43) to the Corporate Schools, as directed by the several acts of the Legislature. The appropriations for the several objects of expenditure have been adhered to, and in almost every instance the original estimates have covered the purposes to which they were applied. The cost of the supplies and fuel together is reduced from last year's cost some twenty thousand dollars (\$20,000). The payments from the fund of four hundred and fifty thousand dollars (\$450,000), apportioned for sites and new buildings, aggregate two hundred and one thousand nine hundred dollars, paid on account of the

appropriations for sites and for erecting buildings in the Twelfth and Nineteenth Wards.

Your Committee think that this is a commendable exhibit of the financial doings of the Board, in its application to the care of a daily average attendance of over one hundred and thirty-three thousand children, thirty-seven hundred permanent teachers, and others employed temporarily, and in the keeping in repair and furnished one hundred and twenty-eight buildings, suitably for the accommodation of these great numbers.

Respectfully submitted.
